A Horror and a Beauty: The World of Peter Ackroyd's London Novels Petr Chalupský, 2016-02-01 Peter Ackroyd is one of the foremost contemporary British London writers He focuses on the capital its history development and identity both in his fiction and non fiction The London of his novels is thus a highly idiosyncratic construct which reflects and derives from its author's ideas about the actual city's nature as well as his concept of the English literary sensibility in general as he outlines them in his lectures and historical and literary studies It is an exceptionally heterogeneous city of enormous diversity and richness of human experience moods and emotion of actions and events and also of the tools through which these are re-presented and reenacted According to Ackroyd this heterogeneity mostly originates outside the sites and domains of the established or mainstream cultural production and social norms and conventions particularly in occult practices subversive acts and the plotting of radical individuals or groups criminal and fraudulent activities of various kinds dubious scientific experiments and the popular dramatic forms of ritual and entertainment whose permanent encounters with and contesting of the officially approved and prescribed forms instigate the city's vitalising energy for dynamic change and spiritual renewal This book presents the world of Ackroyd's London novels as a distinct chronotope determined by specific spatial and temporal properties and their mutual interconnectedness Although such a concept of urban space in its essence defies categorisation the book is thematically organised around six defining aspects of the city as Ackroyd identifies them the relationship between its past and present its uncanny manifestations its felonious tendencies its inhabitants psychogeographic and antiquarian strategies its theatricality and its inherently literary character

Wilson,2022-01-04 An in depth look into the life of

Romantic essayist Charles Lamb and the legacy of his work A pioneer of urban Romanticism essayist Charles Lamb 1775 1834 found inspiration in London s markets theaters prostitutes and bookshops He prized the city s literary scene too where he was a star wit He counted among his admirers Mary Shelley William Wordsworth and Samuel Taylor Coleridge His friends valued in his conversation what distinguished his writing style a highly original blend of irony whimsy and melancholy Eric G Wilson captures Lamb s strange charm in this meticulously researched and engagingly written biography He demonstrates

how Lamb's humor helped him cope with a life-defining tragedy in a fit of madness his sister Mary murdered their mother. Arranging to care for her himself, Lamb saved her from the gallows. Delightful when sane, Mary became Charles's muse, and she collaborated with him on children's books. In exploring Mary's presence in Charles's darkly comical essays, Wilson also shows how Lamb reverberates in today's experimental literature. **The Publishers Weekly**, 2007.
