Product Design and Development Howard R. Moskowitz,Jacqueline H. Beckley,Anna V. A. Resurreccion,2012-04-03 During the past thirty years companies have recognized the consumer as the key driver for business and product success This recognition has in turn generated its own drivers sensory analysis and marketing research leading first to a culture promoting the expert and then evolving into the systematic acquisition of consumer relevant information to build businesses Sensory and Consumer Research in Food Product Design and Development is the first book to present from the business viewpoint the critical issues faced by business leaders from both the research development and business development perspective This popular volume now in an updated and expanded second edition presents a unique perspective afforded by the author team of Moskowitz Beckley and Resurreccion three leading practitioners in the field who each possess both academic and business acumen Newcomers to the field will be introduced to systematic experimentation at the very early stages to newly emerging methods for data acquisition knowledge development and to points of view employed by successful food and beverage companies The advanced reader will find new ideas backed up by illustrative case histories to provide another perspective on commonly encountered problems and their practical solutions This book is aimed at professionals in

all sectors of the food and beverage industry Sensory and Consumer Research in Food Product Design and Development is especially important for those business and research professionals involved in the early stages of product development where business opportunity is often the greatest **Viewpoints and Controversies in Sensory Science and Consumer**

Product Testing Howard R. Moskowitz,Alejandra M. Muñoz,Maximo C. Gacula, Jr.,2008-06-02 The authors skillfully present different approaches to the same problem and even different ways to look at the same type of data If you have ever been stumped by a controversy in product assessment the design of studies or the analysis of data you will find the answer in this book Sensory Evaluation of Food Harry T. Lawless,Hildegarde Heymann,2013-12-11 The field of sensory evaluation has

matured in the last half century to be come a recognized discipline in the food and consumer sciences and an important part of the foods and consumer products industries Sensory professionals enjoy widespread recognition for the important services they provide in new product development basic research ingredient and process modification cost reduction quality maintenance and product optimization These services enhance the informational support for management decisions lowering the risk that accompanies the decision making process From the consumers perspective a sensory testing program in a food or consumer products company helps ensure that products reach the market with not only good concepts but also with desirable sensory attributes that meet their expectations Sensory professionals have advanced well beyond the stage when they were simply called on to execute taste tests and to provide statistical summaries of results They are now frequently asked to participate in the decision process itself to draw reasoned conclusions based on data and to make recommendations They are also expected to be well versed in an increasingly sophisticated battery of test methods and statistical procedures including multivariate analyses As always sensory professionals also need to understand people for people are the measuring instruments that provide the basic sensory data People are notoriously variable and difficult to calibrate presenting the sensory specialist with many additional measurement problems that are not present in instrumental methods American Book Publishing Record ,1997 *The Cumulative Book Index* ,1997 A world
