Hood, 2001 A Moment with Eternity explores the nature of man God and the universe Delving deeply within himself the writer overcomes through personal sacrifice the truth about existence This book has been written in two parts In the first half you will explore alongside the writer the mysteries of the unseen realities and battle against mysterious forces that threaten your very existence The second half of the book is full of clear simple explanations drawn from further years of personal research As well there are several easy exercises to assist you in expanding and developing your human potential As you grow and develop you will continue to discover new truths These new deeper levels of truth will reveal themselves from among the very same pages you have already read A Moment with Eternity could be called an unforgettable transformational journey Visit the website at BridgeToLight.com

Heating, Cooling, Lighting Norbert Lechner, 2014-10-13 Sustainable environmental control through building design Heating Cooling and Lighting is the industry standard text on environmental control systems with the emphasis on sustainable design By detailing the many factors that contribute to the comfort in a building this book helps architects minimize mechanical systems and energy usage over the life of the building by siting building design and landscaping to maximize natural heating cooling and lighting This new fourth edition includes new information on integrated design strategies and designing for the Tropics Resources include helpful case studies checklists diagrams and a companion website featuring additional cases an image bank and instructor materials Designing buildings that require less energy to heat cool and light means allowing the natural energy of the sun and wind to reduce the burden on the mechanical and electrical systems Basic design decisions regarding size orientation and form have a great impact on the sustainability cost and comfort of a building Heating Cooling and Lighting provides detailed guidance for each phase of a design project Readers will Understand the concept of sustainability as applied to energy sources Review the basic principles of thermal comfort and the critical role of climate Learn the fundamentals of solar responsive design including active and passive solar systems as well as photovoltaics Discover how siting architectural design and landscaping can reduce the requirements for mechanical and electrical systems In sustainable design mechanical and electrical systems should be used to only accomplish what the architect could not by the design of the building itself With this in mind designers require a comprehensive understanding of both the properties of energy and the human factors involved in thermal comfort Heating Cooling and Lighting is the complete industry leading resource for designers interested in sustainable environmental control

Frank Lloyd Wright and the Path to Beauty Kenneth Dahlin, 2025-06-19 This book connects Frank Lloyd Wright's organic theory with his pursuit of beauty presenting a path for the recovery of beauty in architecture While there has been a

resurgence of interest in beauty in architecture recently the modern uglification of our built environment means there is no clear pathway to define or find it In this study Wright s organic theory provides such a path to reclaim this beauty Tracing the evolution of Wright s concept of organic architecture author Kenneth Dahlin explores Wright s middle way a route mediating between traditional historical precedents and today s novelty driven architectural culture often detached from deeper notions of harmony and beauty Chapters explore Wright s romanticist roots in the late 19th and early 20th centuries including the House Beautiful movement the centrality of Japanese aesthetics and his concept of the integrated whole Two chapters on Aristotle and Hegel ground Wright s pursuit of beauty in philosophical aesthetics setting the stage for a concluding synthesis that unites the various strands of Wright s theory into a model theory of organic architecture for the future This book will be of interest to Frank Lloyd Wright scholars and enthusiasts as well as postgraduate and advanced undergraduate architecture students

Enlightened by Design Helen Berliner,1999-06-07 This book shows how to use our homes to realign ourselves with the basic forces of nature heaven and earth the four directions and the elemental energies that arise from them Based on Tibetan Buddhist teachings on energy mandalas and the practice of space awareness it includes playful quotes provocative illustrations and practical exercises for discovering the inspiration and delight hidden in our homes And it explains the role of wakefulness in contemplative arts and design Berliner proceeds from living room to bedroom to kitchen to home office illustrating with rigorous practicality how we can join space color function harmony and our senses to create functional welcoming rooms She draws on traditional geomantic systems from Celtic wisdom to feng shui to show that home design and ecology are one and the same and that intuition and our senses are our most effective decorating tools Working with wakefulness and natural patterns of energy we can create enlightened environments and in this case enlightenment begins at home

Spirit and Place Christopher Day,2012-06-14 Built environment surrounds us for 90% of our lives but only now are we realising its influence on the environment our health and how we think feel and behave both individually and socially Spirit how to moderate climate to make places of delight and realign social pressures so places both support society and maximise economic viability Thought provoking and easy to understand Christopher Day uses everyday examples to relate his theories to practice and our experience
