Reinventing America Michael Fouhy, 1992 America's Battle for God Muller-Fahrenheit, 2007 A theologian and ecumenical consultant who has served in the World Council of Churches the Lutheran Church and Costa Rica Muller-Fahrenheit tries to make some sense of religious undercurrents in the public culture and political life of the US He hopes that an outsider may be able to identify elements that Americans are too close to see acknowledge *America's Immigration System* United States. Congress. House. Committee on the Judiciary, 2013 *Inventing America* José Rabasa, 1993 In *Inventing America* José Rabasa presents the view that Columbus's historic act was not a discovery and still less an encounter Rather he considers it the beginning of a process of inventing a New World in the sixteenth century European consciousness The notion of America as a European invention challenges the popular conception of the New World as a natural entity to be discovered or understood however imperfectly This book aims to debunk complacency with the historic geographic and cartographic rudiments underlying our present picture of the world De Colores Means All of Us Elizabeth Sutherland Martínez, 2017-06-06 Elizabeth Martínez's unique Chicana voice arises from over thirty years of experience in the movements for civil rights women's liberation and Latina empowerment In *De Colores Means All of Us* Martínez presents a radical Latina perspective on race liberation and identity In these essays Martínez describes the provocative ideas and new movements created by the rapidly expanding U.S. Latina/o community as it confronts intensified exploitation and racism With sections on women's organizing struggles for economic justice and immigrant rights and the

Latino youth movement this book will appeal to readers and activists seeking to organize for the future and build new movements for social change With a foreword from Angela Y Davis *The Myths That Made America* Heike Paul, 2014-08-15 This essential introduction to American studies examines the core foundational myths upon which the nation is based and which still determine discussions of US American identities today These myths include the myth of discovery the Pocahontas myth the myth of the Promised Land the myth of the Founding Fathers the melting pot myth the myth of the West and the myth of the self made man The chapters provide extended analyses of each of these myths using examples from popular culture literature memorial culture school books and every day life Including visual material as well as study questions this book will be of interest to any student of American studies and will foster an understanding of the United States of America as an imagined community by analyzing the foundational role of myths in the process of nation building *Women, Travel, and Science in Nineteenth-Century Americas* Nina Gerassi-Navarro, 2017-11-15 This book offers a new and insightful look at the interconnections between the United States Brazil and Mexico during the nineteenth century Gerassi Navarro brings together US and Latin American Studies with her analysis of the travel narratives of Frances Calderón de la Barca and Elizabeth Cary Agassiz Inspired by the writings of Alexander von Humboldt these women in their travels expand his views on the tropics to include a social dimension to their observations on nature culture race and progress in Brazil and Mexico Highlighting the role of women as a new kind of observer as well as the complexity of connections between the United States and Latin America Gerassi Navarro interweaves science politics and aesthetics in new transnational frameworks

Rethinking America's Highways Robert W. Poole, 2018-08-03 A transportation expert makes a provocative case for changing the nation's approach to highways offering bold innovative thinking on infrastructure Rick Geddes Cornell University Americans spend hours every day sitting in traffic And the roads they idle on are often rough and potholed with exits tunnels guardrails and bridges in terrible disrepair According to transportation expert Robert Poole this congestion and deterioration are outcomes of the way America manages its highways Our twentieth century model overly politicizes highway investment decisions short changing maintenance and often investing in projects whose costs exceed their benefits In *Rethinking America's Highways* Poole examines how our current model of state owned highways came about and why it is failing to satisfy its customers He argues for a new model that treats highways themselves as public utilities like electricity telephones and water supply If highways were provided commercially Poole argues people would pay for highways based on how much they used and the companies would issue revenue bonds to invest in facilities people were willing to pay for Arguing for highway investments to be motivated by economic rather than political factors this book makes a carefully reasoned and well documented case for a new approach to highways **North American Odyssey** Craig E. Colten, Geoffrey L. Buckley, 2014-03-27 This groundbreaking volume offers a fresh approach to conceptualizing the historical geography of North America by taking a thematic rather than a traditional regional perspective Leading geographers building on current

