Regulation Deregulation Casebook 2nd:

Reinsurance Regulation: A Contemporary and Comparative Study Wallace Wang, 2003-01-01 We seem to be living at a time when insurance is strained to the breaking point From hurricanes and earthquakes to terrorist attacks and threats of nuclear devastation enormous risks to life and property and accompanying liabilities proliferate on an unprecedented scale Insurer insolvency is not yet common but it is not unusual either And at the root of such failures often lies the compound failure of uncollectable reinsurance This important book proposes that a significant part of the emerging insurance crisis results from inadequate regulation of reinsurance In a detailed and cogent analysis of what an effective regulatory regime for reinsurance must entail the author examines such factors as the following direct supervision of reinsurers versus supervision of reinsurance policies models from developed countries US UK EU and international organisations Organization for Economic Cooperation and Development International Association of Insurance Supervisors the importance of taking legal and economic differences into account while applying models the problem of local protectionism especially in developing countries the dismantling of trade barriers in the reinsurance industry global harmonization of reinsurance regulation the role of reinsurance intermediaries finite risk reinsurance insurance linked securities The author's concluding chapter presents an essential legal infrastructure that allows for efficiency security and individual market characteristics Professor Wang then applies this framework to the Taiwanese insurance market demonstrating convincingly how his proposed regime can solve specific problems while respecting Taiwan's distinct market environment As a meticulously considered appraisal of and solution to a world problem that is growing quickly and uncontrollably Reinsurance Regulation will be of immense value to lawyers professors academics and officials who deal with any facet of economic law

Derecho constitucional económico II Arturo Fermandois V., 2006 El tomo II de Derecho Constitucional Económico complementa la pionera senda abierta en la materia por el Tomo I libertad económica y no discriminación arbitraria para revisar ahora los tributos y la propiedad Se tratan aquí las garantías establecidas en el artículo 19 de la Constitución en lo referente a los derechos de propiedad a la igual repartición de los tributos y cargas públicas a la libertad de adquirir toda clase de bienes y al derecho de propiedad intelectual Junto con repasar las normas conceptos y principios constitucionales aplicables la opinión de la doctrina nacional y extranjera y la jurisprudencia el autor añade una problematización permanente de la materia que visita entregando a los abogados alumnos jueces y legisladores un análisis pormenorizado y de frontera de la totalidad de las normas y principios del llamado Orden Público Económico o Constitución Económica

A Casebook on Labour Law Ewan McGaughey, 2018-11-29 A Casebook on Labour Law supports every university labour or employment law course in the UK set within European Union and international law It covers history and theory contract and rights participation equality and job security It also has chapters on essential topics for modern labour policy the right to vote for company boards in work councils and pension funds and laws to achieve full employment by ending underpaid underemployment Each chapter

summarises further reading from noteworthy books and journals and follows a unified conceptual structure This aims to transcend historic divisions between common law or statute private or public and national or international law The book invites the reader to engage in the economic and social evidence about labour law s empirical consequences and political principles *Subject Guide to Books in Print* ,2001 Land Use Regulation Daniel P. Selmi,James A. Kushner,Edward H. Ziegler,2008 This dynamic casebook focuses on the role of the lawyer in land use regulatory matters and the factors that influence land development decisions It emphasizes the current practice of land use law and cutting edge urban planning and sustainable *Bowker's Law Books and Serials in Print* ,1998 **Australian National Bibliography: 1992** National Library of Australia,1988 **Political Economy of Modern Capitalism** Colin Crouch,Wolfgang Streeck,1997-12-22 In the wake of Maastricht neo liberalism and de regulation have come to dominate national and international political economy Political Economy of Modern Capitalism addresses this convergence and provides a comprehensive overview for the future of capitalist diversity European Access ,2000 **NASA SP-7500** United States. National Aeronautics and Space Administration, **Law and Policy of Substantial Ownership and Effective Control of Airlines** Isabelle Lelieur,2017-03-02 The principle of airline substantial ownership and effective control is one of the biggest impediments to the air transport industry growth Legitimately included in the bilateral agreements since 1946 for national security reasons States have maintained the principle over the years and used it as a protectionist tool as well as a bargaining chip Today considering that liberalization and globalization concepts are already well established in the biggest industrial sectors and a large number of cross border investments occurs in most of the service sectors through mergers and acquisitions the time is ripe to remove national restrictions on foreign investments from the airline industry This comprehensive book identifies those factors that still justify the imposition of national ownership restrictions on airlines and examines the prospects for change in the current policies and regulatory regimes that support them The readership includes specialists in government departments of transportation civil aviation authorities and agencies international organizations airline executives concerned with general management economic legal and public affairs aviation lawyers airline pilot associations law schools concerned with international aviation law **Current Publications in Legal and Related Fields** ,2004 **Emissions Trading Schemes** Sanja Bogojevic,2013-07-04 Over the last four decades emissions trading has enjoyed a high profile in environmental law scholarship and in environmental law and policy Much of the discussion is promotional preferring emissions trading above other regulatory strategies without however engaging with legal complexities embedded in conceptualising scrutinising and managing emissions trading regimes The combined effect of these debates is to create a perception that emissions trading is a straightforward regulatory strategy imposable across various jurisdictions and environmental settings This book shows that this view is problematic for at least two reasons First emissions trading responds to distinct environmental and non environmental goals including creating profit centres substituting bureaucratic

control of resources and ensuring regulatory compliance This is important as the particular purpose entrusted to a given emissions trading regime has as its corollary a particular governance structure according to which the regime may be constructed and managed and which trusts the emissions market the state and rights in emissions allowances with distinct roles Second the governance structures of emissions trading regimes are culture specific which is a significant reminder of the importance of law in understanding not only how emissions trading schemes function but also what meaning is given to them as regulatory strategies This is shown by deconstructing emissions trading discourses that is by inquiring into the assumptions about emissions trading as featuring in emissions trading scholarship and in debates involving law and policymakers and the judiciary at the EU level Ultimately this book makes a strong argument for reconfiguring the common understanding of emissions trading schemes as regulatory strategies and sets out a framework for analysis to sustain that reconfiguration

