Foucault in Iran, 1978-1979 Johann Beukes, 2020-12-31 In 1978 Michel Foucault went to Iran as a distinguished intellectual but novice political journalist controversially reporting on the unfolding revolution undeniably compromising and wounding his reputation in the European intellectual community Given the revolution's bloody aftermath and its violent theocratic development is Foucault's Iranian expedition simply to be understood as a critical error in judgement with disastrous consequences for his legacy What exactly did Foucault hope to achieve in Iran in 1978 1979 explicitly supporting the cause of the revolting masses and effectively isolating himself from the European intellectual community and the Western liberal tradition The book investigates this open nerve in the Foucault scholarship by interpreting Foucault's primary texts from this period commenting on the various positions in the scholarship over the past three decades and eventually proposes

that Foucault's mistake resulting from his self-consciousness and uncertainty was indeed a highly philosophical endeavour but was completely misinterpreted by his contemporaries and even his most noteworthy biographers. The issue of Foucault's involvement in Iran is still a relatively unexplored theme in Foucault research and one that is actually bypassed by the majority of Foucault scholars since the general view is that it was a breathtaking mistake comparable to Heidegger's flirtation with National Socialism. This book will provide value and advance knowledge in this area firstly by presenting the three concepts that are in my opinion key to understand Foucault's involvement in the Iranian revolution: Otherness, Present history, and Political spirituality. Secondly by providing a thorough overview of what really happened in Iran after Foucault arrived in Tehran in September 1978 and what really happened was not conforming to the West's idea of progression but an Iranian idea of progression on its own terms. Thirdly by disseminating Foucault's reports back to France in a detailed and forensic fashion. Fourthly by providing a solid overview of the interpretations on this issue, however reluctant and scarce from the scholarship over the past three decades. Fifthly by presenting Foucault's involvement in the Iranian revolution not as a mistake or a critical error in judgement but as a deeply philosophical position that actually corresponds to many of Foucault's theoretical positions on power, death, madness, uncertainty, spirituality, Orientalism, and Otherness preceding the revolution in Iran. The detailed historical overview of Foucault's involvement in the Iranian revolution, the responsible and non-polemical overview of the scholarship's attempts to deal with the issue, and the author's original interpretation and presentation of the legitimacy of Foucault's presence in Iran from September 1978 to April 1979. In an age where it has become urgent to reinterpret both Shia and Sunni legacies within the context of radicalised Islam, the book argues for a Foucaultian recognition of the Orient/Other as nothing more than 'An Other Self'.
