The book presents strategies for stress relief incorporating mindfulness and relaxation techniques to foster emotional equilibrium and overall well-being. The initial chapters define stress and its impact, introducing techniques such as deep breathing and guided imagery. It then explores mindfulness, providing guidance for establishing personalized meditation routines. Later, the book addresses lifestyle adjustments, emphasizing time management, realistic goal setting, and self-care. By providing empirical evidence, case studies, and a personalized approach, *How to Relax* empowers readers to take proactive steps towards a calmer, more balanced life.

Health Psychology Prof. Dr. Bilal Semih Bozdemir, A key future direction in health psychology research involves a concerted focus on diversity, equity, and inclusion (DEI). Existing research has often generalized findings, neglecting the nuanced health experiences of various demographic groups. Future studies should prioritize underrepresented populations to ensure that health psychology interventions account for cultural, socioeconomic, and contextual factors that influence health behaviors.