Global Business, Local Law Amanda Perry-Kessaris, 2016-04-22 This volume establishes a theoretical framework for exploring the role of host state legal systems courts and bureaucracies in mediating relations between foreign investment civil society and government actors It then demonstrates the application of that framework in the context of the south Indian city of Bengaluru formerly Bangalore Drawing on the law and community approach of Roger Cotterrell the volume identifies three mechanisms through which law might in theory ensure that social relations are productive by expressing any mutual trust which may hold actors together by ensuring that actors participate fully in social life and by coordinating the differences that hold actors apart Empirical data reveals that each of these legal mechanisms is at work in Bengaluru However their operation is limited and skewed by the extent to which actors use abuse and or avoid them Furthermore these legal mechanisms are being eroded as a direct result of the World Bank s investment climate discourse which privileges the interests and values of foreign investors over those of other actors

The Latin American Casebook Juan F. Gonzalez-Bertomeu, Roberto Gargarella, 2016-04-20 Traditionally relegated because of political pressure and public expectations courts in Latin America are increasingly asserting a stronger role in public and political discussions This casebook takes account of this phenomenon by offering a rigorous and up to date discussion of constitutional adjudication in Latin America in recent decades Bringing to the forefront the development of constitutional law by Latin American courts in various subject matters the volume aims to highlight a host of creative arguments and solutions that judges in the region have offered The authors review and discuss innovative case law in light of the countries social political and legal context Each chapter is devoted to a discussion of a particular area of judicial review from freedom of expression to social and economic rights from the internalization of human rights law to judicial checks on the economy from gender and reproductive rights to transitional justice The book thus provides a very useful tool to scholars students and litigants alike

Telecommunications Research Resources James K. Bracken, Christopher H. Sterling, 2021-12-16 As the telecommunication and information field expands and becomes more varied so do publications about these technologies and

industries This book is a first attempt to provide a general guide to that wealth of English language publications both books and periodicals on all aspects of telecommunication It is a comprehensive evaluative sourcebook for telecommunications research in the United States that brings together a topically arranged cross referenced and indexed volume in one place The information provided is only available by consulting a succession of different directories guides bibliographies yearbooks and other resources On the one hand it is a directory that describes in detail the major entities that comprise the American telecommunication research infrastructure including federal and state government offices and agencies and private public and corporate research institutions On the other hand it is a bibliography that identifies and assesses the most important and useful reference and critical resources about U S telecommunication history technology industry and economics social applications and impacts plus policy law and regulations and role in the global telecommunication marketplace No existing guide covers all of these aspects in the depth and detail of this volume

Mass Communications Research Resources

Christopher H. Sterling, James K. Bracken, Susan B. Hill, 2016-05-06 This reference book is designed as a road map for researchers who need to find specific information about American mass communication as expeditiously as possible Taking a topical approach it integrates publications and organizations into subject focused chapters for easy user reference The editors define mass communication to include print journalism and electronic media and the processes by which they communicate messages to their audiences Included are newspaper magazine radio television cable and newer electronic media industries Within that definition this volume offers an indexed inventory of more than 1 400 resources on most aspects of American mass communication history technology economics content audience research policy and regulation The material featured represents the carefully considered judgment of three experts two of them librarians plus four contributors from different industry venues The primary focus is on the domestic American print and electronic media industries Although there is no claim to a complete census of all materials on print journalism and electronic media what is available is now too vast for any single guide the most important and useful items are here The emphasis is on material published since 1980 though useful older resources are included as well Each chapter is designed to stand alone providing the most important and useful resources of a primary nature organizations and documents as well as secondary books and reports In addition online resources and internet citations are included where possible

Modern

Corporation and American Political Thought Scott Bowman, 2010-11-01 *Breakdown and Change of Private Interest Governments* Claudius Wagemann, 2014-06-23 Private Interest Governments were identified in the 1980s as a special form of public regulation in selected economic sectors rivalling conventional market state or community based forms of public order This book examines how these institutional arrangements have changed since their identification It takes into account external changes such as Europeanization globalization liberalization and sector specific developments which have had an impact on even long established public policies Breakdown and Change of Private Interest Governments presents new

empirical insights in changes which led to the disappearance of a prime example of neo corporatism a traditional form of political and economic regulation recurring to original data for interest associations in the dairy sector of four countries Austria Britain Germany and Switzerland It discusses the empirical results and the similarities and differences between the countries with regard to external processes which were studied with a different focus in the past Utilising a comparative country case approach and the dairy industry as a specific sector case study Breakdown and Change of Private Interest Governments will be of interest to students and scholars of Globalization and Political Economy
