Raiders Of 186:

Jellicoe's War Nicholas Jellicoe, 2024-12-31 In February 1917 German U boats launched a savage unrestricted campaign against both Allied and neutral shipping At its peak in April 860 000 tons of Allied merchant shipping was sunk Britain's supremacy at sea was being severely challenged and with it the chances of victory in the wider war Taking up the challenge was Britain's new First Sea Lord Sir John Jellicoe until the previous December C in C of the Grand Fleet famously described by Churchill as the only man who could have lost the war in an afternoon The battle he now faced was equally critical although the timeline of defeat was a matter of days rather than hours Britain's food stocks were dangerously low with wheat reserves down to six weeks and sugar to only two while wide scale shortages were crippling the industrial economy Jellicoe outlined the gravity of the situation with total candor to Rear Admiral William Sims USN sent over before America officially declared war by Franklin Roosevelt the Assistant Secretary of the Navy The two men already knew each other from service together in China during the Boxer Rebellion so Jellicoe's plea for urgent American assistance was taken seriously by Sims After the USA joined the war in April 1917 together they lobbied Washington for aid addressing their needs directly to two reluctant Anglophobes at the head of the USN Secretary of the Navy Josephus Daniels and Chief of Naval Operations William Benson Clearly a radical new approach to anti submarine warfare was called for and Convoy was the leading contender There were many objections to protecting shipping in this way some ideological but most practical a workable system for example effectively required state control of both shipping and distribution networks something inconceivable in normal circumstances However Convoy had powerful advocates including the Prime Minister Lloyd George who later claimed he had personally forced its adoption on a reluctant Admiralty This self serving political myth cast Jellicoe as an opponent of Convoy nothing could be further from the truth As both Jellicoe and Sims understood the key requirement was a rapid increase in the number of destroyers for escort duties America provided them the first arriving in Queenstown Ireland on 4 May and by June 46 were operating in European waters This was the first step in an Anglo American campaign that gradually brought the U boat threat under control and led to its ultimate defeat This book takes a fresh look at the undersea war as a whole and all the complex factors bearing on the campaign only one of which was convoy Its analysis is original and its conclusions thought provoking an important contribution to the naval history of the Great War **On Trans-Saharan Trails** Ghislaine

was first played in France in 1909 during the cruise of the Great White Fleet. Then during World War I the American military shipped football helmets and shoulder pads alongside rifles and ammunition to the western front. A 1938 tour of two teams led by Jim Crowley of Fordham University maintained the game until World War II when the arrival of millions of young Americans in France motivated the U.S. military to sponsor several bowl games. During the 1950s and 1960s when the United States occupied bases in France during the Cold War, American soldiers, sailors, and airmen played more than a thousand football games. When France withdrew from NATO, however, American bases were forced to close, leaving American football without a natural home on Gallic shores. In the 1970s, American college and semi-pro teams tried once more to generate interest in the game among French nationals through a series of tours, but until a French physical education instructor vacationed in Colorado and brought equipment back to France, there was little local enthusiasm for the sport. On the back of that vacation and from one team in Paris, organized American football in France grew to more than 215 teams with more than 22,000 active players today. *Le Football* tackles the struggles and successes of American football in France and discusses how unlike baseball and basketball, football has never been an overt instrument of American cultural influence. Russ Crawford keeps the chains moving as he shows how the modern homegrown sport developed largely independent of American encouragement into a small but successful culture.

Life in Jefferson Davis' Navy Barbara B. Tomblin, 2019-04-15 The Civil War is often considered a soldiers' war, but *Life in Jefferson Davis' Navy* acknowledges the legacy of service of the officers and sailors of the Confederate States Navy. In this full-length study, Barbara Brooks Tomblin addresses every aspect of a Confederate seaman's life, from the risks of combat to the everyday routines which sustained those sailing for the stars and bars. Drawing upon diaries, letters, newspaper accounts, and published works, Tomblin offers a fresh look at the wartime experiences of the officers and men in the Confederate Navy, including those who served on gunboats, ironclads, and ships on western rivers and along the coast, and at Mobile Bay, as well as those who sailed on the high seas aboard the Confederate raiders *Sumter*, *Alabama*, *Florida*, and *Shenandoah*. The author also explores the daily lives, deprivations, and sufferings of the sailors who were captured and spent time in Union prisoner-of-war camps at Point Lookout, Elmira, Camp Chase, Johnson's Island, Ship Island, and Fort Delaware. Confederate prisoners' journals and letters give an intimate account of their struggle, helping modern audiences understand the ordeals of the defeated in the Civil War.
