## **Reinventing Political Science A Feminist Approach:**

**Reinventing Political Science** Jill Vickers,1996-12-31 An alternate vision of political science for students who want to make space for themselves and for political studies this framework for analysis builds bridges between political science and feminism allowing for a women centred analysis of both formal and informal politics Gender, Race, and Nation Vanaja

Dhruvarajan,Jill Vickers,2002-01-01 Dhruvarajan and Vickers call into question feminism s presumed universality of gender analysis and bring to the foreground the voices of marginalized women in Western society and of women outside of the western world **Gender Innovation in Political Science** Marian Sawer,Kerryn Baker,2018-06-16 In this book leading

gender scholars survey the contribution of feminist scholarship to new norms and knowledge in diverse areas of political science and related political practice They provide new evidence of the breadth of this contribution and its policy impact Rather than offering another account of the problem of gender inequality in the discipline the book focuses on the positive contribution of gender innovation It highlights in a systematic and in depth way how gender innovation has contributed to sharpening the conceptual tools available in different subfields including international relations and public policy At the same time the authors show the limits of impact in core areas of an increasingly pluralised discipline This volume will appeal to scholars and students of political science and international relations Feminizing in Political Science Alana

Cattapan,Ethel Tungohan,Nisha Nath,Fiona MacDonald,Stephanie Paterson,2024-06-06 Feminizing in Political Science examines what is at stake in contesting the boundaries of the contemporary university This critique of mainstream Canadian political science pushes beyond typical studies of institutions and political life Instead the collection draws together personal essays pedagogical interventions dialogues and original research to reflect on how feminizing as an orientation and as an analytic can centre experiential knowledge and reshape our understandings of political science Collectively these contributions lay bare the ways that power moves in and through the academy naming the impacts on those who are most structurally precarious all while pointing to futures available to us through refusal solidarity and hope Contributors Yasmeen Abu Laban Julianne M Acker Verney Kelly Aguirre Jeanette Ashe Nicole S Bernhardt Amanda Bittner Alana Cattapan Elaine Coburn Jamilah A Y Dei Sharpe Rita Kaur Dhamoon Alexandra Dobrowolsky Nick Dorzweiler Tammy Findlay Mariam Georgis Emily Grafton Joyce Green Genevieve Fuji Johnson Kiera L Ladner Lindsay Larios Manon Laurent Fiona MacDonald April Mandrona Kimberley Ens Manning Sarah Munawar Nisha Nath Michael Orsini Stephanie Paterson Tka C Pinnock David Semaan Gina Starblanket Heidi Kiiwetinepinesiik Stark Melanee Thomas Reeta Chowdhari Tremblay Ethel Tungohan Nadia Verrelli Leah F Vosko and Chamindra Weerawardhana Minds of Our Own Wendy Robbins,Meg Luxton,Margrit

Eichler,Francine Descarries,2009-08-02 This book of personal essays by over forty women and men who founded women s studies in Canada and Qu bec explores feminist activism on campus in the pivotal decade of 1966 76 The essays document the emergence of women s studies as a new way of understanding women men and society and they challenge some current

preconceptions about second wave feminist academics The contributors explain how the intellectual and political revolution begun by small groups of academics often young untenured women at universities across Canada contributed to social progress and profoundly affected the way we think speak behave understand equality and conceptualize the academy and an academic career A contextualizing essay documents the social economic political and educational climate of the time and a concluding chapter highlights the essays recurring themes and assesses the intellectual and social transformation that their authors helped set in motion The essays document the appalling sexism and racism some women encounter in seeking admission to doctoral studies in hiring in pay and in establishing the legitimacy of feminist perspectives in the academy They reveal sources of resistance too not only from colleagues and administrators but from family members and from within the self In so doing they provide inspiring examples of sisterly support and lifelong friendship

