Lewis,2019-11-26 Covers critical infrastructure protection providing a rigorous treatment of risk resilience complex adaptive systems and sector dependence Wide in scope this classroom tested book is the only one to emphasize a scientific approach to protecting the key infrastructures components of a nation It analyzes the complex network of entities that make up a nation s infrastructure and identifies vulnerabilities and risks in various sectors by combining network science complexity theory risk analysis and modeling and simulation This approach reduces the complex problem of protecting water supplies energy pipelines telecommunication stations power grid and Internet and Web networks to a much simpler problem of protecting a few critical nodes The new third edition of Critical Infrastructure Protection in Homeland Security Defending a Networked Nation incorporates a broader selection of ideas and sectors than the previous book Divided into three sections the first part looks at the historical origins of homeland security and critical infrastructure and emphasizes current policy The second examines theory and foundations highlighting risk and resilience in the context of complexity theory network science and the prevailing theories of catastrophe The last part covers the individual sectors including communications internet cyber threats information technology social networks SCADA water and water treatment energy and more Covers theories of catastrophes details of how sectors work and how to deal with the problem of critical infrastructure protection s enormity and complexity Places great emphasis on computer security and whole community response Includes PowerPoint slides for use by lecturers as well as an instructor s guide with answers to exercises Offers five robust appendices that augment the non mathematical chapters with more rigorous explanations and mathematics Critical Infrastructure Protection in Homeland Security Third Edition is an important book for upper division undergraduates and first year graduate students in political science history public administration and computer technology It will also be of great interest to professional security experts and policymakers *Where Mountains Meet the Sea* Daniel Francis,2016-07-01

*Where Mountains Meet the Sea* commemorates the 125th anniversary of the District of North Vancouver s incorporation as a municipality Combining hundreds of illustrations with the personal accounts of residents and a lively text the book presents the story of North Vancouver in all its colour and complexity Instead of a conventional chronological narrative *Where Mountains Meet the Sea* divides the story of North Vancouver s development into three major parts 1 the origins of the community its First Nations residents and the development of its waterfront 2 the political and cultural evolution of the community and 3 the development of the mountain

resorts and the creation of the many parks which characterize the North Shore From the District's auspicious beginnings with the sawmill at Moodyville dominating the industry of Burrard Inlet through the postwar population boom that saw the municipality evolve from a suburb of Vancouver into a bustling community in its own right to the District's rich legacy of outdoor recreation the text residents anecdotes and photographs create a vivid portrait of the development of a thriving community Each section of the book is richly illustrated in full colour with biographies eyewitness memories artifacts from the collection of the North Vancouver Museum and Archives historic photographs maps and charts

### **A Crash of Rhinos**

Paisley Rekdal, 2000 In these quizzically probing and provocative poems atoms and torture tattoos and laundromats mug shots the theory of light and such personalities as Joe Louis and Bruce Lee join in shaping a simultaneously personal and historical narrative of love family and desire The tension between the public and the private saturates these poems with a breathless energy that carries the reader through Rekdal's self-aware depiction of American culture and romance complete with Harlequin romance novels and an account of her parents' courtship Though Rekdal delights in turning traditional images of love upside down what she finally offers is a grateful and graceful view of humanity which convinces us that as she says in Convocation Nothing is a single moment No private event lacks history
