## **New Religions Movements Challenge And Response:**

**New Religious Movements** Bryan R. Wilson, Jamie Cresswell, 1999 Focusing on five countries Italy Brazil Germany Britain and the United States *New Religious Movements* offers a comprehensive and wide ranging study of the phenomena and impact of new religions

**New Religions in Global Perspective** Peter Bernard Clarke, 2006 This volume provides a complete guide to the global impact and cultural significance of new religious movements

*New Era - New Religions* Andrew Dawson, 2016-04-29 *New Era New Religions* examines new forms of religion in Brazil The largest and most vibrant country in Latin America Brazil is home to some of the world's fastest growing religious movements and has enthusiastically greeted home grown new religions and imported spiritual movements and new age organizations In Brazil and beyond these novel religious phenomena are reshaping contemporary understandings of religion and what it means to be religious To better understand the changing face of twenty first century religion *New Era New Religions* situates the rise of new era religiosity within the broader context of late modern society and its ongoing transformation

*New Religions and State's Response to Religious Diversification in Contemporary Vietnam* Chung Van Hoang, 2017-07-03 This book approaches newly emerging religious groups through the interplay between religious and non religious spheres in the specific context of Vietnam It considers the new religious groups as a part of religious reconfiguration in Vietnam caused by intensified interactions among these spheres It explores changes of relationship between religions and changes between the religious sphere and the political economic and public spheres in contemporary Vietnam Specifically it traces trajectories of religious development in relation to politico economic changes in this rapidly modernising nation It tests a hypothesis that at least some new yet unrecognized new religious groups have a positive active role in modernisation rather than a negative reactive role To this end the book draws on a number of research approaches and methodologies in an effort to provide readers with a multi faceted understanding of Vietnam's new religious groups The research is interdisciplinary in orientation drawing on sociology and anthropology It is also comparative in that it bases its argument on a consideration of three distinct new religious groups in Vietnam The research is also qualitative and ethnographic in that it drew on some of the techniques associated with participant observation during a sustained period of fieldwork amongst the three religious groups The concept of religious reconfiguration developed in this book provides a framework for the study of religion in Vietnam which opens the way to further analysis from a comparative perspective Meanwhile an emphasis upon religious reinvention which addresses processes of remaking transforming legitimating and accommodating can be useful for research into New Religious Movements elsewhere in Asia A research in the challenges of new religions could act as a catalyst for interdisciplinary studies based on detailed empirical study of religious diversity and of religious freedom by other scholars It is hoped that this research might help to give a voice to religious minorities that are often the victim of stereotyping misunderstanding and punitive treatment The book is suitable for post graduate students and social researchers who are

interested in religious revival religious diversification State religion relationships and State's regulation of new religions

**Controversial New Religions** James R. Lewis, Jesper Aa. Petersen, 2014-07-16 In terms of public opinion new religious movements are considered controversial for a variety of reasons Their social organization often runs counter to popular expectations by experimenting with communal living alternative leadership roles unusual economic dispositions and new political and ethical values As a result the general public views new religions with a mixture of curiosity amusement and anxiety sustained by lavish media emphasis on oddness and tragedy rather than familiarity and lived experience This updated and revised second edition of *Controversial New Religions* offers a scholarly dispassionate look at those groups that have generated the most attention including some very well known classical groups like The Family Unification Church Scientology and Jim Jones's People's Temple some relative newcomers such as the Kabbalah Centre the Order of the Solar Temple Branch Davidians Heaven's Gate and the Falun Gong and some interesting cases like contemporary Satanism the Raelians Black nationalism and various Pagan groups Each essay combines an overview of the history and beliefs of each organization or movement with original and insightful analysis By presenting decades of scholarly work on new religious movements written in an accessible form by established scholars as well as younger experts in the field this book will be an invaluable resource for all those who seek a view of new religions that is deeper than what can be found in sensationalistic media stories

