**Religion after Religion** Steven M. Wasserstrom, 1999-11-15 By the end of World War II religion appeared to be on the decline throughout the United States and Europe Recent world events had cast doubt on the relevance of religious belief and modernizing trends made religious rituals look out of place It was in this atmosphere that the careers of Scholem Eliade and Corbin the twentieth century s legendary scholars in the respective fields of Judaism History of Religions and Islam converged and ultimately revolutionized how people thought about religion Between 1949 and 1978 all three lectured to Carl Jung s famous Eranos circle in Ascona Switzerland where each in his own way came to identify the symbolism of mystical experience as a central element of his monotheistic tradition In this the first book ever to compare the paths taken by these thinkers Steven Wasserstrom explores how they overturned traditional approaches to studying religion by de emphasizing law ritual and social history and by extolling the role of myth and mysticism The most controversial aspect of their theory of religion Wasserstrom argues is that it minimized the binding character of moral law associated with monotheism The author focuses on the lectures delivered by Scholem Eliade and Corbin to the Eranos participants but also shows how these scholars generated broader interest in their ideas through radio talks poetry novels short stories autobiographies and interviews He analyzes their conception of religion from a broadly integrated comparative perspective sets their distinctive thinking into historical and intellectual context and interprets the striking success of their approaches

[Dialectics, Politics, and the Contemporary Value of Hegel's Practical Philosophy](#) Andrew Buchwalter, 2012 This book explores and details the actuality Aktualit t of Hegel s social and political philosophy its relevance topicality and contemporary validity It asserts against the assumptions of those in a wide range of traditions that Hegel s thought not only remains relevant to debates in current social and political theory but is capable of productively enhancing and enriching those debates The book is divided into three main sections Part 1 considers the actuality of Hegel s social and political thought in the context of a constructed dialogues with later social and political theorists including Marx Adorno Habermas and Rawls Part 2 explores Hegel s internal criticism of Enlightenment rationality as well as the unique manner in which his thought reaffirms both the classical tradition of politics and the Christian conception of freedom in order to deepen and further develop our understanding of modernity and modern secularity Part 3 considers Hegel s contribution to current theorizing about globalization

*Du Bois's Dialectics* Reiland Rabaka, 2009-01-01 With chapters that undertake ideological critiques of education religion the politics of reparations and the problematics of black radical politics in contemporary culture and society Du Bois s Dialectics employs Du Bois as its critical theoretical point of departure and demonstrates his and Africana Studies contributions to as well as contemporary critical theory s connections to critical pedagogy sociology of religion and reparations theory Rabaka offers the first critical

**The Frankfurt School and the Dialectics of Religion** Dustin Byrd,2020-09 In his book *The Frankfurt School and the Dialectics of Religion* Translating Critical Faith into Critical Theory Dustin J Byrd argues that at the core of the Frankfurt School s Critical Theory is a secularized theology Unlike their predecessors especially Feuerbach Marx Lenin Freud and Nietzsche who argued for an abstract negation of religion the first generation of Critical Theorists followed Hegel s logic and attempted to rescue and preserve the revolutionary emancipatory and liberational aspects of religion in their secular non conformist philosophy They saw in both Judaism and Christianity certain conceptual and semantic elements that could be enlisted into their struggle for a future reconciled society one beyond the slaughterbench of history In order to rescue religion theological concepts had to go through the process of determinate negation wherein such materials migrate from the depth of the religious mythos into publicly accessible reasoning thus making the revolutionary impulse of prophetic religion accessible to the secular world Byrd also argues that this determinate negation of religion remains relevant to today s post secular societies especially in regard to religious Muslims attempting to find their place in Western countries which are often hostile to religion and religiosity Examining the strengths and weaknesses of Habermas famous translation proviso he argues that both religious and secular citizens of the West can learn from the Frankfurt School s dialectical approach to religion in order to find a space wherein both religious faith and secular reason can not only co exist but also join together in the process of creating a more reconciled future society