scholarship in the field explore five central themes Part I explores the settling and resettling of the continent through the experiences of Native Americans early European arrivals and Africans Part II examines nineteenth century European immigrants the reconfiguration of Native society and the internal migration of African Americans Part III considers human transformations of the natural landscape in carving out a transportation network replumbing waterways extracting timber and minerals preserving wilderness and protecting wildlife Part IV focuses on human landscapes blending discussions of the visible imprint of society and distinctive approaches to interpreting these features The authors discuss survey systems regional landscapes and tourist and mythic landscapes as well as the role of race gender and photographic representation in shaping our understanding of past landscapes Part V follows the urban impulse in an analysis of the development of the mercantile city nineteenth and twentieth century planning and environmental justice With its focus on human environment interactions the mobility of people and growing urbanization this thoughtful text will give students a uniquely geographical way to understand North American history Contributions by Derek H Alderman Timothy G Anderson Kevin Blake Christopher G Boone Geoffrey L Buckley Craig E Colten Michael P Conzen Lary M Dilsaver Mona Domosh William E Doolittle Joshua Inwood Ines M Miyares E Arnold Modlin Jr Edward K Muller Michael D Myers Karl Raitz Jasper Rubin Joan M Schwartz Steven Silvern Andrew Sluyter Jeffrey S Smith Robert Wilson William Wyckoff and Yolonda Youngs For All Eyes Only Bunny Herschensohn,2020-09-11 FOR ALL EYES ONLY This book is a compilation of spontaneous political blogs written during the Obama Presidential period It is through these blogs there appears to be a remarkable unparalleled similarity between the differential political turbulence we face today and the systemic agenda that was aggressively pursuant during the Obama years However in no way do these blogs expose specific revelations on the previous Administration s wrongdoings being reported today by professional investigative lawmakers This book s blogs simply reflect my personal observations on issues in the past that normalized radical life changing reforms to our system forever through subtle pretext but devious intent **Standing on the Premises of God** Frederick E. Detwiler,1999 **Prophetic Poetry** Ronald L. Faust,2010-01-01 This poetry becomes an agent of transformation in offering a new direction for our lives It provokes a little holy agitation by tossing poems like pebbles into placid pools of water to cause some waves Such poetry gives us prophetic alerts to pay attention to things that matter like peace not war like economic and immigrant justice like an earthy passion for life more than death This book of poems describes a link between poets and peacemakers Maybe peacemakers are like insurgent poets Irrelevant dissident disregarding the status quo Imagining a vision of a world that gets along This poetry too dangerous for right wing religion will offer a resource for church activists and for taking the next step of courage It will be a companion for marching to a different drummer and hearing the still voice of God amplified through ordinary occasions **A Critical History of the New American Studies, 1970-1990** Günter H. Lenz,2016-12-06 Starting in 2005 Gunter H Lenz began preparing a book length exploration of the transformation of the field of American Studies in the crucial years between 1970

and 1990 As a commentator on contributor to and participant in the intellectual and institutional changes in his field Lenz was well situated to offer a comprehensive and balanced interpretation of that seminal era Building on essays he wrote while these changes were ongoing he shows how the revolution in theory the emergence of postmodern socioeconomic conditions the increasing globalization of everyday life and postcolonial responses to continuing and new forms of colonial domination had transformed American Studies as a discipline focused on the distinctive qualities of the United States to a field encompassing the many different Americas in the Western Hemisphere as well as how this complex region influenced and was interpreted by the rest of the world In tracking the shift of American Studies from its exceptionalist bias to its unmanageable global responsibilities Lenz shows the crucial roles played by the 1930s Left in the U S the Frankfurt School in Germany and elsewhere between 1930 and 1960 Continental post structuralism neo Marxism and post colonialism Lenz s friends and colleagues now his editors present here his final backward glance at a critical period in American Studies and the birth of the Transnational

Standing on the Premises of God Fritz Detwiler, 1999-12 The Christian Right is arguably the most significant social movement in the United States today In recent years these religious conservatives have loudly protested a public education system they believe no longer represents their interests or values Educators often dismiss critiques based on religious values as irrational or flimsy failing to appreciate the coherence of these criticisms from the Christian Right s own perspective While the Christian Right has become ever more sophisticated in its lobbying and powerful in its influence educators and parents find themselves lacking the background knowledge necessary to respond effectively to its efforts Standing on the Premises of God speaks directly to this dilemma explaining current incarnations of the Christian Right its leadership its intellectual and theological foundations and its tactics so that those interested in the debates over education will be better prepared to engage them constructively Taking the novel approach of framing the Christian Right as a revitalization movement Detwiler shows how it seeks to effect cultural transformation in order to bring public education and our society more generally in line with its worldview His theoretical model provides insights into why

education is so pivotal to the Christian Right and also assesses the religious viability of the Christian Right as a social movement
