Eastern Europe, the Soviet Union, and Africa Chris Saunders, Helder Adegas Fonseca, Lena Dallywater, 2023-04-27 It is now widely recognised that a Cold War perspective falls short in unfolding the complex geographies of connections and the multipolarity of actions and transactions that were shaped through the movement of individuals and ideas from Africa to the East and from the East to Africa in the decades in which African countries moved to independence Adopting an interdisciplinary transregional perspective this volume casts new light on aspects of the role of Eastern Europe and the Soviet Union in the decolonisation of Africa Taking further themes explored in a collection of essays published by the editors in 2019 the twelve case studies by authors from South Africa Czech Republic Portugal Russia Hungary Italy Canada Serbia and Germany draw on new sources to explore the history of the ties that existed between African liberation movements and the socialist bloc some of which continue to influence relationships today Chapters contribute to three relevant main themes that resonate in a number of scholarly fields of inquiry ranging from Global Studies Transregional Studies Cold War Studies Global History to African Studies Eastern European Russian and Slavic Studies Reconsiderations Resources and Reverberations Drawing upon newly opened archives and combining transregional perspectives with sources in different languages chapters explicitly point out the shortcomings of past research and debates in the respective field They highlight new avenues which have been developing and which need to be further developed Reconsiderations Selected case studies address the resources of those being active and involved in decolonisation processes be it in East North West and South They reveal Which resources both material and intellectual are the actors

drawing upon On the other hand From which resources are individuals on one side or the other reciprocally or intermittently intentionally kept away Resources Finally the third theme puts an emphasis on the historicity of the processes depicted Studies point to the gaps and dead ends of international support the paths that peter out but also to repercussions and reverberations up until today Reverberations Taken these three themes together the individual chapters contribute to the overall question of Which general historical narratives about the second half of the 20th century are changing based on these new research findings *Political Culture in Libya* Amal Obeidi, 2001 Few empirical studies of Arab countries have dealt with political culture and political socialisation or focused on people's beliefs values and attitudes towards the government or political leaders mainly because the regimes have been reluctant to allow opinion to be tested The significance of this book is that it assesses the influence of state ideology on the new generation of Libyans and examines their political culture

Libya since 1969 D. Vandewalle, 2016-04-30 This edited volume provides the first fully comprehensive evaluation of Libya since the Qadhafi coup in 1969 Throughout the different chapters the authors explore the rise of the military in Libya the impact of its self styled revolution on Libyan society and economy **El Dorado Canyon** Joseph T Stanik, 2015-12-15 Long before the overt war in Afghanistan and the covert war against al Qaida U S forces struck at one of the world's hotbeds of terrorism On 15 April 1986 in the dead of night American strike aircraft roared into the heart of Muammar Qaddafi's Libya attacking carefully selected targets and nearly killing the brother leader himself Codenamed Operation El Dorado Canyon the raid was in direct response to Qaddafi's support of a terrorist act against U S service personnel stationed in Europe and was a result of President Ronald Reagan's pledge to respond to terrorism with swift and effective retribution Stanik a retired naval officer and Middle East scholar provides a detailed account of the raid as well as an in depth analysis of its causes and effects He also describes three other hostile encounters between U S and Libyan forces during Reagan's presidency and details U S covert operations From a bombing in West Berlin to terrorism in the skies over Lockerbie Scotland and from the halls of power in Washington to airbases in England and on the decks of American warships in the Mediterranean Stanik weaves an international thriller that is relevant to current events *Africa Development*, 1997 A quarterly journal of the Council for the Development of Economic and Social Research in Africa Revue trimestrielle du conseil pour le développement de la recherche économique et sociale en Afrique *The Contemporary Review*, 1992 *Libya and the United States, Two Centuries of Strife* Ronald Bruce St John, 2013-03-26 Diplomatic relations between the United States and Libya have rarely followed a smooth path Washington has repeatedly tried and failed to mediate lasting solutions to prevent recurrent crises and to secure its own national interests in a region of increasing importance to the United States Libya and the United States *Two Centuries of Strife* provides a unique and up to date analysis of U S Libyan relations assessing within the framework of conventional historical narrative the interaction of the governments and peoples of Libya and the United States over the past two centuries Drawing on a wide range of new and unfamiliar material Ronald Bruce St John an expert with over thirty years

of experience in international relations charts the instances of ignorance misunderstanding treachery and suffering on both sides that have shaped and limited commercial and diplomatic intercourse St John argues that Cold War strategies resulted in a paradoxical and ambiguous U S policy toward Libya during the Idris regime of the 1960s strategies that contributed to the bankruptcy of that monarchy Following the Libyan revolution the U S wrongly believed Qaddafi would become an ally in support of U S policy to keep Soviet influence and communism out of the region his failure to do so marked the beginning of an era of political tension and mutual distrust Libya and the United States Two Centuries of Strife documents how long standing policy differences over the Palestinian issue and such terrorist acts as the destruction of the U S embassy in Tripoli and the Pan Am explosion over Lockerbie in 1988 resulted in a sharp deterioration of relations St John contends that the ensuing demonization of Libya and the U S policy of confrontation which has spanned successive administrations in Washington have ironically often not served American interests in the region but rather have facilitated Qaddafi s survival
