

# ARITHMETIC.

UNIV. OF  
CALIFORNIA

## NOTATION AND NUMERATION.

1. **ARITHMETIC** is the science of numbers and the art of computation by them.

2. A **Unit**, or **Unity**, is one, or a single thing; as one, one foot, one dollar.

3. A **Number** is a unit, or a collection of units; as one, two, three feet, five dollars. Numbers are expressed by words, by letters, and by figures.

4. **Notation** is a system of representing numbers by symbols. There are two methods of notation in use, the *Roman* and the *Arabic*.

5. **Numeration** is a system of naming or reading numbers.

6. The *Arabic* method of notation employs ten characters or figures, viz.:

1	2	3	4	5	6	7	8	9	0
one	two	three	four	five	six	seven	eight	nine	zero

The first nine of the above are called *significant figures*, because each, standing by itself, represents a value, or denotes some number. They are also called *digits*, from the Latin word *digitus*, which means a finger.

The last one is called *zero*, *naught*, or *cipher*, because when standing alone it has no value, or signifies nothing.
