The Post-traumatic Theatre of Grotowski and Kantor Magda Romanska, 2014-10-01 Despite its international influence Polish theatre remains a mystery to many Westerners This volume attempts to fill in current gaps in English language scholarship by offering a historical and critical analysis of two of the most influential works of Polish theatre Jerzy Grotowski's *Akropolis* and Tadeusz Kantor's *Dead Class* By examining each director's representation of Auschwitz this study provides a new understanding of how translating national trauma through the prism of performance can alter and deflect the meaning and reception of theatrical works both inside and outside of their cultural and historical contexts

**Kabbalah and Literature** Kitty Millet, 2024-01-11 Focuses on a range of Jewish and non Jewish writers to examine the intersection of Kabbalah the Jewish mystical tradition and secular Jewish literatures Kabbalah and Literature shows how the Jewish mystical tradition contributes to the renewal of literature in a modern global and increasingly disconnected age Kitty Millet explores Kabbalah's conceptual underpinnings aesthetic principles tenets and signifiers to demonstrate how literature's absorption of kabbalistic material has altered its ontology function and the tasks it sets for itself Reading writers from Europe and the Americas Kitty Millet maps how the kabbalist's desire to recover Eden transforms into a latent messianic drive only intuited through text Thus it charts a journey of sorts a migration of Jewish mystical material embedded surreptitiously within text in order to shift ever so slightly at times the range of the literary to encompass an aesthetic vision not easily reducible to the literal the known the allegorical or even the philosophical In this way Kabbalah and Literature proposes a novel intuitive approach shifting focus away from the Jewish text's epistemological elements to embrace its secrets

(Un)masking Bruno Schulz Dieter De Bruyn, Kris van Heuckelom, 2009 Whatever critical scalpel one selects for dissecting the literary works of Bruno Schulz 1892-1942 there will always be a certain degree of textual resistance which cannot be broken Or in other words taking off one of Schulz's many masks one will probably never avoid the impression that a new mask has emerged This book contributes to the three most typical critical strategies of reading Schulz's works combinations fragmentations

reintegrations being fully aware of course of the relativity of each particular approach In addition the book sets out to explore all of Schulz s creative output i e his stories as well as his graphic epistolary and even literary critical works as one of Schulz s main goals was exactly to cross artificially set up boundaries between among other things different artistic media of expression The book for the first time brings together leading Schulzologists Jarzbski Robertson Sproede and their prospective successors Augsburgers Gorin Kato Sucha ska Dra y ska Underhill Wojda established Polish academics D browski Markowski Skwara Weretiuk and their foreign counterparts De Bruyn Gall Meyer Fraatz Schulte Zieli ski scholars primarily working on other authors Anessi liwa urek and those focusing on other art forms S nchez Pardo Watt The editors introduction offers an overview of seven decades of Schulzology The book is of interest for both readers with a general interest in world literature and or a particular interest in Polish and Jewish studies

**Michigan Quarterly Review** ,2004      **Notions of Otherness** Mark Axelrod-Sokolov,2019-04-30 One can approach the notion of otherness or alterity in various ways politically aesthetically ethically culturally religiously and sexually Writing in Saylor org Lilia Melani defined the other as an individual who is perceived by the group as not belonging as being different in some fundamental way Any stranger becomes the Other The Other in a society may have few or no legal rights may be characterized as less intelligent or as immoral and may even be regarded as sub human The collection of essays Notions of Otherness addresses many of these approaches as ways of interrogating how varied yet how similar they are in relation to the individual literary texts

Gombrowicz's Grimaces Ewa Plonowska Ziarek, 1998-01-29 Examines Gombrowicz's modernist aesthetics in the context of his critique of nationalism his exploration of queer eroticism and his interest in hybrid and subaltern identities
