Story of a Neurosurgeon Pursuing the Dreams for Quintuple Certifications Rhamsis F. Ghaly, 2015-01-23 A

CHRISTIAN FROM EGYPT LIFE STORY RAMSIS F GHALY MD FACS This is my life story as a Coptic Christian born and raised in Egypt in an environment of limited opportunities and scarce resources especially for Christian minorities Seeking the promise opportunity I came to the United States nearly 30 years ago as a young man As I flew westward on the plane it did not occur to me that I would become a prominent neurosurgeon with a practice in one of the great cities of America Nor did I anticipate that I would ever be in a position to fight for save lives and fight for patients lives protecting them from the specter of financial greed permeates the health care industry This book chronicles my journey in America from my early struggles to get past closed doors to my current practice serving the mission set before me with uncompromising zeal and devotion Eventually I became a prominent American neurosurgeon among the only 4000 active nationwide and the only one nationally and internationally to achieve five board certifications in five acknowledged medical disciplines My story takes the reader through my first hand experiences through the eight health care systems and Chicagos history of neuroscience over the last three decades providing an in depth view of the medical practices in the surrounding suburban communities My book also includes the lessons that I have learned my personal views and patient testimonials What I have faced and seen since my plane landed in this country in 1984 is almost inexpressible It is my sincere wish that others may find hope and inspiration from my story as well as an understanding of the challenges that the healthcare industry faces today along with my own passion for excellence in neuroscience as I confront them I owe my success to God to my cherished parents my teachers my mentors and most importantly my beloved patients

Flashes Through the Mirror Phillip Yanke, 2017-11-10 I was told I need to write a section for the book about the book Well Im out of words and too tired to think Why cant I just draw pictures with stick figures This isnt a novel its an autobiography Is not whats inside enough to emphasize in writing what this is all about I cant explain everything because sometimes some things are just meant to be figured out In a maximum of one hundred and fifty words this section must be defined Sorry to say Im going to keep going past that because I have thoughts of unrealistic but words so intelligently intricate Anybody can plant a seed but how healthy is your soil Theres no telling what my words say because I can explain them in multiple different ways Im not trying to confuse you Can you just really understand what Im trying to say They can go this way but then again they can go that way Dont ask me I already know what Im trying to say If you have questions you might as well keep them to yourself My answers are all right here and its not my fault if you dont understand what Im trying to say Maybe Im not trying to say anything but explain how my thoughts come to you No producer no director just straight angles in ways Im trying to write to you Good luck because nobody knows what my words mean but me How Im directing them theres no control to the wind that can shift them into a direction that youll have no way to go but one way to go through Im going to put so much into this maybe I should just add an extra page Im looking for a sound but dont hear a noise Im sniffing for a breeze but dont feel any wind I execute my steps and maybe thats why I

feel like I have nothing to walk on The ground is planted and Im on the ground But somehow the air has taken me afloat to the clouds that can only bring me back down Man makes concrete and lays it down People walk over this concrete I am the concrete Thats how solid Ive become from the tramples to the stampedes I dont care what you say from however to therefore so with the cracks you may seem to think it breaks me down My weight limit exceeds multiple degrees in unlimited units of measure I have two intros and an afterthought What more do you need for an explanation for this book Im designing my own pine box but whatever you have for me let God decide the rest on that Be careful what youre reading though because I might not even be talking to you If the assumption is the mother of all then I must be mistaken If Im your doubt then I have nothing to worry about **Recreation** ,1915
