New Protectionists:

The Protectionist, 1928 Beyond the Protective State Ann Capling, Brian Galligan, 1992 An historical and theoretical account of the transition from protectionism to alternative policies in the Australian manufacturing industry The Economic Journal, 1898 Contains papers that appeal to a broad and global readership in all fields of economics **Trade Policy and Protectionism** United States. Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on International Trade, Investment, and Monetary Policy, 1978 **Economic Inquiries and Studies** Robert Giffen, 1904 Global Protectionism David Greenaway, Robert C. Hine, Anthony P. O'Brien, Robert J. Thornton, 2016-07-27

The last two decades have seen significant changes in the pattern of protectionism both in terms of the instruments used and the countries affected The papers in this volume address all aspects of global protectionism As well as evaluating aspects of regional protectionism the papers also address new issues such as trade in services and trade related investment measures The contributors are drawn from Western Europe North America Japan and Latin America reflecting the breadth of coverage of the volume Power and Protectionism David B. Yoffie, 1983 Available for the first time in English this is the definitive account of the practice of sexual slavery the Japanese military perpetrated during World War II by the researcher principally responsible for exposing the Japanese government's responsibility for these atrocities The large scale imprisonment and rape of thousands of women who were euphemistically called comfort women by the Japanese military first seized public attention in 1991 when three Korean women filed suit in a Tokyo District Court stating that they had been forced into sexual servitude and demanding compensation Since then the comfort stations and their significance have been the subject of ongoing debate and intense activism in Japan much if it inspired by Yoshimi's investigations How large a role did the military and by extension the government play in setting up and administering these camps What type of compensation if any are the victimized women due These issues figure prominently in the current Japanese focus on public memory and arguments about the teaching and writing of history and are central to efforts to transform Japanese ways of remembering the war Yoshimi Yoshiaki provides a wealth of documentation and testimony to prove the existence of some 2 000 centers where as many as 200 000 Korean Filipina Taiwanese Indonesian Burmese Dutch Australian and some Japanese women were restrained for months and forced to engage in sexual activity with Japanese military personnel Many of the women were teenagers some as young as fourteen To date the Japanese government has neither admitted responsibility for creating the comfort station system nor given compensation directly to former comfort women This English edition updates the Japanese edition originally published in 1995 and includes introductions by both the author and the translator placing the story in context for American readers **Trade Agreements Act of 1979** United States. Congress. Senate. Committee on Finance. Subcommittee on International Trade, 1979 *Protectionism and World Welfare* Dominick Salvatore, 1993-09-23 This volume addresses highly topical issues at a crucial time in international economic relations The world has never been closer to dismantling the liberal

multilateral trading system which has been painstakingly established and successfully operated since the Second World War. In this volume many of the world's most distinguished economists examine the movement toward protectionism, bilateralism and regionalism and its causes, effects and possible solutions. The contributors are theorists, researchers and advisors to governments and international organizations who are at the forefront of trade theory, policy and practice and whose analyses have a real impact on international trade. By collecting together these analyses in a single volume, this book provides a unique survey for students and scholars of economics and all those concerned with trade theory and policy in business and government.
