Challenge to Theology uses insights from disability studies to understand in a deeper way the ethical implications that genetic technologies pose for Christian thought. Theologians have been debating genetic engineering for decades but what has been missing from many theological debates is a deep concern for persons with genetic disabilities. In this ambitious and stimulating book, Devan Stahl argues that engagement with metaphysics and a theology of nature is crucial for Christians to evaluate both genetic science and the moral use of genetic technologies such as human genetic engineering, gene therapy, genetic screenings, preimplantation genetic diagnosis, and gene editing. Using theological notions of creation ex nihilo and natural law alongside insights from disability studies, Stahl seeks to recast the debate concerning genetic well-being. Following the work of Stanley Hauerwas, Stahl proposes the church as the locus for reimagining disability in a way that will significantly influence the debates concerning genetic therapies. Christianity has all too frequently been complicit in excluding, degrading, and marginalizing people with disabilities, but the new Christian metaphysics developed here provides normative theological guidance on the use of genetic technologies today. Only by heeding the voices of people with disabilities can Christians remain faithful to the call to find Christ in the least of these and from there draw closer to God.

Anderson, 2013-04-17. Reaching Out and Bringing In is designed to help pastors and church leaders develop a biblical perspective on disability and the church's role in ministering to individuals and families affected by disability. A must-read for those who minister to and with persons with disabilities and even as a Bible study for all Christians. Dana Croxton, founder of Enable Ministries. Dr. Anderson's book challenges the church community to reach out to people and families affected by disability and to consider ways the church can minister to and with people with disabilities. The book includes insightful and relevant questions at the end of each chapter, making it perfect for reading and discussion by church staff, church boards, and in small group or Sunday school settings. Brian Funk, area director, Joni and Friends Eastern Pennsylvania, Lancaster. Dr. Anderson sounds a wakeup call to the church. The book's call for personal heart change is coupled with a challenge to the church to greater action and intentional outreach. Vonn Dornbush, DMin, pastor of missions and outreach, Calvary Church, Roseville, Minnesota. **A Transformatory Ethic of Inclusion** Jayne Clapton, 2009-01-01. Inclusion is a topical notion which underpins contemporary human service practices and policies within Western Judeo-Christian societies. Inclusion is most often considered within socio-historical and socio-political contexts whereby technical and legislative responses are sought. However, this book explores the question: How ethically defensible is the notion of inclusion in relation to people with intellectual disability? The book contends that inclusion is a multifaceted, complex concept in a dualistic and dichotomous relationship with exclusion. It is argued that historical and contemporary conceptualisations of

exclusion for people with intellectual disability have been constructed from various philosophical and theological matrices imbued with particular values about personhood Furthermore it is proposed that the ethical significance of inclusion and exclusion in the context of intellectual disability is defined and perpetuated by expressions of a particular socio symbolic order underpinned by patriarchy and kyriarchy and subjected to two controlling ethics an Ethic of Normalcy and an Ethic of Anomaly Inclusion and exclusion are conceived as phenomena relating to how membership is defined legitimated or repelled by concealed occluding boundaries acting within a patriarchal socio ethical fabric The book argues that Ethical Inclusion is only possible through the rupture of these boundaries by a conceptual tool A Transformatory Ethic of Inclusion This conceptual instrument of rupture embraces the scholarship of feminist ethics and feminist theology Such a rupture requires examining the ways traditional ethical frameworks themselves have conceptually diminished and devalued the authenticity of people with intellectual disability A concept of integrality becomes imaginable Conceptual analysis is framed using a crafting metaphor of a patchwork quilt which is infused with narrative and by which such an ethical exploration is undertaken and impaired traditional ethical theorising is confronted and transformed

cultural moment and because thinking through them reveals how religions are embedded in and shaped by material social economic and political forces A shared conviction unites contributors from a range of traditions and methodologies a recognition that our world is saturated by the persistence of religious traditions as shape shifting not static or transcendent forces of authority as powerful today as ever before
