Immortality Burnett Hillman Streeter, 1917 **Reincarnation and Destiny** Rudolf Steiner, 2018-06-18 This excerpt is taken from the book Theosophy which Rudolf Steiner published at the beginning of his theosophical career in 1904 Although Steiner himself did not make such a designation Theosophy has come to be regarded as one of the four basic books of anthroposophy This chapter however is quite exceptional within the book and thus it deserves to stand alone Unlike the rest of Theosophy which consists of somewhat static revelations of spiritual facts Chapter 2 is a closely argued logical argument Indeed it is quite gnomic in many places The argument is hard to follow but it is well worth the effort The high point comes early in the essay where Steiner sets up a beautifully symmetrical case for reincarnation and karma He reminds us that memory transforms transitory experience into permanence On the basis of remembered experience we react differently when we next meet a similar stimulus But in the same way the world is permanently changed by our deeds and the world remembers our actions the next time we encounter it The world reacts to us differently as a result of our previous action Seemingly chance events that strike us are anything but rather they are the karmic consequences of our deeds and as much a part of an expanded notion of our self as is memory There are several other beautiful arguments besides A notable example is the claim that each human individual is a species unto themselves and thus the talents that we bring into incarnation can only be inherited from ourselves in an earlier life Such arguments must inevitably remain silhouette like But Steiner assures us both that the trains of thought are shadows of spiritual realities and that the labor of following them is a good preparation for spiritual seeing *SANATAN DHARMA AND ITS INFLUENCE ON WESTERN WRITERS* Dr. Debarata Chatterjee, 2024-10-19 In the intricate tapestry of literary history the influence of one culture upon another often yields
