participation of the US Twelfth Air Force in the Mediterranean theater of operation from 1943 to 1944 and also studies the
coalition and joint operations required in the air campaign Coalition and joint warfare provides numerous command control
and coordination problems that are not easily de conflicted The requirements of the coalition air campaign in the
Mediterranean theater provided significant challenges to the leadership of the US Army Air Forces AAF Prewar Army Air
Corps doctrine focused on strategic bombing and aerial interdiction Air men lacked a well thought out tactical support
doctrine and had no doctrine for supporting amphibious operations The mission of the AAF in the North African and Italian
campaigns was the winning of air superiority The Twelfth Air Force had to adopt new tactics and operational techniques to
support the Allied landings at Sicily Salerno and Anzio Italy against the formidable German Luftwaffe The Mediterranean
theater was the first theater to encounter the use of precision guided munitions in the form of radio controlled glide bombs
dropped by the Luftwaffe The Mediterranean theater was designated a secondary theater of war resulting in the Twelfth Air
Force operating with inadequate resources as aircraft and crews were periodically reassigned to units supporting the

Combined Bomber Offensive in the European theater of operations While supporting the Mediterranean theater the Twelfth Air Force operated alongside the British Royal Air Force RAF and was routinely tasked with supporting operations of both the US Fifth and British Eighth Armies This provided significant command control and communication C3 problems that had to be addressed to optimize the effectiveness of Allied airpower [Library of Congress Subject Headings](#) Library of Congress. Bureau of Naval Personnel, **Consolidated B-24 Liberator** Graham M. Simons,2012-08-19 The Consolidated B 24 Liberator was almost certainly the most versatile Second World War Bomber Apart from its bombing role in all theaters of operation the B 24 hauled fuel to France during the push towards Germany carried troops fought U boats in the Atlantic and probably most important of all made a vital contribution towards winning the war in the Pacific Its most famous single exploit is possibly the raid on the Ploesti oil fields in August 1943 The B 24 ended World War Two as the most produced Allied heavy bomber in history and the most produced American military aircraft at over 18 000 units thanks in large measure to Henry Ford and the harnessing of American industry It still holds the distinction as the most produced American military aircraft The B 24 was used by several Allied air forces and navies and by every branch of the American armed forces during the war attaining a distinguished war record with its operations in the Western European Pacific Mediterranean and China Burma India theaters This book focuses on the design engineering development and tactical use of the many variants throughout the

bombers service life The overall result is as David Lee the former Deputy Director of the Imperial War Museum at Duxford said upon reading the final manuscript to be acquainted with all you never knew about the B 24 The book is enlivened by the many dramatic photographs which feature and this coupled with the clarity of Simons prose makes for an engaging and entertaining history of this iconic Allied bomber a key component in several of their biggest victories and a marvel of military engineering
