Ponomareff, Kenneth A. Bryson, 2006-01-01 This interdisciplinary book examines the nature of spirituality and the role it plays in the search for meaning Spirituality is a loving tendency towards the sacred In a secular environment the sacred is taken to be a power greater than self In a religious environment the Sacred refers to God or Higher Power The book

examines the developments of the Sacred in great works of art and literature as well as in medicine theology psychology philosophy and religion Spirituality also functions as an unloving tendency towards disunity or a force for evil The first part of the book examines the ways of the spiritual as a force for good and evil We have just witnessed one of the bloodiest centuries in human history The experience of two World Wars leaves a legacy of brokenness Where Nossack's reminiscences bore poetic compassionate and personal witness to the disaster Eliot's poetry reads more like a sacred and religious poem taking contemporary Western European civilization to task much like the biblical prophets of old for its spiritual bankruptcy Albert Einstein Edvard Munch's Madonna and Carl Jung's unconscious touch the curve of the Sacred in more promising places The second part examines how the search for meaning works The distinction between being human and being a person plays a central role in the life of the spiritual the spiritual is manifest in the activities taking place in the central self The central self is the locus of all thoughts feelings acts of reason and judgment conscious and unconscious processes alike The central self is the place where social relationships and environmental relationships are processed The essential feature of the central self is that it does not exist outside these processes The same spiritual energies that light up great works of art also light up our destructive side only the associations change **The Vision of Gabriel Marcel** Brendan

Knaus,2014-11-01 In the second edition of this best selling workbook William J Knaus offers a step by step program to help readers overcome anxiety and get back to living a rich and productive life Readers will develop a personal plan using techniques from rational emotive behavior therapy REBT and cognitive behavioral therapy CBT powerful treatment methods proven to be even more effective than anxiety medication This edition includes new evidence based techniques such as behavioral activation and values based action addresses perfectionism and anxiety and features updated cutting edge research *Legitimation in Political Discourse* Piotr Cap,2013-01-14 How did the G W Bush administration manage to persuade Americans to go to war in Iraq in March 2003 How was this intervention and the global campaign named as war on terror legitimised linguistically This book

shows that the best legitimisation effects in political discourse are accomplished through the use of proximization a cognitive rhetorical strategy that draws on the speaker's ability to present events as directly and increasingly affecting the addressee usually in a negative or threatening way There are three aspects of proximization spatial temporal and axiological The spatial aspect involves the construal of events in the discourse as physically endangering the addressee The temporal aspect involves presenting the events as increasingly momentous and historic and hence of central significance to both the addressee and the speaker The axiological aspect consists in a growing clash between the system of values adhered to by the speaker and the addressee and the values characterizing a third party whose actions ideologically negative are made proximate and thus threatening Although the tripartite model of proximization proposed in the book is complex at the level of its linguistic realisation the working assumption is intriguingly basic addressees of political discourse are more likely to legitimise pre-emptive actions aimed at neutralizing the proximate threat if they construe the threat as personally consequential The book shows how language of the war on terror and especially the rhetoric of the Iraq war respond to this precondition This second revised edition features an extended preface and a new closing chapter

Advances in Discourse Approaches Marta Dynel, 2009-03-26 Taboo words Quentin Tarantino's films humorous dialogues from Sex and the City witty advertising slogans the Bible Barack Obama's speeches or legal discourse are only a few of the topics addressed in the volume The study of discourse is a diversified and fast developing field of language research embracing methodological proposals discourse analyses comparative research translation studies and teaching perspectives Within each of the approaches theoretical frameworks and postulates abound The list of research topics is inexhaustible especially that each year brings new real life material subject to analysis and issues to elaborate Each chapter is devoted to a different topic and deploys a separate theoretical framework The diversity of research data methodologies and theoretical viewpoints guarantees the volume's being a representative sample of multifarious developments in discourse approaches The book should thus be an interesting resource for enterprising researchers and students of linguistics

Tradition Vs. Traditionalism Abraham Sagi, 2008 This book is a first attempt to examine the thought of key contemporary Jewish thinkers on the meaning of tradition in the context of two models The classic model assumes that tradition reflects lack of dynamism and reflectiveness and the present's unqualified submission to the past This view however is an image that the modernist ethos has ascribed to the tradition so as to remove it from modern existence In the alternative model a living tradition

emerges as open and dynamic developing through an ongoing dialogue between present and past The Jewish philosophers discussed in this work Joseph B Soloveitchik Yeshayahu Leibowitz David Hartman and Eliezer Goldman ascribe compelling canonic status to the tradition and the analysis of their thought discloses the tension between these two models The book carefully traces the course they have plotted along the various interpretations of tradition through their approach to Scripture and to Halakhah Contents Editorial Foreword Introduction Returning to Tradition Paradox or Challenge The Tense Encounter with Modernity Soloveitchik Jewish Thought Confronts Modernity Compartmentalization From Ernst Simon to Yeshayahu Leibowitz The Harmonic Encounter with Modernity Religious Commitment in a Secularized World Eliezer Goldman David Hartman Renewing the Covenant Between Old and New Judaism as Interpretation Scripture in the Thought of Leibowitz and Soloveitchik Halakhah in the Thought of Leibowitz and Soloveitchik Eliezer Goldman Judaism as Interpretation Epilogue My Name s my Donors Name Notes Bibliography About the Author Index
