little deeper into the book you will explore the following with me The very specifics of being a vegan and what it means to choose a vegan diet or lifestyle The health benefits of a new diet How the food choices you make can have a positive impact on our world and environment The answer to the question Do I have to give up the peanut butter and chocolate Whether or not the pasta and bread have a place in a low carb and vegan food style How to lower your risk of getting cancer or heart disease How we may be carrying a toxic load and what to do about it What it means to eat lower on the food chain Living a more kind and generous life What the connection is between carbohydrates and mass produced food The risk for diabetes because of the food consumed Fat and weight gain
