Italian Regionalism: Between Unitary Traditions and Federal Processes Stelio Mangiameli, 2014-06-12 The object of this book is to describe the institutional modifications of the Italian form of state more than ten years after the review of Title V Part II of the Italian Constitution for an audience that goes well beyond the Italian national boundaries The fifteen essays that make up the book discuss the birth and evolution of the Italian regionalism including those regions with Special Statutes as well as reforms of 1999 2001 A particular attention is devoted to the role of autonomy in defining regional statutes regional forms of government and regulatory and administrative powers These are subjects on which there is by now an abundant body of constitutional case law which is extensively referred to by the chapters The role of the regions vis vis the local bodies and vis vis the European and international order is also discussed as the right to negotiate with foreign powers has now been conferred on the regions

Lastly the volume presents contributions on regional finance and on the new law on fiscal federalism as well as on regional powers in the area of health and welfare

Architectural Regionalism Vincent B. Canizaro, 2012-03-20 In this rapidly globalizing world any investigation of architecture inevitably leads to considerations of regionalism But despite its omnipresence in contemporary practice and theory architectural regionalism remains a fluid concept its historical development and current influence largely undocumented This comprehensive reader brings together over 40 key essays illustrating the full range of ideas embodied by the term Authored by important critics historians and architects such as Kenneth Frampton Lewis Mumford Sigfried Giedion and Alan Colquhoun Architectural Regionalism represents the history of regionalist thinking in architecture from the early twentieth century to today

Globalisation, Regionalism and Economic Interdependence Filippo di Mauro, Stéphane Dees, Warwick J. parties and movements that influence the debate in these countries and the analysis of position and interplay of deconcentrated state administration and regional self government in analysed countries

Regionalism in International Law Ján Klučka, 2017-12-01 International Law Aspects of Regionalism evaluates regionalism in its various relationships and forms with respect to international law as well as the importance and duties of international law in respect to the establishment and functioning of various forms of regional groups A great deal of attention has been paid to regionalism from the global political economic security aspects but a complex evaluation of the impact it has had on international law and vice versa is still lacking The main purpose of this volume is to eliminate this gap and present the latest state of knowledge on the topic This text will be of interest both to students at an advanced level academics and reflective practitioners It addresses the topics with regard to international law and regionalism and will be of interest to academics dealing with legal aspects of current regionalism and for the specialized courses in the faculties of law as well as anyone studying diplomacy and international studies international relations regional integration law EU law international law and international relations

Regional and Global Regulation of International Trade Francis Snyder, 2002-07-05 The processes of legal and economic integration at a regional and global scale have created powerful legal and economic dilemmas They challenge the paradigms of constitutionalism including the State's monopoly of constitutionalism the autonomy of national political communities and the traditional forms of participation and representation The phenomena of globalisation and regional forms of governance have promoted the interdependence of national political communities and destroyed the artificial boundaries upon which national constitutional democracies are found and from which they derive their legitimacy Furthermore it is inevitable that the development of international trade and economic integration will raise claims for some form of global distributive justice to complement the wealth maximisation arising from free trade This will come from the gradual development of global forms of political discourse and law making challenging State constitutionalism and requiring some of the instruments and theories of constitutionalism The essays in this collection written by leading scholars in international trade law argue the pros and cons of greater regional and global regulation They conclude that whatever the final framework for international trade the critical decisions about institutional form and content will be decided in an emerging global political arena They help to identify this political arena who governs it and according to which rules and identify the different institutional alternatives in that global political arena
