Reimagining The Nation:

Reimagining the Nation Marjorie Ringrose, Adam J. Lerner, 1993 Capturing a wide spectrum of current thought on the construction of nationhood and national identity this work explores new ways of thinking about the concept of the nation and suggests possible ways of resisting its totalizing effects

Reimagining The Nation-State Jim Mac Laughlin, 2001-02-20 Reassesses traditional concepts of nation building to offer a new look at how and why nations are created

Global Realignments and the Canadian Nation in the Third Millennium Karin Ika, 2010 With aggravating global realignments the dynamics and contradictions of a world risk society are looming ahead in the unfolding Third Millennium while globalization is gaining further steam To this bears witness a potpourri of often frightening geopolitical social cultural economic demographic ecological and other changes and challenges that gives substantial cause for concern about getting lost in a trans whatever sea of turmoil uncertainty and indeterminateness The resultant current backlash or rather renewed interest in the nation as a collective identity establishing category is an effort to gain some anchorage in ever more disintegrating times and proves especially those theoreticians wrong for whom the whole concept of the nation has worn off since long In 16 resourceful essays internationally distinguished Canadian and European experts from a variety of fields take a fresh look at these developments by focussing on one of the most fascinating multicultural and multifaceted nation states in the world Canada in the Third Millennium The topics they discuss include among others Canada's difficult dissociation from Europe and the USA the reframing and reclaiming of the Canadian story the role of nations within the nation the efforts to transcend the nation pending geopolitical and geo ecological crises global issues and new wars Collectively the entries prove that Canada is a very progressive nation and opens up new perspectives for other collectives currently reassessing their national identities in a global environment Thus the book reaches well beyond the study of Canada and will be valuable to academics professionals teachers and students of various disciplines coping with the issue at stake as well as the general reader

Reimagining the Nation Claire Sutherland, 2017 This publication develops new ways of thinking beyond the nation as a form of political community by seeking to transcend ethnonational categories of us and them Drawing on scholarship and cases spanning Pacific Asia and Europe it steps outside assumptions linking nation to state

Race, Nation, and Refuge Doug Coulson, 2017-10-01 From 1870 to 1940 racial eligibility for naturalization in the United States was limited to free white persons and aliens of African nativity and persons of African descent and many interpreted these restrictions to reflect a policy of Asian exclusion based on the conclusion that Asians were neither white nor African Because the distinction between white and Asian was considerably unstable however those charged with the interpretation and implementation of the naturalization act faced difficult racial classification questions Through archival research and a close reading of the arguments contained in the documents of the US Bureau of Naturalization especially those documents that discussed challenges to racial eligibility for naturalization Doug Coulson demonstrates that the strategy of foregrounding shared

