Courtney Bender,Ann Taves,2012-05-08 Over the past decade religious secular and spiritual distinctions have broken down forcing scholars to rethink secularity and its relationship to society Since classifying a person activity or experience as religious or otherwise is an important act of valuation one that defines the characteristics of a group and its relation to others scholars are struggling to recast these concepts in our increasingly ambiguous pluralistic world This collection considers religious and secular categories and what they mean to those who seek valuable ethical lives As they investigate how individuals and groups determine significance set goals and attribute meaning contributors illustrate the ways in which religious secular and spiritual designations serve as markers of value Reflecting on recent ethnographic and historical research chapters explore contemporary psychical research and liberal American homeschooling the work of nineteenth and early twentieth century American psychologists and French archaeologists the role of contemporary humanitarian and volunteer organizations based in Europe and India and the prevalence of highly mediated and spiritualized publics from international psy trance festivals to Ghanaian national political contexts Contributors particularly focus on the role of ambivalence attachment and disaffection in the formation of religious secular and spiritual identities resetting research on secular society and contemporary religious life while illuminating what matters in the lives of ordinary individuals Modernist Writings and Religio-scientific Discourse L. Vetter,2010-04-26 Addresses the early twentieth century intersection of scientific and religious discourse exploring literary modernism through the lens of cultural history focusing on the works of H D Mina Loy and Jean Toomer It covers a range of topics such as electromagnetism and sexuality dance and theories of spiritual evolution *Index-catalogue of the Library of the Surgeon-General's Office, United States Army* National Library of Medicine (U.S.),1972 The Publishers' Trade List Annual ,1917 **Psychology of the Hand** Gertrude Ann Lindsay,1919 Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971 New York Public Library. White,2009 Christopher White s *Unsettled Minds* makes clear how important new psychologies of religion were for those Protestants navigating their way out of Calvinism and evangelical revivalism Just as his religious liberals remapped mind and

spirit White has remapped the historical terrain of religion and psychology in American culture. He spotlights not a cultural world absorbed with ecstasy, altered states, or mythic depths, but instead one riveted on measured stages of spiritual growth and effective habits of self-discipline. Leigh Eric Schmidt, Princeton University, An important contribution to the growing literature on the history of religious experience and of the distinctive dynamics of Christian interiority in the modern U.S. Robert Orsi, Northwestern University, Today when brain researchers and psychologists are again attempting to explain religion, this remarkable study suggests that we should not be surprised to see religious believers creatively embracing new scientific findings and making use of them for religious purposes unexpected by scientists.
