Herodotean Inquiries S. Benardete, 2012-12-06 Herodotus has so often been called since ancient times the father of history that this title has blinded us to the question Was the father of history an historian Everyone knows that the Greek word from which history is derived always means inquiry in Herodotus His so called Histories are inquiries and by that name I have preferred to call them His inquiries partly result in the presentation of events that are now called historical but other parts of his inquiry would now belong to the province of the anthropologist or geographer Herodotus does not recognize these fields as distinct they all belong equally to the subject of his inquiry but it is not self evident what he understands to be his subject the notorious difficulties in the proemium are enough to indicate this If his work presents us with so strange a mixture of different fields we are entitled to ask Did Herodotus understand even its historical element as we understand it Without any proof everyone as far as I am aware who has studied him has assumed this to be so **Aimard's Indian tales, ed. by P.B. A Selection of New and Popular Dramas and Farces, ... ,1844 *National Role Conception and Neoclassical Realism* Guangyi Pan,2025-06-27 Despite China s alignment with Russia being one of the most significant factors shaping the international order the dynamics of their historic relationships and more importantly the sources of China s alignment policy remain underexplored In this book National Role Conception and Neoclassical Realism a synthetic exploration into the Sino Soviet alignment Guangyi Pan investigates this question by analysing the changes in China s national role conception from a cross level perspective Adding value to existing scholarly works on China s decision making logic he examines two critical and dramatic moments in the history of Beijing s alignment policy towards Moscow the Sino Soviet split in the 1960s and the normalisation in the 1980s Based on massive historic documents and archives he argues that the evolution of Beijing s approach to aligning with Moscow results from its changing perception of China s role in the world platform especially its role relationship with the Soviet Union The fundamental logic lies in how China positions itself with the Soviet Union long serving as a mirror reflecting Beijing s desired roles during pivotal transformations By developing a more rigorous and coherent framework to analyse role conceptions Guangyi Pan explores unit level factors

including leader images elite cohesion and political culture alongside the impact of systemic stimuli This approach constructs the complex process of role formation evolution performance and policy outcomes offering a comprehensive understanding of China's alignment with Russia throughout modern history Aimed primarily at scholars whose research fields include international relations theory the Cold War history and politics of China National Role Conception and Neoclassical Realism may also be of interest to foreign policymakers students and political history enthusiasts

Sport, Revolution and the Beijing Olympics Grant Jarvie, Dong-Jhy Hwang, Mel Brennan, 2008-05-15 The 2008 Olympic Games will be held in Beijing but many human rights activists support a boycott They liken the circumstances to previous governments that used the games to glorify their regimes most notoriously the Nazis in 1936 What has led to this perception and is it fair Sport Revolution and the Beijing Olympics is a cultural history of sport in China that challenges many such ingrained Western assumptions The authors unpick the relationship of sport to imperialism and revolution and examine its significance in both China and Taiwan at governmental and everyday levels In the process they successfully debunk harmful myths such as the prevalence of drugs in Chinese sport among women athletes and present a balanced view that is a much needed corrective to popular understanding
