 celebrated Platonic myths from eight of Plato's dialogues ranging from the early Protagoras and Gorgias to the late Timaeus
 and Critias They include the famous myth of the cave from Republic as well as The Judgement of Souls and The Birth of Love
 Each myth is a self-contained story prefaced by a short explanatory note while the introduction considers Plato's use of myth
 and imagery The Midnight Kingdom Jared Yates Sexton, 2023-01-17 From the author of American Rule and the host of
 The Muckraker Podcast an ambitious account of how white supremacist lies religious mythologies and poisonous conspiracy
 theories built the modern world and threaten to plunge us into an authoritarian nightmare To fully understand these strange
 and dangerous times Jared Yates Sexton takes a hard look at our nation's history namely the abuses committed by those in
 power and the comforting stories that shaped the way the West has viewed itself up to the present As reactionaries and
 authoritarians cling to myths about Western civilization The Midnight Kingdom exposes how political power religious
 indoctrination and economic dominance have been repeatedly weaponized to oppress and exploit sounding an alarm for what
 lies ahead as the current order frays Beginning with the Roman Empire and racing through centuries of colonization war
 genocide and the recurring clashes of progress and regression Sexton finds our modern world at a crossroads In an echo of
 past crises we have arrived at a time of historic inequality and a fading trust in our institutions Meanwhile authoritarianism
 is gaining momentum and the progress of the twentieth century is being rolled back at dizzying speed This catastrophic
 moment holds terrible potential for a return to a totalitarian past or potentially a better realer more human future The

difference depends on a true reckoning with our history and the larger forces at play or hiding behind this disastrous fantasy of Western superiority Bracing and compulsively readable *The Midnight Kingdom* takes a critical look at the forces that have shaped human civilization for centuries and invites us to seek a radically different future Theosophy and the Study of Religion ,2024-06-11 Since its emergence in the nineteenth century the Theosophical Society has wielded enormous influence across diverse fields none more so than the study of religion This volume explores this legacy in North America Europe and India demonstrating its impact on the conceptualization of religion and its influence on methods of comparison Unveiling overlooked entanglements the volume challenges standard narratives in the history of religious studies and interrogates the deliberate neglect of theosophy's influence in the secular academy In doing so the work confronts lingering ghosts urging a reappraisal that enriches the study of religion and offers prescriptions for its future **Religious Diversity and American Religious History** Walter H. Conser, Sumner B. Twiss, 1997 The ten essays in this volume explore the vast diversity of religions in the United States from Judaic Catholic and African American to Asian Muslim and Native American traditions Chapters on religion and the South religion and gender indigenous sectarian religious movements and the metaphysical tradition round out the collection The contributors examine the past present and future of American religion first orienting readers to historiographic trends and traditions of interpretation in each area then providing case studies to show their vision of how these areas should be developed Full of provocative insights into the complexity of American religion this volume helps us better understand America's religious history and its future challenges and directions **Ancient Greece and Rome** Keith Hopwood, 1995 Sir Thomas Fairfax not Oliver Cromwell was creator and commander of Parliament's New Model Army from 1645 to 1650 Although Fairfax emerged as England's most successful commander of the 1640s this book challenges the orthodoxy that he was purely a military figure showing how he was not apolitical or disinterested in politics The book combines narrative and thematic approaches to explore the wider issues of popular allegiance puritan religion concepts of honour image reputation memory gender literature and Fairfax's relationship with Cromwell Black Tom delivers a groundbreaking examination of the transformative experience of the English revolution from the viewpoint of one of its leading yet most neglected participants It is the first modern academic study of Fairfax making it essential reading for university students as well as historians of the seventeenth century Its accessible style will appeal to a wider audience of those interested in the civil wars and interregnum more generally
