*Prayer Shawl Ministries and Women's Theological Imagination* Donna Bowman,2015-10-30 Based on personal interviews Prayer Shawl Ministries and Women's Theological

Imagination uncovers the theological creativity of Christian lay women quietly stitching their own sacred fabric From the origins of prayer shawl ministry in feminist and ecumenical thought the movement has grown to hundreds of groups composed mostly of women over 60 in denominations across the political and doctrinal spectrum Through participation in handcrafting ministries participants reflect on themes that sometimes complement and sometimes challenge the public stances of their communities Women in prayer shawl ministries develop commitments to broad inclusion reject the intrusion of market forces and realize their productive power Out of their traditional roles as caretakers they craft compassion into a conscious theologically rich practice Out of their historical subordination they cultivate trust in divine providence and hope for the preservation of their legacy Listening to their ideas convictions and concerns and connecting them to findings from multiple scholarly fields this book seeks to disclose the convergences and complexity of ordinary women s theological thinking and behavior

**Religion, Conflict and Military Intervention** Rosemary Durward,2016-04-08 For many years religion has been the neglected component of international relations and yet in an age of globalization and terrorism religious identity has become increasingly important in the lives of people in the West as well as the developing world The secularization thesis has been overtaken by an increased desire to understand how religious actors contribute to both conflict and the resolution of conflict This volume brings an exciting new perspective with fresh ideas and analyses of the events shaping conflict and conflict resolution today The book uniquely combines chapters highlighting Christian and Islamist theological approaches to understanding and interpreting conflict as well as case studies on the role of religion in US foreign policy and the Iraq war with religious perspectives on building peace once conflicts are resolved The volume provides an ideal starting point for anyone wishing to gain a deeper understanding of the religious character of conflict in the twenty first century and how such conflict could be resolved

**Biblical Economic Ethics** Albino Barrera,2013-08-31 Written in non technical language

accessible to non specialist readers this book is a theological synthesis of the findings of scripture scholars and ethicists on what the Bible teaches about economic life It proposes a biblical theology of economic life that addresses three questions namely What do the individual books of Sacred Scripture say about proper economic conduct How do these teachings fit within the larger theology and ethics of the books in which they are found Are there recurring themes underlying patterns or issues running across these different sections of the Bible when read together as a single canon The economic norms of the Old and New Testament exhibit both continuity and change Despite their diverse social settings and theological visions the books of the Bible nonetheless share recurring themes care for the poor generosity wariness over the idolatry of wealth the inseparability of genuine worship and upright moral conduct and the acknowledgment of an underlying divine order in economic life Contrary to most people s first impression that the Bible offers merely random economic teachings without rhyme or reason there is in fact a specific vision undergirding these scriptural norms Moreover far from being burdensome impositions of do s and don ts this book finds that the Bible s economic norms are in fact an invitation to participate in God s providence To this end we have been granted a threefold benefaction the gift of divine friendship the gift of one another and the gift of the earth Thus biblical economic ethics is best characterized as a chronicle of how God provides for humanity through people s mutual solicitude and hard work The economic ordinances aphorisms and admonitions of the Old and New Testament turn out to be an unmerited divine invitation to participate in God s governance of the world Our economic conduct provides us with a unique opportunity to shine forth in our creation in the image and likeness of God Often extremely demanding hard and even fraught with temptations and distractions economic life nevertheless is at its core an occasion for humans to grow in holiness charity and perfection

**Now Choose Life** Gary Millar,2000-10-02 In this NSBT volume Dr J Gary Millar provides a careful and perceptive analysis of Deuteronomy s ethical teaching set in the context of the book s theology After discussing how Deuteronomy has been understood by other scholars he sets out his own interpretation dealing with its ethics in the light of key themes in the book covenant journey law and the nations

Christian Ethics Introduced Hans O. Tiefel,2024-03-11 Christian Ethics Introduced asks why humans count as ends in themselves The biblical answer was is that humans have standing inherent worth as creatures in the image of God This traditional answer yielded to seventeenth and eighteenth century enlightenment secularism To these secularists human reason promised to be a surer and more peaceable foundation for a just culture than religion Human rationality the light of human reason would enlighten and improve the human condition Two world wars and more realistic trends in new social sciences created not just awareness of human irrationality but fostered skepticism of sound foundations for morality and justice It seemed that both traditional religion and enlightened reason fell short of what had been hoped And the cause of failure may not lie in traditional religion or in human irrationality Rather the problem might lie in human conduct Specifically it may lie in the human inclination to favor self over others of the me outranking the we Christian responses to the human failure to live a moral and just life

Birch, Jacqueline E. Lapsley, Cynthia D. Moe-Lobeda, Larry L. Rasmussen, 2018-05-01 Earth is changing in ways it hasn't for hundreds of thousands of years At the same time Christianity is breaking away from its millennium long geographical and cultural center in the Euro West Its growth is in Asia Africa and Latin America primarily in Pentecostal evangelical and independent churches These dramatically changed planetary and ecclesial landscapes have led many to conclude that we need a new way of thinking about our collective existence who are we and what is the nature of our responsibility in this deeply altered world To address that question biblical scholars Bruce C Birch and Jacqueline E Lapsley and Christian ethicists Larry L Rasmussen and Cynthia Moe Lobeda carry on a new conversation that engages how Christians are to understand the authority and use of Scripture the basic elements of any full bodied Christian ethic attuned to our circumstances and the nature of our responsibility to our planetary neighbors and creation itself
