Raiders And Refugees Trends In Chamba Political Development 1750 1950:

The Pot-King Jean-Pierre Warnier, 2007 The king of Mankon Cameroon acts as a container of ancestral substances he distributes to his people This book shows how the exercise of power in a contemporary African kingdom is based on the implementation of bodily and material technologies

Fiscal Disobedience Janet Roitman, 2018-06-05 Fiscal Disobedience represents a novel approach to the question of citizenship amid the changing global economy and the fiscal crisis of the nation state Focusing on economic practices in the Chad Basin of Africa Janet Roitman combines thorough ethnographic fieldwork with sophisticated analysis of key ideas of political economy to examine the contentious nature of fiscal relationships between the state and its citizens She argues that citizenship is being redefined through a renegotiation of the rights and obligations inherent in such economic relationships The book centers on a civil disobedience movement that arose in Cameroon beginning in 1990 ostensibly to counter state fiscal authority a movement dubbed Op ration Villes Mortes by the opposition and incivisme fiscal by the government which for its part was eager to suggest that participants were less than legitimate citizens failing in their civic duties Contrary to standard approaches Roitman examines this conflict as a productive moment that rather than involving the outright rejection of regulatory authority questioned the intelligibility of its exercise Although both militarized commercial networks associated with such activities trading in contraband goods including drugs ivory and guns and highly organized gang based banditry do challenge state authority they do not necessarily undermine state power Contrary to depictions of the African state as weak or failed this book demonstrates how the state in Africa manages to reconstitute its authority through networks that have emerged in the interstices of the state system It also shows how those networks partake of the same epistemological grounding as does the state Indeed both state and nonstate practices of governing refer to a common ethic of illegality which explains how illegal activities are understood as licit or reasonable conduct

Dogon Lobi Baule Senufo Yoruba Chamba Jukun Songye and Sakalava the sculptures tell much about each culture's beliefs and social ideals These artistic creations are astonishingly rich and diverse forms of expression An essay written by Alisa LaGamma discusses thirty works all of which are illustrated in color *The Intestines of the State* Nicolas Argenti, 2008-09-15 The young people of the Cameroon Grassfields have been subject to a long history of violence and political marginalization For centuries the main victims of the slave trade they became prime targets for forced labor campaigns under a series of colonial rulers Today's youth remain at the bottom of the fiercely hierarchical and polarized societies of the Grassfields and it is their response to centuries of exploitation that Nicolas Argenti takes up in this absorbing and original book Beginning his study with a political analysis of youth in the Grassfields from the eighteenth century to the present Argenti pays special attention to the repeated violent revolts staged by young victims of political oppression He then combines this history with extensive ethnographic fieldwork in the Oku chiefdom discovering that the specter of past violence lives on in the masked dance performances that have earned intense devotion from today's youth Argenti contends that by evoking the imagery of past cataclysmic events these masquerades allow young Oku men and women to address the inequities they face in their relations with elders and state authorities today *The Powerful Presence of the Past* Jacqueline Knörr, Wilson Trajano Filho, 2010-10-15 This book conceptualizes integration and conflict as interrelated dimensions of social interaction social relationships and alliances identifications and identity constructions within society at large In order to reach an in depth understanding of integrative and violent forms of interaction in the region of the Upper Guinea Coast authors take into account the impact and repercussions of specific historical experiences as well as the continuities and changes of social patterns affected by the interaction of local and globalized values institutions and models of social organization Rather than providing an other analysis of wars and violence as such contributors aim at a better understanding of the social mechanisms that affect both the processes of integration and conflict at the local national and regional levels

Historical Dictionary of the Republic of Cameroon Mark Dike DeLancey, Mark W. Delancey, Rebecca Neh Mbuh, 2019-06-15 Cameroon is a land of much promise but a land of unfulfilled promises It has the potential to be an economically developed and democratic society but the struggle to live up to its potential has not gone well Since independence there have been only two presidents of Cameroon the current one has been in office since 1982 Endowed with a variety of climates and agricultural environments numerous minerals and substantial forests and a dynamic population this is a country that should be a leader of Africa Instead we find a country almost paralyzed by corruption and poor management a country with a low life expectancy and serious health problems and a country from which the most talented and highly educated members of the population are emigrating in large numbers To all of this is recently added a serious terrorism problem Boko Haram in the north a separatist movement in the Anglophone west refugee influxes in the north and east and bandits from the Central African Republic attacking eastern villages This fifth edition of *Historical Dictionary of the Republic*

of Cameroon contains a chronology an introduction and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about the Republic of Cameroon

