extraordinary community of people dedicated to wildfire detection and combat In isolation she discovers a kind of self awareness and freedom that only solitude can deliver Lookout is a riveting story of loss transformation and belonging to oneself layered with an eyewitness account of the destructive and regenerative power of wildfire in our northern forests

The Seven Angels of the Apocalypse Peter M. Sciarrotta,2002-08-29 It was hard to categorize The Seven Angels of the Apocalypse It is fiction based on the truths that loom before us all Chapter 1 is totally true as the main character encounters a stigmatic through a third party on his 21st birthday the day he was to decide about becoming a priest There are many other truths that manifest themselves throughout this book The author is able to identify who the angels of the Apocalypse actually are by name which is very bold and is able to back these up with Biblical facts that are thrown into this work The author spins a web of world events that develop well with many twists and turns and in the end all things come together in a very climatic scene Don t overlook any details given by the author as there are many covert themes present He seems to say a lot with few words as if he trusts the reader s intelligence Peter is able to bring these world events to a level that relate to the lives of everyday people while giving us an insight to the way our world leaders would handle the apocalyptic situations One point brought up by one of the book s characters Pope Peter II is monumental The Bible is the most widely published book ever why does no one know how it ends The insight the author has is straight forward and Peter does not hesitate to challenge other schools of thought The Left Behind theory is put under scrutiny and the characters give argument to this widely accepted theory quite successfully The Seven Angels of the Apocalypse is not a long drawn out novel which is good because the readers attention will be so intense that you just can t put this book down This book takes you from today to the Second Coming There will be a sequel The Millennial Reign of Jesus Christ to take us from the Second Coming to the end of Revelations Do not read this book before bedtime

A Magical Education John Michael Greer, 2019-03-11. In these talks written and presented to a variety of audiences between 2001 and 2010, John Michael Greer explores the forgotten history of occultism and its unexpected possibilities in our time. From practical methods of occult training to the politics and metapolitics of magic, from the shadowy world of Victorian sex magic to the alchemy of initiatory ritual, from the complex origins of modern Neopaganism to the approaching twilight of Neopagan pop culture, and what comes next, the talks collected in this book seek to inspire curiosity and reflection, not to set out an ironclad case for this or that point of view. This book is an extraordinary insight into the life and work of a working magician and occultist.

Doom of the Gods James McHale, 2013. The destruction of the space station results in the microscopic engines of destruction beginning to rain down upon the earth. Further complications ensue with the arrival of the stellar mass that has been ejected from the sun and also threatens the earth. With mankind's very survival in the balance, the race is on to prevent the final extinction of all life across the earth by the nanoplague and the solar storm. This is a fast-paced action sci-fi story that spans the globe and leaves the reader breathless with its political and international intrigue, advanced technology, and raw human emotion.
