Radical Femininity Womens Self Representation In The Public Sphere:

Radical Femininity Eileen Yeo, 1998 A pioneering study of how British women from different social groups created radical identities and represented themselves in the public sphere between 1800 and 1940 While highlighting their ingenuity in remaking various dominant discourses such as Christianity constitutionality and domesticity the book also reveals the paradoxes involved in this subversion **The feminine public sphere** Megan Smitley, 2013-07-19 At a time when women were barred from clerical roles middle class women made use of the informal power structures of Victorian and Edwardian associationalism in order to actively participate as citizens This investigation of women s part in civic life provides a fresh approach to the public sphere illuminates women as agents of a middle class identity and develops the notion of a feminine public sphere or the web of associations institutions and discourses used by disenfranchised middle class women to express their citizenship The extent of middle class women s contribution to civic life is examined through their involvement in reforming and philanthropic associations as well as local government Making use of a range of previously untapped sources this fascinating book will appeal in particular to those with an interest in Gender History and Scottish History Quaker Women, 1800-1920 Robynne Rogers Healey, Carole Dale Spencer, 2023-08-31 This collection investigates the world of nineteenth century Quaker women bringing to light the issues and challenges Quaker women experienced and the dynamic ways in which they were active agents of social change cultural contestation and gender transgression in the nineteenth century New research illuminates the complexities of Quaker testimonies of equality slavery and peace and how they were informed by questions of gender race ethnicity and culture The essays in this volume challenge the view that Quaker women were always treated equally with men and that people of color were welcomed into white Quaker activities The contributors explore how diverse groups of Quaker women navigated the intersection of their theological positions and social conventions asking how they challenged and supported traditional ideals of gender race and class In doing so this volume highlights the complexity of nineteenth century Quakerism and the ways Quaker women put their faith to both expansive and limiting ends Reaching beyond existing national studies focused solely on white American or British Quaker women this interdisciplinary volume presents the most current research providing a necessary and foundational resource for scholars libraries and universities In addition to the editors the contributors to this volume include Joan Allen Richard C Allen Stephen W Angell Jennifer M Buck Nancy Jiwon Cho Isabelle Cosgrave Thomas D Hamm Julie L Holcomb Anna Vaughan Kett Emma Lapsansky Werner Linda Palfreeman Hannah Rumball and Janet Scott *Feminism and Empire* Clare Midgley, 2007-09-28 Feminism and Empire establishes the foundational impact that Britain s position as leading imperial power had on the origins of modern western feminism Based on extensive new research this study exposes the intimate links between debates on the woman question and the constitution of colonial discourse in order to highlight the centrality of empire to white middle class women s activism in Britain The book begins by exploring the relationship between the construction of new knowledge about

colonised others and the framing of debates on the woman question among advocates of women's rights and their evangelical opponents. Moving on to examine white middle class women's activism on imperial issues in Britain, topics include the anti-slavery boycott of Caribbean sugar, the campaign against widow burning in colonial India and women's role in the foreign missionary movement prior to direct employment by the major missionary societies. Finally Clare Midgley highlights how the organised feminist movement which emerged in the late 1850s linked promotion of female emigration to Britain's white settler colonies to a new ideal of independent English womanhood. This original work throws fascinating new light on the roots of later imperial feminism and contemporary debates concerning women's rights in an era of globalisation and neo-imperialism. [Women and the Anglican Church Congress 1861-1938](#) Sue Anderson-Faithful, Catherine Holloway, 2023-05-18

This book covers new ground in its focus on the Anglican Church congresses 1861-1938 as a public space in which the views of notable women were widely disseminated. It celebrates the contribution made by women to public life and discourse on womanhood as platform speakers and commemorates the presence of the large numbers of women who joined congresses as audience members. Original research draws on extensive primary sources from official records, diaries and the press to capture women's views and voices and to evoke congress as a communicative social space and a window into topical affairs. [Women and the Anglican Church Congress 1861-1938](#) examines the roles of women in the Church and reflects on how women with a sense of vocation negotiated contemporary attitudes to their positions and spirituality. The book also explores how women's secular aspirations towards citizenship in the context of poverty, work, temperance, eugenics, class and suffrage played out at congress. **Women's History** Hannah Barker, Elaine Chalus, 2005. A wide-ranging thematic survey of women's history in Britain in the 18th and early 19th centuries with chapters written by both well-established writers and new and

dynamic scholars in a thorough and well-balanced selection. **Agitate, Educate, Organise, Legislate** Ellen Warne, 2017-07-17. After successfully agitating for the vote for women from the 1890s, Protestant women's organisations in Australia began to educate women at a grassroots level on effective ways of applying political pressure on a wide range of topics and social concerns. Positioning their organisations as non-party political and separate from more overtly feminist groups, the Woman's Christian Temperance Union (WCTU), the Young Women's Christian Association (YWCA) and the Mothers' Union attracted women who were keen to work for change and who were seeking to save the individual as well as the greater society. These three organisations sought to agitate on a wide range of issues related to girls and women, connecting with public anxieties and highlighting particular vulnerabilities of girls and young women who lived alone in the city and had the potential to be exploited in the workforce. By the 1920s and 1930s, these women's groups noted with concern the easier access to divorce and birth control in the Soviet Union and the growing influence of both Communism and Hitlerism in galvanising young people. [Agitate, Educate, Organise, Legislate](#) explores the colourful debates and anxieties that were prevalent from the 1890s to the 1930s and the responses of the key women's organisations whose leadership and campaigns