**Media and New Religions in Japan** Erica Baffelli, 2016-02-05 The Open Access version of this book available at [www.taylorfrancis.com/books/9781135117849](http://www.taylorfrancis.com/books/9781135117849) has been made available under a Creative Commons Attribution Non Commercial No Derivative 4.0 license Japanese new religions shinshūkyō have used various media forms for training communicating with members presenting their messages reinforcing or protecting the image of the leader and potentially attracting converts In this book the complex and dual relationship between media and new religions is investigated by looking at the tensions groups face between the need for visibility and the risks of facing attacks and criticism through media Indeed media and new technologies have been extensively used by religious groups not only to spread their messages and to try to reach a wider audience but also to promote themselves as a highly modern and up to date form of religion appropriate for a modern technological age In 1980s and early 1990s some movements such as Agonshō Kōfuku no Kagaku and Aum Shinrikyō came into prominence especially via the use of media initially publications but also ritual broadcasts advertising campaigns and public media events This created new modes of ritual engagement and new ways of interactions between leaders and members The aim of this book is to develop and illustrate particular key issues in the wider new religions and media nexus by using specific movements as examples In particular the analysis of the interaction between media and new religions will focus primarily on three case studies predominantly during the first period of development of the groups

*Trúc Lâm Buddhism in Vietnam* Laura Thuy-Loan Nguyen, 2021-01-13 In the thirteenth century King Monk Tràn Nhân Tông founded the Trúc Lâm Thiền Chan Zen sect During the Golden Age in Vietnamese Buddhist history the sect flourished under

three patriarchs with renowned Thien masters Unfortunately the Truc Lam sect faded over the following centuries and Thien Buddhism in Vietnam for the most part disappeared In the late twentieth century a growing new religious movement led by Thich Thanh T'a Pure Land monk called for a restoration of Truc Lam Thien Buddhism Who is Thich Thanh T' How and why did he choose to revive this particular sect and its emancipation practices Truc Lam currently boasts hundreds of monasteries and thousands of monks and nuns in Vietnam and beyond but how have the forces of modernity influenced its original traditions Through existing literature and extensive onsite fieldwork this book analyzes the history and revival of a forgotten Buddhist sect and examines the movement's reform

**Men, Masculinities and Religious Change in Twentieth-Century Britain**

L. Delap, S. Morgan, 2013-09-05 Charting the growing religious pluralism of British society this book investigates the diverse formations of masculinity within and across specific religions regions and immigrant communities Contributors look beyond conventional realms of worship to examine men's diverse religious cultures in a variety of contexts

**Beshara and Ibn**

**'Arabi** Suha Taji-Farouki, 2007-11-01 Investigating sufi inspired spirituality in the modern world this multi faceted and interdisciplinary volume focuses on Beshara a spiritual movement that applies the teachings of Ibn Arabi in a non Muslim context It traces the movement's emergence in sixties Britain and analyses its major teachings and practices exploring through this case study the interface between sufism and the New Age and the encounter between Islam and the West Examining from a global perspective the impact of cultural transformations associated with modernization and globalization on religion this timely volume concludes by tracing possible futures of sufi spirituality both in the West and in the Muslim world

*Encyclopedia of New Religious Movements* Peter Clarke, 2004-03 An essential companion to both research and

scholarship upon which undergraduates postgraduates lecturers and researchers can all be expected to draw

**Theorising**

**Religion** James A. Beckford, John Walliss, 2006 While religious forces are powerful in numerous societies they have little or no significance for wide swaths of public or private life in other places This book considers the classical roots of ideas about religion that dominated sociological ways of thinking about it for most of the twentieth century Each chapter offers sound reasons for continuing to find theoretical inspiration and challenge in the sociological classics while also seeking ways of enhancing and extending their relevance to religion today

**Researching New Religious Movements**

Elisabeth Arweck, 2006 This cutting edge analysis of American and European new religious movements explores the controversies between religious groups and the majority interests which oppose them It asks how modern societies can best respond to new religious movements