external threats to the nation as a means of transcending perceived racial divisions was often more important to racial classification than legal doctrine. He argues that this was due to the rapid shifts in the nation's enmities and alliances during the early twentieth century and the close relationship between race, nation, and sovereignty. **Sandinino's Nation** Stephen Henighan, 2014-04-01 Ernesto Cardenal and Sergio Ramírez are two of the most influential Latin American intellectuals of the late twentieth and early twenty-first centuries. Addressing Nicaragua's struggle for self-definition from divergent ethnic, religious, generational, political, and class backgrounds, they constructed distinct yet compatible visions of national history anchored in a reappraisal of the early twentieth-century insurgent leader Augusto César Sandino. During the Sandinista Revolution of 1979-90, Cardenal, appointed Nicaragua's minister of culture, became one of the most provocative and internationally recognized figures of liberation theology, while Ramírez, a member of the revolutionary junta and later elected vice president of Nicaragua, emerged as an authoritative figure for third-world nationalism. But before all else, the two were groundbreaking creative writers. Through a close reading of the works by Nicaragua's best-known and most prolific modern authors, *Sandinino's Nation* studies the construction of Nicaraguan national identity during three distinct periods of the country's recent history: before, during, and after the 1979-90 revolution. Stephen Henighan offers rigorous textual analyses of poems, memoirs, essays, and novels interwoven with a sharply narrated history of Nicaragua. The only comprehensive study of the careers of Cardenal and Ramírez, *Sandinino's Nation* is essential to understanding transformations to both Nicaragua and the role of the writer in Latin America. When Peace Is Not Enough Atalia Omer, 2013-06-03 The state of Israel is often spoken of as a haven for the Jewish people, a place rooted in the story of a nation dispersed, wandering the earth in search of their homeland. Born in adversity but purportedly nurtured by liberal ideals, Israel has never known peace, experiencing instead a state of constant war that has divided its population along the stark and seemingly unbreachable lines of dissent around the relationship between unrestricted citizenship and Jewish identity. By focusing on the perceptions and histories of Israel's most marginalized stakeholders—Palestinian Israelis, Arab Jews, and non-Israeli Jews—Atalia Omer cuts to the heart of the Israeli-Arab conflict, demonstrating how these voices provide urgently needed resources for conflict analysis and peacebuilding. Navigating a complex set of arguments about ethnicity, boundaries, and peace, and offering a different approach to the renegotiation and reimagining of national identity and citizenship, Omer pushes the conversation beyond the bounds of the single narrative and toward a new and dynamic concept of justice, one that offers the prospect of building a lasting peace. Our Sisters' Promised Land Ayala Emmett, 2010-05-18 In this powerful and timely book, Ayala H. Emmett examines the political roles of women in the Israeli-Palestinian peace process. Emmett's insights come from numerous trips to the region that included in-depth interviews with many of the participants. Excerpts from the interviews give voice to the women who played vitally important yet often overlooked roles in the political transformations of the contemporary Middle East. Emmett's observations on women's actions in political venues have global implications transcending the specific political and

social contexts of the region and shedding light on both the strengths of female activism and the resistances of male political institutions Emmett investigates the successes and failures of women in the Israeli political landscape particularly the harassment experienced during the leadership of Right and ultra Right groups before the ascension to office of the late Prime Minister Yitzhak Rabin Her account of women s activism in Israel provides a rich backdrop for viewing the compelling events that have taken place in the Middle East throughout the 1990s and offer insights into the future of women s political activism both in the ever changing Israeli political climate and in the broader world of women in politics Brilliant in conception and theory based on superb fieldwork and clearly written for both specialist and non specialist reader Maurie Sacks Montclair State University A groundbreaking study Ayala Emmett brings an unusual voice of clarity into the muddled politics of the Middle East Where most studies ignore or marginalize women s role in the peace process Emmett highlights women as political actors and shows their capacity to bridge the chasm between two hostile peoples Cynthia Saltzman Rutgers University Camden Ayala Emmett is Associate Professor of Anthropology University of Rochester

National Museums Simon Knell, Peter Aronsson, Arne Bugge Amundsen, 2014-05-22 National Museums is the first book to explore the national museum as a cultural institution in a range of contrasting national contexts Composed of new studies of countries that rarely make a showing in the English language studies of museums this book reveals how these national museums have been used to create a sense of national self place the nation in the arts deal with the consequences of political change remake difficult pasts and confront those issues of nationalism ethnicity and multiculturalism which have come to the fore in national politics in recent decades National Museums combines research from both leading and new researchers in the fields of history museum studies cultural studies sociology history of art media studies science and technology studies and anthropology It is an interrogation of the origins purpose organisation politics narratives and philosophies of national museums

