Danto, Gregg Horowitz, Tom Huhn, Saul Ostrow, 2013-09-13 Since the mid 1980s Arthur C Danto has been increasingly concerned with the implications of the demise of modernism Out of the wake of modernist art Danto discerns the emergence of a radically pluralistic art world His essays illuminate this novel art world as well as the fate of criticism within it As a result Danto has crafted the most compelling philosophy of art criticism since Clement Greenberg Gregg Horowitz and Tom Huhn analyze the constellation of philosophical and critical elements in Danto's new Hegelian art theory In a provocative encounter they employ themes from Kantian aesthetics to elucidate the continuing persistence of taste in shaping even this most sophisticated philosophy of art

On What It Is Nenad Miscevic, Thomas J. Spiegel, Tamás Paár, Vítor Hirschbruch Schvartz, Tamás Hankovszky, Tolgahan Toy, Serdal Tümkaya, Adrienne Gálosi, Botond Csuka, Ádám Smrcz, Bence Péter Marosán, Ferenc Takó, Ádám Tamás Tuboly, Josef Ehrenmüller, 2017-01-14 When the world in which philosophers need to work and on which they ought to reflect starts changing rapidly asking questions about the nature of her discipline becomes especially pressing for the philosopher When new scholarly disciplines pop up radically restructuring the academic world problems concerning the place of philosophy among other disciplines need to be addressed When new kinds of problems enter the world and the public consciousness philosophers have to be able to tell whether their conceptual tools make them suitable to deal with them And when the very purpose and nature of academic research and scholarship transforms due to technological social and economical advancements philosophy has to redefine its place in academia and society **Art Theory for a Global Pluralistic Age** Steven Félix-Jäger, 2019-12-02 This book extends a theory of art that addresses the present eras shift towards global pluralism By focusing on extrinsic rather than intrinsic qualities of art this book helps viewers evaluate art across cultural

boundaries Art can be universally classified by an evaluation of its guiding narrative and can be understood and judged through hermeneutical methods Since artists engage culture through various local transnational and emerging global narratives it is difficult to decipher what standards are used for evaluation and which authoritative body evaluates the work This book implements a narrative hermeneutical approach to properly classify an artwork and establish its meaning and value Institutions of Art Robert J. Yanal, 2010-11 George Dickie has been one of the most innovative influential and controversial philosophers of art working in the analytical tradition in the past twenty five years Dickie s arguments against the various theories of aesthetic attitude aesthetic perception and aesthetic experience virtually brought classical theories of the aesthetic to a halt His institutional theory of art was perhaps the most discussed proposal in aesthetics during the 1970s and 1980s inspiring both supporters who produced variations on the theory as well as passionate detractors who thought the theory thoroughly wrongheaded Dickie has also written widely on the history of aesthetics and his work ranks among the best examples of analytic aesthetics The philosophy of George Dickie continues to provoke reaction and reflection The essays in this collection pay homage not only to Dickie s ideas but also to his influence A brief biography of George Dickie and a bibliography of his works complete the volume

The Future of Art Marcella Tarozzi Goldsmith, 1999-09-02 Draws upon a wide range of aesthetic theories and artworks in order to challenge the view that art is valueless or purely subjective

Human Flourishing, Liberal Theory, and the Arts Menachem Mautner, 2018-04-09 This book claims that in addition to autonomy liberal tradition recognizes human flourishing as an ideal of the good life There are two versions of the liberalism of flourishing for one the good life consists in the ability of an individual to develop her intellectual and moral capabilities and for the other the good life is one in which an individual succeeds in materializing her varied human capabilities Both versions expect the state to create the background conditions for flourishing Combining the history of ideas with analytical political philosophy Menachem Mautner finds the roots of the liberalism of flourishing in the works of great philosophers and argues that for individuals to reach flourishing they need to engage with art Art provides us with wisdom insight critical social and political thinking and moral education Thus a state which practices the liberalism of flourishing must play an active role in funding the creation and dissemination of art Consequently the liberalism of flourishing is better equipped than autonomy liberalism to compete with religion in the domains of meaning and over the shape of the regime the political culture and the law in countries in which liberalism is contested Political theorists and lawyers will enjoy engaging with this version of liberalism as will students of social democracy and art policy The Art and Philosophy of the Garden David E. W. Fenner, Ethan Fenner, 2024 In TThe Art and Philosophy of the Garden philosopher David Fenner and botanist Ethan Fenner examine the philosophical ideas lying behind one of the most universal human activities. They strip away our assumptions and take a close look at gardens starting with a definition of what a garden is and argue for a particularly way of understanding their aesthetic properties Fenner and Fenner make the case that many gardens have a claim to being legitimate works of art