*Social Theory and Religion* James A. Beckford, 2003-08-21 Many aspects of religion are puzzling

these days This book looks at ways of improving our understanding of religious change by strengthening the links between social theory and the social scientific study of religion It clarifies the social processes involved in constructing religion and non religion in public and private life Taking illustrations of the importance of these boundaries from studies of secularisation religious diversity globalisation religious movements and self identity James A Beckford reviews the current state of social

scientific knowledge about religion      **Regulating Religion** James T. Richardson, 2012-12-06 *Regulating Religion Case Studies from Around the Globe* presents through the inclusion of contributions by international scholars a global examination of how a number of contemporary societies are regulating religious groups. It focuses on legal efforts to exert social control over such groups especially through court cases but also with selected major legislative attempts to regulate them. As such this analysis falls within the broad area of the sociology of social control and more specifically legal social control a topic of great interest when studying how contemporary societies attempt to maintain social order. The factual details about social and legal developments in societies where religion has been defined as problematic include Western and Eastern Europe Asia Oceania and the Americas. This book will be of interest to researchers and students in the sociology of religion the sociology of law social policy and religious studies as well as policy makers      **Religion and Cyberspace** Morten T. Højsgaard, Margit Warburg, 2005 *Religion and Cyberspace* explores how religious individuals and groups are responding to the opportunities and challenges that cyberspace brings      *The Routledge Companion to Theism* Charles Taliaferro, Victoria S. Harrison, Stewart Goetz, 2013 There are deep and pervasive disagreements today in universities and colleges and popular culture in general over the credibility and value of belief in God. This has given rise to an urgent need for a balanced comprehensive accessible resource book that can inform the public and scholarly debate over theism. While scholars with as diverse interests as Daniel Dennett Terry Eagleton Richard Dawkins Jürgen Habermas and Rowan Williams have recently contributed books to this debate theism as a concept remains poorly understood and requires a more thorough and systematic analysis than it has so far received in any single volume. *The Routledge Companion to Theism* addresses this need by investigating theism's history as well as its relationship to inquiry in the sciences social sciences and humanities and to its wider cultural contexts. The contents are not confined within the philosophy of religion or even within the more expansive borders of philosophy. Rather *The Routledge Companion to Theism* investigates its subject through the lens of a wide variety of disciplines and explores the ramifications of theism considered as a way of life as well as an intellectual conviction. The five parts of the volume indicate its inclusive scope: I What is Theism II Theism and Inquiry III Theism and the Socio-Political Realm IV Theism and Culture V Theism as a Way of Life. The result is a well-ordered and thorough collection that should provide a wide spectrum of readers with a better understanding of a subject that's much discussed but frequently misunderstood. As the editors note in their Introduction while stimulating and informing the contemporary debate a key aim of the volume is to open new avenues of inquiry into theism and thereby to encourage further research into this vital topic. Comprised of 54 essays by leading scholars in philosophy history theology religious studies political science education and sociology *The Routledge Companion to Theism* promises to be the most useful comprehensive resource on an emerging subject of interest for students and scholars      **Buddhist Missionaries in the Era of Globalization** Linda Learman, 2004-11-30 This insightful volume dispels the common notion that Buddhism is not a missionary religion by

revealing Asian Buddhists as active agents in the propagation of their faith It presents at the same time a new framework with which to study missionary activity in both Buddhist and other religious traditions Included are case studies of Theravada Chinese and Tibetan Buddhist teachers and congregations as well as the Pure Land Shingon Zen and Soka Gakkai traditions of Japan Contributors examine both foreign and domestic missions and the activities of emigrant communities showing the resources and strategies garnered by late nineteenth and twentieth century Buddhists who worked to uphold and further their respective traditions often under difficult circumstances Based on anthropological fieldwork and historical research the essays break new ground and provide better analytical tools for studying mission activity than previously available They provide instructive comparisons with Anglo American Protestant missionary thinking and offer insights into the internal dynamics of Sri Lankan and Japanese missions as they make their way in Protestant and Catholic societies Also included are nuanced studies of two major missionary figures in late twentieth century Chinese Buddhism and a fascinating look at the present Dalai Lama's relationships with his devotees and the American government viewed through an exposition of the abiding tradition within Tibetan Buddhism that combines mission activity with the political goals of exiled lamas Contributors Stuart Chandler Peter B Clarke C Julia Huang Steven Kemper Linda Learman Sarah LeVine Richard K Payne Cristina Rocha George J Tanabe Jr Gray Tuttle

