Lonergan and Historiography Thomas J. McPartland, 2010-04-15 Although Bernard Lonergan is known primarily for his cognitional theory and theological methodology he long sought to formulate a modern philosophy of history free of progressive and Marxist biases Yet he never addressed this in any single work and his reflections on the subject are scattered in various writings In this pioneering work Thomas McPartland shows how Lonergan's overall philosophical position offers a fresh and comprehensive basis for considering historiography Taking Lonergan's philosophy of historical existence into the realm of an epistemological philosophy of history he demonstrates how the philosopher's approach builds on the actual performance of historians and as a result integrates the insights of historical specialists into a framework of functional complementarity McPartland draws on all of Lonergan's philosophical writing as well as on the vast literature of historiography to detail Lonergan's notions of historical method historical objectivity and historical knowledge Along the way he explains what Lonergan means by hermeneutics by historical description explanation ideal types and narrative by evaluative and dialectical analyses and how these elements are all functionally related to each other He also delineates the defining features of psychohistory cultural history intellectual history history of ideas and history of philosophy indicating how these disciplines play complementary roles in the critical encounter with the past Ultimately McPartland argues that Lonergan has established the principles of a historical discipline the history of consciousness that weaves together a philosophy of consciousness with rigorous historical research to grasp long term trends resulting from differentiations of consciousness His work offers a distinct perspective on historical method that takes historical objectivity seriously while providing new insight into the thought of this important philosopher

Leavis and Lonergan Joseph Fitzpatrick, 2021-02-11 This book illustrates the value of the cross fertilisation of literary criticism with philosophy something Leavis advocated in his later writings Lonergan's epistemology of Critical Realism supports Leavis's account of how we reach a valid judgment concerning the worth of a poem or literary text and his exploration of the relationship between subjectivity and objectivity illustrates how close engagement with serious literature can be considered morally beneficial something Leavis passionately believed in Leavis and Lonergan are at one in providing convincing arguments against Cartesian dualism and the dominant positivist philosophies of their times And Leavis's method and practice as a literary critic which he developed independently of Lonergan exemplify Lonergan's epistemology as applied to literature and in this way illustrate its versatility and fruitfulness

The Hidden Authorship of Soren Kierkegaard Jacob Sawyer, 2015-09-18 In this book Jacob H Sawyer explores the concept of hiddenness as a means to unlock the intriguing and oft misunderstood authorship of Soren Kierkegaard By understanding the melancholy man as first and foremost a Christian thinker this work gives special attention to how the form of Kierkegaard's authorial task complements its content giving particular attention to his use of pseudonyms The first part of the book addresses the explicit content of the authorship the second addresses the implicit form in which it was communicated to Kierkegaard's reader and the third addresses how these can help us understand Kierkegaard's own hidden inwardness Through this investigation Soren Kierkegaard is recognized as an example par excellence of a communicator He is seen to have attempted to only speak what his own life could uphold striving to be one who was in Christ the truth

Between Science and Religion Phillip M. Thompson, 2009-08-15 In exploring the role of Catholic intellectuals in engaging science and technology in the twentieth century this book initially provides a background context for this evolution by examining the Modernism crisis in the first chapter In order to unpack the subsequent evolution Thompson then concentrates in separate chapters on the distinctive contributions of four specific Catholic intellectuals Jacques Maritain 1882D1973 Pierre Teilhard de Chardin 1881D1955 Bernard Lonergan 1904D1984 and Thomas Merton 1915D1968 All of these intellectuals experienced some degree of official restraint in their efforts but through their distinctive intellectual trajectories they contributed to a different engagement of the Church with science and technology In the final chapters the book first reviews the changes within the institutional Church in the twentieth century toward science and technology Finally it then applies some key ideals of the four intellectuals to analyze and extend John Paul II's approach of critical openness to suggest how the Church can now engage science and technology

Spiritualizing Politics without Politicizing Religion James R. Price, Kenneth R. Melchin, 2022-03-31 The clash of religion and politics has been a steady source of polarization in North America In order to think wisely and constructively about the spiritual dimension of our political life there is need for

