in books articles correspondence and even presidential addresses made its way into every aspect of social science thought of the period and is the subject of this book Mark C Smith first provides a historical overview of the controversy over the nature and future of the social sciences in early twentieth century America and then through a series of intellectual biographies offers an intensive study of the work and lives of major figures who participated in this debate Using an extensive range of materials from published sources to manuscript collections Smith examines objectivists economist Wesley Mitchell and political scientist Charles Merriam and the more purposive thinkers historian Charles Beard sociologist Robert Lynd and political scientist and neo Freudian Harold Lasswell He shows how the debate over objectivity and social purpose was central to their professional and personal lives as well as to an understanding of American social science between the two world wars These biographies bring to vivid life a contentious moment in American intellectual history and reveal its significance in the shaping of social science in this country *Children Today* ,1987 **The Horn Book Magazine** ,1929 *Teaching Like that* Jaime G.