**The Dialectic of the Holy** Robert E. Meditz,2016-09-12 This is the first published book length treatment on Paul Tillich and Judaism which is a neglected aspect of Tillich s thought It has three compelling features First pivotal biographical details show the importance of Judaism for Tillich and that he ardently opposed anti-Semitism before WWII and after the Holocaust Second Tillich s theological method is examined in key primary sources to show how he maintains continuity between Judaism and Christianity The primary source analysis includes his 1910 and 1912 dissertations on Schelling the 1933 *The Socialist Decision* the 1952 Berlin lectures on the Jewish Question and his final public lecture on the importance of the history of religion for systematic theology Particular attention is paid to his dialectical and theological history of religion Third Tillich s positive theology of Judaism contrasts sharply with the many complex negative ways in which Judaism is portrayed in Western thought This contributes significantly to our understanding the evolving history of Christian anti Judaism

Bernard Shaw, Paul Ricoeur, and the Jesusian Dialectics of Redemptive Living Howard Ira Einsohn,2023-12-27 This book explores a heretofore unremarked linkage between Bernard Shaw the twentieth century French thinker Paul Ricoeur and Jesus of Nazareth The ties that bind them are a foundational interest in the social teachings of the Nazarene and their use of a shared dialectics with respect to living the kind of compassionate life that holds out the promise in our contemporary world of achieving something approximating universal wellness on a healthy planet at peace

with itself This work argues that the three principal subjects of the study independently of one another used the same dialectical method to reach the same dialectically derived conclusion about how humans can live redemptively in a fractured world

**Dialectic and Gospel in the Development of Hegel's Thinking** Stephen Crites, 2010-11-01 *Dialectics and Humanism*, 1987

*Dialectic of Enlightenment as Sport* Tom Donovan, 2015-10-01 In their *Dialectic of Enlightenment* Horkheimer and Adorno set out to explain why humanity instead of entering a truly human state is sinking into a new kind of barbarism Philosophy teacher Tom Donovan PhD UCRiverside offers a fresh reading of that classic text showing that it is first and foremost a critique of the metaphysical urge Describing our world of stupid consumption mindless entertainment and perverted games and relationships he notes these sorts of games have no end game as fantasy spectators never really win and yet they don't see it because they are too busy watching the other lose This is the secret of class society As long as there is someone below you then lack of reconciliation doesn't hurt so badly Citing the Super Bowl Clippers owner Donald Sterling basketball players like LeBron James plus the Kardashians mega churches and comedians like Jon Stewart Donovan gives us a new understanding of our age and how the broken threads that are today's Capitalism religion and sports contribute to unraveling the fabric of Modernity Against readings that claim that *Dialectic of Enlightenment* is a simple critique of instrumental reason that ultimately undermines rationality itself Dr Donovan argues that the real critique is aimed at the metaphysical urge itself As such rationality itself is not the target of attack nor is the notion of enlightenment Taking Adorno's and Horkheimer's example of the Marquis de Sade the author observes Sade can only find pleasure in domination The fear of the outside has morphed into fear of a reconciled world fear of a world where everyone treats each other as ends in themselves A society like this can tolerate porn but not socialism a society like this won't miss the ice caps but wouldn't miss the Super Bowl a society like this lets civilization sink into barbarism so long as they can watch The Bachelor Stylistically this book attempts to rationally mimic the fragmentary nature of *Dialectic of Enlightenment* so that through form and content the argument of the book will emerge dialectically Readers will see that *Dialectic of Enlightenment* actually offers a positive conception of enlightenment and a philosophical instance of the use of dialectics The book is for readers interested in critiques of capitalism and religion and sports in America as well as Marxism and Critical Theory It will intrigue academics interested in the Frankfurt School and the idea of the Metaphysical Urge

**Theology and the Dialectics of History** Robert M. Doran, S.J., 1990-06-01 In this challenging work Robert M Doran explores the basis of systematic theology in consciousness and goes on to consider the practical role of such theology in establishing and fostering communities with an authentic way of life This way of life would counteract the distortions and deformations of humanity that are exemplified by both late capitalism and Marxism Theology positions and interpretations today argues Doran must be stated in the categories of a theory of history The first part of the book outlines the horizon required for such categories The second third and fourth parts incrementally derive the categories expressing a theory of history in terms of the reciprocal relations among subjects

cultures and social structures The final part on hermeneutics presents an argument for the pertinence of what has preceded for interpreting the words and deeds of others Doran draws extensively on the thought of Bernard Lonergan and the work develops Lonergan's methodological insights It issues a call to persons genuineness and authenticity informed by religious moral intellectual affective and psychic conversions by interior differentiation of one's consciousness and by Christian faith on the parts of theologians who aspire to arrest effectively the course of cultural decline