an approach that can both maintain the diversity of belief and foster values founded on the principles of religion In *Spiritualizing Politics without Politicizing Religion* James R Price and Kenneth R Melchin provide a possible framework approaching issues in politics via a profile of Sargent Shriver 1915 2011 an American diplomat politician and a driving force behind the creation of the Peace Corps Focusing on the speeches Shriver delivered in the course of his work to advance civil rights and build world peace Price and Melchin highlight the spiritual component of his efforts to improve institutional structures and solve social problems They contextualize Shriver s approach by contrasting it with contemporary landmark decisions of the U S Supreme Court on the role of religion in politics In doing so *Spiritualizing Politics without Politicizing Religion* explains that navigating the relationship of religion and politics requires attending to both the religious diversity that politics must guard and the religious involvements that politics needs to do its work *The Fall and the Ascent of Man* Joseph Fitzpatrick,2012-02-16 In this groundbreaking work Joseph Fitzpatrick challenges the traditional interpretation of chapter three of Genesis the story of Adam and Eve in Eden This narrative was imposed on the Christian West but not the East through the genius of Augustine of Hippo and came to dominate Catholic and Protestant theology Fitzpatrick points to weaknesses in Augustine s interpretation of the Genesis story before providing a revolutionary interpretation of his own Fitzpatrick claims that this story is about nothing less than hominisation Far from being an account of the original sin against God it is in fact a symbolic tale about the ascent of a hominid couple to full human consciousness Aided by modern anthropology Fitzpatrick is able to enter into the mentality of the ancient Hebrews and adopt a literary approach to the biblical text by comparing it with the Babylonian Epic of Gilgamesh In *The Fall and the Ascent of Man* he clears away the clutter of centuries and lets us see the famous tale for what it is the story of the emergence of humankind on the face of the earth first in nature then in history This book provides the key for a new interpretation of the early chapters of Genesis within a new understanding of Judaeo Christian salvation history By offering a biblical account of human sinfulness Fitzpatrick hopes to draw Western theology closer to that of the Orthodox East and point the way forward for Christian theology in the twenty first century *The Perspective of Love* Russell J. Snell,2014-04-21 While many of the Reformers considered natural law unproblematic many Protestants consider natural law a Catholic thing and not persuasive Natural law it is thought competes with the Gospel overlooks the centrality of Christ posits a domain of pure nature and overlooks the noetic effects of sin This Protestant Prejudice however strong overlooks developments in contemporary natural law quite capable and willing to incorporate the usual objections into natural law While the natural law itself is universal and invariant theories about the natural law vary widely The Protestant Prejudice may respond to natural law understood from within the modes of common sense and classical metaphysics but largely overlooks contemporary natural law beginning from the first person account of subjectivity and practical reason Consequently the sophisticated thought of John Paul II Martin Rhonheimer Germain Grisez and John Finnis is overlooked Further the work of Bernard Lonergan allows for a natural law

admitting of noetic sin eagerly incorporating grace community the limits of history a real but limited autonomy and the centrality of Christ in a natural law that is both graced and natural *Divine Scripture in Human Understanding* Joseph K. Gordon, 2019-03-15 In six closely reasoned chapters Joseph Gordon presents a detailed account of a Christian doctrine of Scripture in the fullest context of systematic theology *Divine Scripture in Human Understanding* addresses the confusing plurality of contemporary approaches to Christian Scripture both within and outside the academy by articulating a traditionally grounded constructive systematic theology of Christian Scripture Utilizing primarily the methodological resources of Bernard Lonergan and traditional Christian doctrines of Scripture recovered by Henri de Lubac it draws upon achievements in historical critical study of Scripture studies of the material history of Christian Scripture reflection on philosophical hermeneutics and philosophical and theological anthropology and other resources to articulate a unified but open horizon for understanding Christian Scripture today Following an overview of the contemporary situation of Christian Scripture Joseph Gordon identifies intellectual precedents for the work in the writings of Irenaeus Origen and Augustine who all locate Scripture in the economic work of the God to whom it bears witness by interpreting it through the Rule of Faith Subsequent chapters draw on Scripture itself classical sources such as Irenaeus Origen Augustine and Aquinas the fruit of recent studies on the history of Scripture and the work of recent scholars and theologians to provide a contemporary Christian articulation of the divine and human locations of Christian Scripture and the material history and intelligibility and purpose of Scripture in those locations The resulting constructive position can serve as a heuristic for affirming the achievements of traditional historical critical and contextual readings of Scripture and provides a basis for addressing issues relatively underemphasized by those respective approaches **Philosophy** Andrew Beards, 2010-02-01 Philosophy begins Aristotle said with wonder it addresses the great questions of life This process of self discovery through philosophy leads one to ask questions not only about human existence but also about God In *Philosophy The Quest for Truth and Meaning* Andrew Beards introduces readers to some key philosophical ideas the mind's ability to know truth and reality metaphysics ethics and questioning life's ultimate purpose in order to guide them in philosophical reflection By examining the development of philosophy Beards demonstrates and makes a case for the interplay of faith and reason Andrew Beards PhD is reader in philosophy and director of the distance learning B A Philosophy and the Catholic Tradition program at Maryvale Institute an international institute for philosophy and theology based in Birmingham UK **Conversion Works** Jeffrey A. Allen, 2021-11-17 In this book conversion means abandoning a world view and starting over Using this definition of conversion the book examines four works Augustine of Hippo's *Confessions* Rene Descartes's *Meditations on First Philosophy* Bernard Lonergan's *Insight A Study of Human Understanding* and Peter Weir's *The Truman Show* The main argument of this book is that all four works contain and induce conversion That is all four works feature an individual who abandons a worldview and starts over and all four works exhort their engager to do the same This book also explores the works

requirement of cognitive imitation wherein a person replicates the mental activities of the individual who has a conversion in the work and of private engagement wherein a person reads or views the work while alone The book concludes with an argument for the educational value of the four works that appropriates Ernest Becker s The Denial of Death American Book Publishing Record ,2006