Colonialism by Proxy Moses E. Ochonu, 2014-02-14 Moses E Ochonu explores a rare system of colonialism in Middle Belt Nigeria where the British outsourced the business of the empire to Hausa Fulani subcolonials because they considered the area too uncivilized for Indirect Rule Ochonu reveals that the outsiders ruled with an iron fist and imagined themselves as bearers of Muslim civilization rather than carriers of the white man's burden Stressing that this type of Indirect Rule violated its primary rationale Colonialism by Proxy traces contemporary violent struggles to the legacy of the dynamics of power and the charged atmosphere of religious difference

Society and Change in Bali Nyonga Jude Thaddeus Dingbobga Fokwang, Kehbuma Langmia, 2011 Contemporary Bali Nyonga is a rapidly growing town of over 80 000 inhabitants sixteen kilometres southwest of Bamenda the capital of the North West region Cameroon If Cameroon has been aptly referred to in many circles as Africa in miniature then Bali Nyonga since its founding in the mid 19th century is emblematic of this so called multicultural region This book is about change in Bali Nyonga but it is also about change in a typical postcolonial African setting grappling with a challenging new world reality It aims to provide cutting edge analyses of cultural change in Bali as well as inspire a new kind of scholarship in the Cameroon Grasslands championed by indigenous intellectuals The contributors to this volume come from diverse academic backgrounds and as will be evident in the various chapters their disciplinary perspectives have largely shaped their approaches to the topics under study Hence this book draws on anthropological theological literary and media studies perspective

Winner of the 2009 Amaury Talbot Prize for African Anthropology The Politics of Religious Change on the Upper Guinea Coast offers an in depth analysis of an iconoclastic religious movement initiated by a Muslim preacher among coastal Baga farmers in the French colonial period With an ethnographic approach that listens as carefully to those who suffered iconoclastic violence as to those who wanted to get rid of custom this work discusses the extent to which iconoclasm produces a rupture of religious knowledge and identity and analyses its relevance in the making of modern nations and citizens The book will appeal to a wide range of readers particularly those with an interest in the anthropology of religion iconoclasm the history and anthropology of West Africa or the politics of heritage This book examines the historical complexity of the interface between Islam tradition religions and Christianity in west Africa and how this interface links with dramatic political changes It gives a detailed ethnographic approach through which such complex history is unveiled and analysed It presents a dialogue between the field findings a long tradition of anthropology and the most recent anthropological debates **Forum for Applied Research and Public Policy** ,2001 **Cameroon Grassfields**

Civilization Jean-Pierre Warnier, 2012 This book brings and blends together a dozen scholarly articles published by the author since the 1970s It sketches two different yet related stories first that of one of the most ancient and prestigious African civilizations the antiquity and sophistication of which are becoming more and more prominent as field research unfolds their many facets Second the story of the researcher himself who has had to alter and shift his approach to that civilization as he got to meet Grassfielders colleagues friends and scholars who changed his views about the Grassfields kingdoms and their people This book bears witness to those many encounters Historical and anthropological research is not only a question of relevant theories and methodologies It is also a human endeavour made of networks and friendships

Engaging the Past Eric H. Monkkonen, 1994 Vigorous historical exploration has increased across the social sciences in the past two decades Originally published as a series of articles in the journal Social Science History the essays in this volume provide a guide to historical social science by surveying the use of historical data and methodologies in anthropology sociology political science economics and geography Each essay in Engaging the Past pays close attention to the unique problems and methods associated with its particular social scientific discipline By exploring questions raised by both contemporary and more established works within each field the authors show that some of the best and most innovative research in each of the social sciences includes a strong historical component Thus as Eric H Monkkonen s introduction shows these essays taken together make it clear that historical research provides a significant key to many of the major issues in the social sciences Intended for the growing community of both social scientists and historians interested in reading or researching historically informed social science Engaging the Past suggests future directions that might be taken by this work Above all by providing a set of user s guides written by respected social scientists it encourages future boundary
