## New Psychiatry:

*Moving Beyond Prozac, DSM, and the New Psychiatry* Bradley Lewis, 2010-02-05 Interesting and fresh represents an important and vigorous challenge to a discipline that at the moment is stuck in its own devices and needs a radical critique to begin to move ahead Paul McHugh Johns Hopkins University School of Medicine Remarkable in its breadth an interesting and valuable contribution to the burgeoning literature of the philosophy of psychiatry Christian Perring Dowling College Moving Beyond Prozac DSM and the New Psychiatry looks at contemporary psychiatric practice from a variety of critical perspectives ranging from Michel Foucault to Donna Haraway This contribution to the burgeoning field of medical humanities contends that psychiatry s move away from a theory based model one favoring psychoanalysis and other talk therapies to a more scientific model based on new breakthroughs in neuroscience and pharmacology has been detrimental to both the profession and its clients This shift toward a science based model includes the codification of the Diagnostic and Statistical Manual of Mental Disorders to the status of standard scientific reference enabling mental health practitioners to assign a tidy classification for any mental disturbance or deviation Psychiatrist and cultural studies scholar Bradley Lewis argues for postpsychiatry a new psychiatric practice informed by the insights of poststructuralist theory   *Moving Beyond Prozac, DSM, and the New Psychiatry* Bradley Lewis, 2006-02-02 A spirited critique of the practice of psychiatry in the United States that argues for the democratization of psychiatric knowledge   *The Search for a New Psychiatry* A George

Awad, 2021-07-21 The book is about Neuroscience as acquired and practiced by myself across 3 continents from Cairo issues like colonial psychiatry pellagra madness population explosion and contraception are highlighted In Moscow the beginning of my long interest in the concept of stress and its relevance to health and illness as also reflections on science and religion in an atheist society are detailed In Rome expanding the concept of stress to cardiovascular reactivity consolidated my interest In Toronto my neuroscience background and psychiatry came together for the next 50 years and where my academic interests focused on schizophrenia quality of care issues and outcomes related to the person behind the illness The book concludes in a major analysis of how modern psychiatric practices has failed many patients their doctors their families and the society at large The imperative for the search for new psychiatry is presented as my deep wish to save psychiatry as a credible medical speciality   *PUSHBUTTON PSYCHIATRY* Timothy W Kneeland, Carol A.B. Warren, 2012-03-15 This volume uncovers the roots of electroshock in America an outgrowth of western patriarchal medicine with primarily female patients The authors trace the history of electroshock in the United States in three historic stages from an enthusiastic reception in 1940 to a period of crisis in the 1960s to its resurgence after 1980 Early American experiments with electrical medicine are also examined while the development of electroshock in America is considered through the lens of social political and economic factors The revival of electroshock in recent decades is found to be a product of growing materialism in American psychiatry and the political and economic realities of managed medical care The new material in the Updated Paperback

Edition describes the resurgence of electroshock in the private psychiatric sector as a treatment of choice for depression

*The Work of Life Writing* G. Thomas Couser, 2021-04-13 Life writing in its various forms does work that other forms of expression do not it bears on the world in a way distinct from imaginative genres like fiction drama and poetry it acts in and on history in significant ways Memoirs of illness and disability often seek to depathologize the conditions that they recount Memoirs of parents by their children extend or alter relations forged initially face to face in the home At a time when memoir and other forms of life writing are being produced and consumed in unprecedented numbers this book reminds readers that memoir is not mainly a literary genre or mere entertainment Similarly letters are not merely epiphenomena of our real lives Correspondence does not just serve to communicate it enacts and sustains human relationships Memoir matters and there's life in letters All life writing arises of our daily lives and has distinctive impacts on them and the culture in which we live

*Post Traumatic Success: Positive Psychology & Solution-Focused Strategies to Help Clients Survive & Thrive* Fredrike Bannink, 2014-10-13 Resiliency focused approaches to managing trauma This is a book to help clients to transform what happened to them to make them better instead of bitter The first book on trauma to combine the theory and practice of positive psychology and solution focused brief therapy with traditional approaches this book veers away from a focus on pathology what is wrong with clients and how to repair the worst to a focus on what is right with them and how to create the best that is from post traumatic stress to post traumatic success The three R's of post traumatic success are Recovery Resilience and enRichment post traumatic growth concepts depicted by the bamboo plant on the book's cover Trauma professionals will learn what it takes to help more survivors benefit more substantively from therapy and how to support their clients in developing longer term resilience By practicing the skills in this book they can increase their clients self efficacy and self esteem and make psychotherapy shorter in time more cost effective and more lighthearted for their clients and themselves Written for all professionals and students working with trauma survivors both adults and children and their families and friends it equips readers with practical direction for adopting a more positive approach and expanding their range of available techniques Over a hundred exercises thirty three cases and forty stories are presented to illustrate and help incorporate this new approach into practice It's about time to turn the tide on treating trauma by shifting the focus from reducing distress and merely surviving to building success and positively thriving
