Corporate

Caterpillars Ron J. West, 2013-08-15 Ron J West ronjwest.com has been inspiring corporate transformation for more than 25 years in in companies large and small He wrote Corporate Caterpillars How to Grow Wings to provide a kind of blueprint you can use to create your own individual and corporate transformation to move from limited to limitless The book is not modeled on a single analogy like the transformation from caterpillar to butterfly nor does it reduce the concept to a set of simple steps But it does strive to recognize the richness of reasons why we often seem to be left with few choices Everything shows up exactly when it is supposed to just like this book You are holding this book perhaps because you feel that either you or your company is stuck in some way As an individual maybe you have caught yourself repeating a pattern to sabotage your efforts to get to where you want to be Perhaps you are a CEO CFO President Vice President Department Manager or Project Leader You are probably a business leader in a position to affect change in your organization maybe your enterprise is a small family business or an international conglomerate It matters not whether your company is a for profit or a not for profit a public or a private enterprise this book will show how to move from a world of limited options to a realm of limitless possibilities transforming both you and your company

Life-span Development Leonie Sugarman, 2004-03-01 This thorough revision of the highly successful first edition of Life Span Development offers the reader a wide ranging and thought provoking account of human development throughout the lifespan The lifespan approach emphasises that development does not stop when we cease to be adolescents but goes on throughout adulthood and into old age In initial chapters Leonie Sugarman outlines the issues surrounding the notion of development and how it can be studied including reviews of the work of key theorists Erikson Levinson and Gould She goes on to consider the different ways in which the life course can be construed as a series of age related stages as a cumulative sequence as a series of developmental tasks as a series of key life events and transitions or as a narrative construction which creates a sense of dynamic continuity A final chapter looks at how people cope the resources that are available and the theoretical and practical issues regarding interventions to assist them in the process New to this edition is increased coverage of the topical issue of successful ageing and a new chapter on the increasingly popular narrative approach to lifespan development This edition is also more student friendly with exercises in self reflection that encourage the reader to look at the development of their own lives or those of their current or future clients Boxed material highlighting major theories and clarifying concepts is also included This book will be invaluable for students of developmental and occupational psychology and professionals in the fields of health management education and social work
