S troops to enter the Second World War and the Major Carlson they spoke of was Evans Carlson a man of mythical status even before the war that would make him a military legend By December of 1941 at the age of forty five Carlson had already faced off against Sandinistas in the jungles of Nicaragua and served multiple tours in China where he embedded with Mao's Communist forces during the Sino Japanese War Inspired by their guerilla tactics and their collaborative spirit which he'd call gung ho introducing the term to the English language and driven by his own Emersonian ideals of self reliance Carlson would go on to form his renowned Marine Raiders the progenitors of today's special operations forces who fought behind Japanese lines on Makin Island and Guadalcanal showing Americans a new way to do battle In *The Raider* Cundill Prize winning historian Stephen R Platt gives us the first authoritative account of Carlson's larger than life exploits the real story based on years of research including newly discovered diaries and correspondence in English and Chinese with deep insight into the conflicted idealism about the Chinese Communists that would prove Carlson's undoing in the McCarthy era Tracing the rise and fall of an unlikely American war hero *The Raider* is a story of exploration of cultural misunderstanding and of one man's awakening to the sheer breadth of the world

*US Special Warfare Units in the Pacific Theater 1941-45* Gordon L. Rottman, 2013-08-20 The bitter fighting in the Pacific Theater required new forms of warfare and the gathering of detailed intelligence information on the remote and varied islands and their determined defenders As a result new scout raider and reconnaissance units were formed the pioneers of today's special forces Some units were small while others comprised thousands of men All contributed significantly to the war effort This book examines a wide range of PTO special warfare units including the Alaskan and Alamo scouts 5217th 1st Recon Battalion Marine Amphibious Recon and Raider units Amphibious Scouts and 6th Ranger Battalion

Hoffman, 2013-12 In February 1942 Lieutenant General Thomas Holcomb the Commandant of the Marine Corps ordered the creation of a new unit designated the 1st Marine Raider Battalion This elite force and its three sister battalions went on to gain considerable fame for fighting prowess in World War II There is more to the story of these units however than a simple tale of combat heroics The inception growth and sudden end of the raiders reveals a great deal about the development and conduct of amphibious operations during the war and about the challenges the Corps faced in expanding from 19 000 men to nearly a half million The raiders also attracted more than their share of strong leaders The resulting combination of courage doctrine organization and personalities makes this one of the most interesting chapters in Marine Corps history This author examines the history of the Marine Raiders in the Pacific War

*U.S. Marine Corps Special Units of World War II* Charles L. Updegraph, 1972

*Special Marine Corps Units Of World War II [Illustrated Edition]* Charles L. Updegraph Jr., 2015-11-06 Includes more than 25 maps and illustrations During World War II a variety of new and experimental units were organized by Marine Corps to

enhance the capabilities of the Corps For the first time under one cover this historical reference pamphlet tells of the development deployment and eventual demise of the five types of special units raiders parachutists glider forces barrage balloon squadrons and base defense battalions Official records of the Marine Corps and appropriate historical works were utilized in compiling this chronicle Among the proudest traditions of the United States Marine Corps is the legend First to Fight This recognized ability to deploy effective forces in a minimum of time to meet any contingency is not easily maintained It requires a careful evaluation of international trends and a constant reappraisal of the tactics and forces necessary to meet any crisis The types of forces which must be maintained and the structure of these forces must be reviewed and updated During the middle and late 1930s concurrently with the Japanese expansion into northern China the Marine Corps studied and refined its amphibious doctrine Subsequently the Corps stepped up its experimentation with new theories and methods to meet world wide contingencies Especially in the aftermath of the outbreak of war in Europe the United States military establishment undertook a reexamination of its resources and capabilities The Marines were among the most aggressive when it came to adapting current forces to future requirements A number of the units which emerged from this period and from the early war years were either overtaken by events during the course of the war or never lived up to their original promise In these cases the Marine Corps reorganized or disbanded the units as dictated by the tactical requirements This monograph traces the origin formation deployment and eventual demise of five such units      *From Makin to Bougainville* Jon T. Hoffman, 1995      Preparing for Victory David J Ulbrich, 2011-04-15 Preparing for Victory explains how and why Commandant Thomas Holcomb successfully supervised the dramatic expansion of the Marine Corps from 18 000 officers and men in 1936 to 385 000 in 1943 Not only did Holcomb leave the Corps much larger but he also helped establish it as the United States premier amphibious assault force and a major contributor to victory over Japan Despite Holcomb s successes he has been ignored or given short shrift in most histories of the Marine Corps No book length study of his commandancy exists until now Drawing on a wide range of printed and archival sources my book contends that Holcomb expertly guided the Corps preparations for war during the last years of the Great Depression and then provided his Leathernecks with astute direction during the first harrowing twenty five months of World War II When measured with principles of organization theory and leadership studies Holcomb s abilities and achievements match those of such outstanding American military managers as Dwight D Eisenhower Chester W Nimitz and George C Marshall Like these unassuming yet efficient officers Holcomb shied away from the limelight and therefore never garnered the attention that Chesty Puller or Howlin Mad Smith have This book fills a void and tells the story of one of the key leaders in World War II More than any other marine Holcomb molded his Corps into the modern force in readiness that would eventually help fight the Cold War and the Global War on Terror      *The Trident* , 1957      **United States Army in World War II.: Cartwheel: the reduction of Rabaul, by John Miller, Jr** , 1948      *United States Army in World War II.: The war in the Pacific* United States. Dept. of the Army. Office of

Military History, 1947      Cartwheel John Miller, 1959 This volume attempts to analyze the techniques by which the Allies employed their strength to bypass fortified positions and seize weakly defended but strategically important areas or in the apt baseball parlance used by General MacArthur to hit em where they ain t It is therefore a study in strategy and high command as well as in tactics      **United States Army in World War II.** , 1959