Their comprehensive and accessible discussion contributes to the resurgence of the theory of gardens and gardening and will also interest any thoughtful person who cares about gardens Hegel and the Present of Art's Past Character Alberto L. Siani, 2023-08-11 This book reclaims Hegel's notion of the end of art or more precisely of art's past character not just as a piece of the history of philosophy but as a living critical and interpretive methodology. It addresses the presence of the past character of art in both Hegel and contemporary philosophy and aesthetics. The book in innovative contribution lies in unifying the Hegelian thesis with discussions of contemporary art and philosophy The author not only offers a Hegelian exegesis but also applies the idea of the past character of art to themes that are related to both Hegel's philosophy such as the French Revolution and the modern state Kantian aesthetics and religion and the sacred space disclosed for art and going beyond Hegel such as Celan's poetry Gramsci's criticism of Croce human rights and even the grunge rock band Pearl Jam Conversely such non Hegelian explorations will help enlighten what may look like a specific thread of Hegel's aesthetics but can be used to shed light on some core motives of his philosophy. The author's interpretation of art's past character reclaims the full value attractiveness and philosophical soundness of Hegel's thesis while rejecting its interpretation in terms of a complete dissolution of the aesthetic element into the philosophical one Hegel and the Present of Art's Past Character will be of interest to scholars and advanced students working on Hegel philosophy of art and aesthetics history of philosophy political Beyond Art Dominic McIver Lopes, 2014-01-30 Dominic McIver Lopes articulates and defends a philosophy and art theory buck passing theory of art namely that a work of art is nothing but a work in one of the arts Having traced philosophical interest in theories of art to a reaction to certain puzzle cases of avant garde art he argues that none of the theories that have dominated philosophy since the 1960s adequately copes with these works Whereas these theories have reached a dialectical impasse wherein they reiterate and cannot resolve disagreement over the puzzle cases the buck passing theory illuminates the radical provocations of avant garde art In addition when supplemented by a systematic framework for crafting theories of the individual arts the buck passing theory grounds our empirical inquiries into the arts as well as our practices of appreciation and art criticism Lopes seeks to model the diverse strategies employed by humanists and social and behavioural scientists who study the different arts He gives the specificity of each art form a central role in our appreciative endeavours and yet he stresses the continuity of the arts with similar non art activities such as fashion design sports and games cuisine nature appreciation and non literary writing **Iconoclasm in Aesthetics** Michael Kelly, 2003-09-04 Contemporary theorizing about art is dominated by a clash between two approaches philosophers have characteristically taken the view that art is a vehicle of some universal meaning or truth while art historians and others working in the humanities emphasize the concrete nature and historical particularity of the work of art Is art capable of sustaining these two approaches Or as Kelly argues is art rather determined by its historical particularity If so then if philosophers continue to pursue mainly the universality of art they inadvertently end up exhibiting a disinterest and distrust in art Kelly calls such disinterest and

distrust iconoclasm and in this book he discusses four philosophers Heidegger Adorno Derrida and Danto who are ultimately iconoclasts despite their deep philosophical engagement with the arts He concludes by suggesting ways in which iconoclasm in aesthetics can be avoided in the future Danto and His Critics Mark Rollins,2012-02-27 Updated and revised the Second Edition of Danto and His Critics presents a series of essays by leading Danto scholars who offer their critical assessment of the influential works and ideas of Arthur C Danto the Johnsonian Professor Emeritus in the Department of Philosophy at Columbia University and long time art critic for The Nation Reflects Danto's revisions in his theory of art reworking his views in ways that have not been systematically addressed elsewhere Features essays that critically assess the changes in Danto's thoughts and locate Danto's revised theory in the larger context of his work and of aesthetics generally Speaks in original ways to the relation of Danto's philosophy of art to his theory of mind Connects and integrates Danto's ideas on the nature of knowledge action aesthetics history and mind as well as his provocative thoughts on the philosophy of art for the reader

Arthur Danto and the End of Art Raquel Cascales, 2019-08-20 To get a comprehensive understanding of the core concept of the end of art this book analyses the intellectual trajectory of Arthur Danto highlighting his successive achievements in philosophy of action philosophy of history and philosophy of art If as Danto says everything is extensively associated with everything else it is impossible to avoid putting the philosophy of art in relation with his whole philosophical system