Unpicking Gender Jutta Schwarzkopf, 2018-01-18 The Lancashire cotton industry doubtless counts among the most thoroughly researched industries in Britain Cotton processing has attracted attention both as the pioneer of industrialization and the harbinger of industrial decline in many ways typifying the development of the British economy from unchallenged global leader to the demise of large sectors of its manufacturing industry Yet among the spate of book and articles published about the industry there is a conspicuous lacuna Gender though rarely addressed specifically permeates the industry's historiography nonetheless This study tackles head on the notion of gender within the cotton industry during the period 1880-1914 not so much to trace its effects on the industry itself but instead concentrating on the ways gender radicalized particularly the female workers in the Lancashire mills In so doing it promotes the view that it was women weavers' experience of the way in which gender inequality in the labour process clashed with varying degrees of inequality in the other spheres of their lives that caused

many of them to organize for the franchise Their experience of equality in the labour process both sensitized them to inequality elsewhere and empowered them to fight against it by showing it to be a product of society rather than nature Drawing on the examples provided by disenfranchised working class men and middle class women alike they accounted for inequality in terms of their exclusion from the polity In the process of holding their own against male co workers supervisory staff employers labour activists politicians and even many middle class women they evolved their own version of working class femininity which differed in important ways from the female domesticity that had a vibrant existence in labour rhetoric but rarely beyond **Ibss: Sociology: 1998** Compiled by the British Library of Political and Social Science,1999-12-16

Chartist Fiction Ian Haywood,2018-01-29 First published in 2001 When the Chartist leader Ernest Jones emerged from prison in 1850 he was determined to capture the public s attention with a controversial and topical novel The result of his endeavours was the remarkable Woman s Wrongs a series of five tales exploring women s oppression at every level of society from the working class to the aristocracy Each story presents a graphic often harrowing account of the social economic and emotional victimization of women and taken together the tales comprise a devastating indictment of Victorian patriarchal attitudes and sexual inequalities In his substantial Introduction Ian Haywood places the novel in the context of Jones s career as a Chartist author and editor and in the wider context of the woman question Some of the topics covered by the Introduction include the radical press and popular enlightenment Jones s rivalry with George W M Reynolds and the needlewoman as radical icon This title will be of interest to students of history Infidel feminism Laura

Schwarz,2017-10-03 Infidel feminism is the first in depth study of a distinctive brand of women s rights that emerged out of the Victorian Secularist movement It looks at the lives and work of a number of female activists whose renunciation of religion shaped their struggle for emancipation Anti religious or secular ideas were fundamental to the development of feminist thought but have until now been almost entirely passed over in the historiography of the Victorian and Edwardian women s movement In uncovering an important tradition of Freethinking feminism this book reveals an ongoing radical and

free love current connecting Owenite feminism with the more respectable post 1850 women's movement and the New Women of the early twentieth century This book will be invaluable to both scholars and students of social and cultural history and feminist thought and to interdisciplinary studies of religion and secularisation as well as those interested in the history of women's movements more broadly

Women, Dissent, and Anti-Slavery in Britain and America, 1790-1865 Elizabeth J. Clapp, Julie Roy Jeffrey, 2011-04-21 As historians have gradually come to recognize the involvement of women was central to the anti slavery cause in both Britain and the United States Like their male counterparts women abolitionists did not all speak with one voice Among the major differences between women were their religious affiliations an aspect of their commitment that has not been studied in detail Yet it is clear that the desire to live out and practice their religious beliefs inspired many of the women who participated in anti slavery activities in the late eighteenth and early nineteenth centuries This book examines the part that the traditions practices and beliefs of English Protestant dissent and the American Puritan and evangelical traditions played in women's anti slavery activism Focusing particularly on Baptist Congregational Presbyterian and Unitarian women the essays in this volume move from accounts of individual women's participation in the movement as printers and writers to assessments of the negotiations and the occasional conflicts between different denominational groups and their anti slavery impulses Together the essays in this volume explore how the tradition of English Protestant Dissent shaped the American abolitionist movement and the various ways in which women belonging to the different denominations on both sides of the Atlantic drew on their religious beliefs to influence the direction of their anti slavery movements The collection provides a nuanced understanding of why these women felt compelled to fight for the end of slavery in their respective countries