**Apologetics, Mission and New Religious Movements: A Holistic Approach** Philip Johnson, 2010-07-11 It is this search for balance and his real desire to speak into living situations that sets Johnson's work apart from earlier studies of cults and new religions At the same time his work is innovative in other ways

**The Sixties and Beyond** Nancy Christie, Michael Gauvreau, 2013-01-01 In the decades following the Second World War North America and Western Europe experienced widespread secularization and dechristianization many scholars have pinpointed the 1960s as a pivotally important period in this decline The Sixties and Beyond examines the scope and significance of dechristianization in the western world between 1945 and 2000 A thematically wide ranging and interdisciplinary collection The Sixties and Beyond uses a framework that compares the social and cultural experiences of North America and Western Europe during this period The internationally based contributors examine the dynamic place of Christianity in both private lives and public discourses and practices by assessing issues such as gender relations family life religious education the changing relationship of church and state and the internal dynamics of religious organizations The Sixties and Beyond is an excellent contribution to the burgeoning scholarship on the 1960s as well as to the history of Christianity in the western world

**False Dawn** Lee Penn, 2004 The interfaith movement which began with the 1893 World's Parliament of Religions in Chicago has grown worldwide Although this movement has been largely unknown to the public it now provides a spiritual face for globalization the economic and political forces leading us all from nationalism to One World The most ambitious organization in today's interfaith movement is the United Religions Initiative URI founded by William Swing the Episcopal Bishop of California Investigative reporter Lee Penn a Catholic ex Marxist exhaustively documents the history and beliefs of

the URI and its New Age and globalist allies the vested interests that support these movements and the direction they appear to be taking The interfaith movement is no longer merely the province of a coterie of little heeded religious idealists with grandiose visions The URI s proponents have ranged from billionaire George Soros to President George W Bush from the far right Rev Sun Myung Moon to the liberal Catholic theologian Hans K ng and from the Dalai Lama to the leaders of government approved Protestant churches in the People s Republic of China The interfaith movement including the URI is being promoted by globalist and New Age reformers who favor erosion of national sovereignty marginalization of traditional religions establishment of global governance and creation of a new Earth based global spirituality in effect a one world religion Therefore the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order the new civilization now proposed by Mikhail Gorbachev the last leader of the Soviet Union In The Reign of Quantity and the Signs of the Times French metaphysician Ren Gu non spoke of the anti tradition the forces of materialism and secular humanism finally giving way to the counter tradition the satanic inversion of true spirituality leading to the regime of Antichrist The anti tradition weakens and dissolves traditional spiritualities after which the counter tradition sets up a counterfeit in their place Since Gu non s time as is well known anti traditional forces have greatly advanced worldwide It is less well known that counter traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before The counter tradition is making inroads on the political and cultural Right as much as it is doing on the Left False Dawn painstakingly documents these trends and speculates on their future development In so doing the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the 21st century This extraordinary project is the literary equivalent of turning over a flat rock There is much to be seen and learned here all of it unsettling disquieting occasionally downright scary William Murchison Radford Distinguished Professor Baylor University When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods something has gone horribly wrong In False Dawn Lee Penn has produced a comprehensive and critical history of the United Religions Initiative This book sounds a clear warning Anyone who makes theological truth subservient to utopianism denigrates all religions Douglas LeBlanc Editor GetReligion org
