This is the final volume in Carl G Vaught's groundbreaking trilogy reappraising Augustine's Confessions a cornerstone of Western philosophy and one of the most influential works in the Christian tradition Vaught offers a new interpretation of the philosopher as less Neoplatonic and more distinctively Christian than most interpreters have thought In this book he focuses on the most philosophical section of the Confessions and on how it relates to the previous more autobiographical sections A companion to the previous two volumes which dealt with Books I-IX this book can be read either in sequence with or independently of the others Books X-XIII of the Confessions begin after Augustine has become Bishop of Hippo and they are separated by more than ten years from the episodes recorded in the previous nine books of the text This establishes the narrative in the present and speaks to the believing sons of men Augustine explores how memory time and creation make the journey toward God and the encounter with God possible Vaught analyzes these conditions in order to unlock Augustine's solutions to familiar philosophical and theological problems He also tackles the frequently discussed problem of the alleged disconnection between the earlier books and the last four books by showing how Augustine binds experience and reflection together **Dictionary of Theologians** Jonathan Hill, 2010-03-25 An exhaustive guide to every significant Christian

Jonathan Edwards's Philosophy of History

Avihu Zakai,2009-07-26 Avihu Zakai analyzes Jonathan Edwards s redemptive mode of historical thought in the context of the Enlightenment As theologian and philosopher Edwards has long been a towering figure in American intellectual history Nevertheless and despite Edwards s intense engagement with the nature of time and the meaning of history there has been no serious attempt to explore his philosophy of history Offering the first such exploration Zakai considers Edwards s historical thought as a reaction in part to the varieties of Enlightenment historical narratives and their growing disregard for theistic considerations Zakai analyzes the ideological origins of Edwards s insistence that the process of history depends solely on God s redemptive activity in time as manifested in a series of revivals throughout history reading this doctrine as an answer to the threat posed to the Christian theological teleology of history by the early modern emergence of a secular conception of history and the modern legitimation of historical time In response to the Enlightenment refashioning of secular historical time and its growing emphasis on human agency Edwards strove to re establish God s preeminence within the order of time Against the de Christianization of history and removal of divine power from the historical process he sought to re enthrone God as the author and lord of history and thus to re enchant the historical world Placing Edwards s historical thought in its broadest context this book will be welcomed by those who study early modern history American history or religious culture and experience in America