Reimagining Nation and Nationalism in Multicultural East Asia Sungmoon Kim, Hsin-wen Lee, 2017-09-14 Since the late 1980s many East Asian countries have become more multicultural a process marked by increased democracy and pluralism despite the continuing influence of nationalism which has forced these countries in the region to re envision their nations Many such countries have had to reconsider their constitutional make up their terms of citizenship and the ideal of social harmony This has resulted in new immigration and border control policies and the revisiting of laws regarding labor policies sociopolitical discrimination and socioeconomic welfare This book explores new perspectives concepts and theories that are socially relevant culturally suitable and normatively attractive in the East Asia context It not only outlines the particular experiences of nation citizenship and nationalism in East Asian countries but also places them within the wider theoretical context The contributors look at how nationalism under the force of multiculturalism or vice versa affects East Asian societies including China Japan Korea Taiwan and Hong Kong differently The key themes are Democracy and equality Confucianism s relationship with nationalism cosmopolitanism and multiculturalism China s use of its political institutions to initiate and

sustain nationalism the impact of globalization on nationalism in South Korea Taiwan and Japan the role of democracy in reinvigorating indigenous cultures in Taiwan

Representing the Nation Pamela Erskine-Loftus, Mariam Ibrahim Al-Mulla, Victoria Hightower, 2016-05-26 The 1970s saw the emergence and subsequent proliferation across the Arabian Peninsula of national museums institutions aimed at creating social cohesion and affiliation to the state within a disparate population *Representing the Nation* examines the wide ranging use of exhibitionary forms of national identity projection via consideration of their motivations implications current and future possible historical backgrounds official and unofficial meanings and meanings for both the user visitor and the multiple creators The book responds to due to the importance placed on tradition heritage and national identity across all the states of the Peninsula and the growth of re imagined and new museums the need for far greater discussion and research in these areas

America: Unmasking the Trump Presidency--A Nation Enclosed in an Open Air Prison Michael

Veluppillai,2024-09-16 Wake Up America Unmasking the Trump Presidency A Nation Enclosed in an Open Air Prison serves as a piercing insightful dissection of one of the most controversial periods in American history It brings a critical eye to the dichotomy at the heart of the Trump administration an immigrant son who became a fortress building president and a First Lady whose ambiguous citizenship journey stands in stark contrast to her husband s stringent immigration policies This book explores the deep ironies embedded within Donald Trump s presidency examining how a leader born from immigrants imposed policies that undercut the very essence of America s foundational mythos a nation built by and for immigrants At the same time Foster delves into the contentious debate surrounding Melania Trump s path to US citizenship raising questions about fairness transparency and the double standards that appear to pervade the upper echelons of power Through meticulous research and compelling narratives it exposes how the Trump administration s actions created a paradoxical open air prison a country where liberty is a headline yet often a hollow promise The book interlaces analysis with real life impacts showing how these policies have reshaped American society and how they continue to influence the national conversation Wake Up America is more than a political critique it is a clarion call to all citizens to reconsider what it means to be American in the modern world urging a recommitment to the ideals of diversity openness and justice This thought provoking work is essential for anyone seeking to understand the complexities and contradictions of recent American history and its implications for the future Creolizing the Nation Kris F. Sealey,2020-09-15 Winner 2022 Nicol s Crist bal Guill n Batista Outstanding Book Award

Creolizing the Nation identifies the nation form as a powerful resource for political struggles against colonialism racism and other manifestations of Western hegemony in the Global South even as it acknowledges the homogenizing effects of the politics of nationalism Drawing on Caribbean decolonial and Latina feminist resources Kris F Sealey argues that creolization provides a rich theoretical ground for rethinking the nation and deploying its political and cultural apparatus to imagine more just humane communities Analyzing the work of thinkers such as douard Glissant Frantz

Fanon Gloria Anzald a Mar a Lugones and Mariana Ortega Sealey shows that a properly creolizing account of the nation provides an alternative imaginary out of which collective political life might be understood Creolizing practices are always constitutive of anticolonial resistance and their ongoing negotiations with power should be understood as everyday acts of sabotage Sealey demonstrates that the conceptual frame of the nation is not fated to re create colonial instantiations of nationalism but rather can support new possibilities for liberation and justice