**Women and Political Representation in Canada** Manon Tremblay, Caroline Andrew, 1998-02-13 This collection of essays explores the often antagonistic relationship between women and political life in Canada While women make up little over half of the total population in Canada they are in many ways conspicuous by their absence from the Canadian political scene Federalism, Feminism and Multilevel Governance Marian Sawyer, 2016-04-15 Until recently few gender scholars took notice of the impact of state architecture on women s representation political opportunities and policy achievements Likewise scholars of federalism devolution and multilevel governance have largely ignored their gender impact For the first time this book explores how women s politics is affected by and affects federalism whether in Australia Canada India Mexico Nigeria Russia or the US Equally it assesses the gender implications of devolution and multilevel governance in the European Union including case studies of the UK and Germany Globally multilevel governance is providing new arenas for women s politics For example CEDAW the UN Convention for the Elimination of All Forms of Discrimination against Women has led most governments to adopt gender equality norms while other UN instruments have supported Aboriginal self government Gender scholars will find especially valuable what is revealed about the impact of political architecture on a broad range of policy issues including gay marriage reproductive rights and childcare Federalism scholars will benefit from the book s wide range of cases comparative themes and combination of gender and federalism perspectives Written by leading experts this book fills an important gap in both literatures

**Women and Politics around the World** Joyce Gelb, Marian Lief Palley, 2009-03-30 A unique two volume examination of the progress women have made in achieving political equality Women and Politics around the World addresses both transnational and gender related issues as well as specific conditions in more than 20 countries Women and Politics around the World A Comparative History and Survey is an exploration of the role of women in political systems worldwide as well as an examination of how government actions in various countries have an impact on the lives of the female population Women and Politics around the World divides its coverage into two volumes The first looks at such crucial issues facing women today as health policy civil rights and education comparing conditions around

the world The second volume profiles 22 different countries representing a broad range of governments economies and cultures Each profile looks at the history and current state of women s political and economic participation in a particular country and includes an in depth look at a representative policy The result is a resource unlike any other one that gives students researchers and other interested readers a fresh new way of investigating a truly global issue *Gender, Politics and Institutions* M. Krook,F. Mackay,2010-12-07 Political institutions profoundly shape political life and are also gendered This groundbreaking collection synthesises new institutionalism and gendered analysis using a new approach feminist institutionalism in order to answer crucial questions about power inequalities mechanisms of continuity and the gendered limits of change **The Politics of Women's Interests** Louise Chappell,Lisa Hill,2006-09-27 This new study reveals how institutional practices and discourses shape the way men and women are conceived of and how through this process gender stereotypes and expectations are created Informed by the latest research and trends these expert authors examine the way in which domestic and global institutions shape and reflect gender interests and the extent to which feminists can challenge gender norms through political institutions They examine regional national and international institutions including the EU ICC and UN and take a broad view of political institutions to include bureaucracy federalism legal structures parliaments voting and electoral institutions and media coverage of women s involvement in such institutions Drawing on experiences in the US UK Australia Canada and New Zealand this book will be of great interest to students and scholars of gender studies political science and comparative politics *New Reproductive Technologies and Disembodiment* Carla Lam,2016-04-22 With attention to the ways in which new reproductive technologies facilitate the gradual disembodiment of reproduction this book reveals the paradox of women s reproductive experience in patriarchal cultures as being both and often simultaneously empowering and disempowering A rich exploration of birth appropriation in the West New Reproductive Technologies and Disembodiment investigates the assimilation of women s embodied power into patriarchal systems of symbolism culture and politics through the inversion of women s and men s reproductive roles Contending that new reproductive technologies represent another world historical moment both in their forging of novel social relations and material processes of reproduction and their manner of disembodiment evident in recent visual and literary popular and academic texts this volume locates the roots of this disembodiment in western political discourse A call to feminist political theory to re remember the material dimensions of bodies and their philosophical significance New Reproductive Technologies and Disembodiment will appeal to scholars of sociology gender studies political and social theory and the study of science technology and health **Gendering the Nation-State** Yasmeen Abu-Laban,2009-01-01 Serious study of social and political life must attend to gender as a category of analysis Gendering the Nation State explores the gendered dimensions of a fundamental organizational unit in social and political science the nation state Yasmeen Abu Laban has drawn together work by both high profile and emerging scholars to rescue gender from the margins of theoretical

discussions on the nation the state public policy and citizenship Contributors bring the insights of feminist analysis to bear on three relationships central to popular and policy discussions in contemporary Canada and beyond gender and nation gender and state processes and gender and citizenship Gendering the Nation State employs a comparative framework and builds on three decades of multidisciplinary work Nuanced and wide ranging the collection crosses and challenges physical theoretical and disciplinary borders It will appeal to scholars in political science gender studies and sociology      **Women Migrant Workers in China's Economic Reform** F.
