Dark Kingdom Firestar, 2007-12 The year following my diagnosis of breast cancer having a total mastectomy and chemotherapy I felt as if I was out at sea in the midst of a storm The faster I ran from the darkness and turmoil the closer it came I was frightened but learned to depend on

the energy of the Universe Accepting my new body image was very difficult Due to my insecurities low self esteem and self confidence I placed my marriage in jeporady I had to learn to trust in the positive energy of the Universe to help me heal I needed to allow God and His angels to take me in their hands and carry me Depending on the power of the Universe established inner strength and courage to be a survivor We have a choice in how we react and respond to situations the lessons that life presents to us Learning to let go of certain feeling and situations is difficult but it makes each day more peaceful and comfortable Everything happens for a reason and it is up to us to learn from the lessons which are presented to us You can be a survivor when you accept that being a survivor is a state of mind which is dictated by you and not others I realized that guilt and shame are wasted energy and I was loved and can love others Everyone s path in recovery and rediscovery will be different We cannot compare ourselves to others We are individuals with different childhood experiences different backgrounds personalities and with different support systems I hope that Journey to New Beginnings gives you a sense of comfort and hope Each year will be another path of learning experiencing the joys of living and life enjoying the extraordinary in the ordinary *Catalog of Copyright Entries* Library of Congress. Muzio,2009-02-24 This book is a memoir the description of my parents lives based on my remembrances conversations with relatives reviews of family photographs as well as examining remaining personal documents of our family This memoir started as a brief description and was something I had planned for a long time Initially I thought it would be perhaps a few dozen pages Instead it grew organically and became a much more detailed recollection of my mother and father s lives their marriage their approaches to life how they raised my sister and me and their continuing influence upon me They came to America as immigrant children they developed here within their cultural boundaries as Italian Americans they struggled thrived and pursued their personal goals They are still with me today It has been simultaneously an exhilarating and exhausting process as the writing expanded This is far beyond any sort of genealogical charting or the identification of distant relatives Rather it provides perceptions about my feelings and beliefs regarding my parents their positive qualities and flaws as well as how I perceive them now that I am an older adult This process is one that I urge other children to engage in writing about their parents so that there will be descriptions of the roles they played I call such writing a critical component of the collective humanity tracing the historical journeys that would then be available to the remaining family members and their ancestors Conceivably such continued writings could become an endless documentation of family behaviors and interactions It might even provide a greater clarity and understanding of one s parents through a long range lens *Solariad* Surazeus Astarius,2017-10-15 *Solariad* of Surazeus Guidance of Solaria presents 114 920 lines of verse in 1 660 poems lyrics ballads sonnets dramatic monologues eulogies hymns and epigrams written by Surazeus 2006 to 2011 *Life'S Punctuated Immortality* Robert Woods,2016-01-26 This glorification of nature in general incorporates themes of Darwinian evolution through natural selection extending to investigation of the origin of life from elements made in the stars to contemplation of consciousness self awareness laws of nature physics and probabilities of exact duplication of life forms including man over stretches of time and planetary realms our punctuated immortality Overall there is celebration of the gift of life through each incarnation of birth death and rebirth in view of science and thoughts of spirituality The subsuming principle throughout is love from its haven in the light of dreams to magnanimous configurations that sustain the ethos of humanity And lifes summation can be visualized in the dream light from the poem Rainbow The wave of color binds our sentiments before it fades For each emotion is a subtlety in hue expressed And through lifes noble journey may we add these
