New Social Policy Agendas For Europe And Asia Challenges Experiences And Lessons:

New Social Policy Agendas for Europe and Asia Katherine Marshall, Olivier Butzbach, 2003 The East Asia crisis of 1997-98 highlighted the need for new models for social policy A joint project between European and Asian governments brought together over a two year period the experience of social policy experts from Europe and Asia This project was financed by the ASEM Asia Europe Meeting This document looks at a wide range of issues social security reform links between macroeconomics and social policy labour market policies gender relations and cross border migration Inspired by European experience in similar fields and focusing on ideas and knowledge exchange the project worked to develop papers and seminars to produce this book *Social Policy in Post-Industrial Singapore* Kwen Fee Lian, Chee-Kiong Tong, 2008-03-31

Notwithstanding the lean years that followed 1986 and 1997 sustained economic growth since the late 1970s has propelled Singapore into the post industrial age and reproduced the demographic and social structure of advanced western societies The rapid shift to a knowledge intensive economy requiring highly skilled services has resulted in a two speed society consisting of a highly competitive but rewarding sector and a marginalized population that is increasingly at risk Being avowedly anti welfarist the state for ideological reasons has resisted pressures to introduce a comprehensive welfare regime for its risk population preferring to privilege its productive citizenry Is Singapore a counter factual to the convergence thesis by preferring to put in place a social policy driven by the belief of its leaders that the more successful a society is the more it is able to care for those who fall behind **Development Centre Studies Is Informal Normal ? Towards More and**

Better Jobs in Developing Countries Jütting Johannes, de Laiglesia Juan Ramón, 2009-03-24 Provides evidence for policy makers on how to deal with informal employment in developing and developed countries alike **Globalization and Equity**

Natalia E. Dinello, Lyn Squire, 2005-01-01 In bringing together seven regional studies by economists from the Global Development Network Natalia Dinello and Lyn Squire provide an insightful perspective on the relationships between globalization and equity The topic is important but too often has been oversimplified and viewed through western lenses Complexity does not preclude strong conclusions dubbed the Cairo Consensus here but its analysis is helped by the mix of expertise and local knowledge embodied in this book Richard Pomfret University of Adelaide Australia **World-Regional**

Social Policy and Global Governance Bob Deacon, Maria Cristina Macovei, Luk Van Langenhove, Nicola Yeates, 2009-12-04 This volume explores the case for and the prospects of the development of world regional social policies as integral elements of a pluralistic equitable and effective system of global governance Focusing on transnational regionalism this book examines the trajectory and crossing over of the three strands of scholarly analysis within the past decade which have given rise to this volume the perceived negative impact of neo liberal globalisation upon national social policy the need for but the difficulty of securing reforms in the institutions of global social governance and the increasing salience of the world regional level of governance in handling cross border issues The authors develop an intellectual and research agenda that will also inform the

political development of an international programme concerned with the social policy dimensions of regional governance Combining the perspectives and collective expertise of a team of international scholars and activists the book features Theoretical and policy cases for a focus on regionalism and social policy A mapping and analysis of social policy dimensions of regional integration processes and formations in four continents An assessment of the regional dimensions of global agencies in particular of the UN ILO WHO UNESCO UNDP including the approach to regional social policy of the UN Regional Economic Commissions and Development Banks An articulation of a multi levelled conceptualisation of global social governance within which regional associations of countries plays a significant part The book will be of interest to students and scholars of social policy development studies international relations and political science especially those focused on the public policy dimensions of globalisation regionalisation and international development *Reclaiming Social Policy* Arjan de Haan, 2007-07-31 This book re evaluates the importance of social policies in shaping well being and combating exclusion and enhances understanding of how these policies are formed in a globalizing world It emphasises the context and path dependence of patterns and policies of inclusion and exclusion and provides a framework for supporting social policy making

Managing Development Junji Nakagawa, 2012 Globalization in the 1990s provided both opportunities and challenges for developing and transition economies Though for some it offered the chance to achieve economic growth through active involvement in the integrated and liberalized world economy it also increased their vulnerability to external shocks and volatility As a consequence stakeholders at every level of the development and transition process international organizations national governments and the private sector had to review their strategies in order to adjust to the new world economic environment As the Mexican peso crisis of 1994 1995 and the Asian financial crisis of 1997 1998 showed dramatically the cost of maladjustment was not only very high but it also affected many more stakeholders than before due to the contagious effects of crises This revealing book analyzes the different methods employed to manage globalization and development Bringing together an international team of contributors including Barbara Stallings Alicia Giron and J C Ferraz it will prove to be a valuable resource for those involved in the fields of development economics and political economy *The Changing Japanese Family* Marcus Rebick, Ayumi Takenaka, 2006-04-18 The Japanese family is shifting in fundamental ways specifically in terms of attitudes towards family and societal relationships and also the role of the family in society Changing Japanese Family explores these significant changes which include an ageing population delayed marriages a fallen birth rate which has fallen below the level needed for replacement and a decline in three generational households and family businesses The authors investigate these changes and the effects of them on Japanese society whilst also setting the study in the context of wider economic and social changes in Japan They offer interesting comparisons with international societies especially with Southern Europe where similar changes to the family and its role are occurring This fascinating text is essential reading for those with an enthusiasm in Japanese studies but will also engage those with a concern in Japanese culture and society as

well as appealing to a readership with a wider interest in the sociology of the family Comparative Health Policy In The Asia Pacific Gauld, Robin, 2004-12-01 Dr Gauld's collection of case studies is informative and accessible I would recommend it as a central text for a course in comparative health systems Political Studies Review Based upon research from eight countries in the Asia Pacific Australia China Hong Kong Japan New Zealand Singapore South Korea Taiwan this book analyses and compares their differing health policies Key issues the book probes include The ways that health care is financed and delivered across the region The historical and institutional arrangements that impact upon health policy and health care How the health systems differ between the countries under study How policymakers and service providers deal with unlimited demand and limited funding and issues such as service coverage and quality How pharmaceuticals and population health strategies are managed What the roles of the state and various other players such as the private sector and professional associations are in the making of health policy and delivery of health care The challenges that lie ahead for health care and health policy in the region Comparative Health Policy in the Asia Pacific is key reading for students researchers and policy makers with an interest in health policy It is relevant to those studying medicine and health studies anthropology history sociology public policy politics and Asian studies *Welfare States and the Future* B. Vivekanandan, N. Kurian, 2005-01-06 This volume presents a thought provoking analysis of key welfare state issues engaging policy makers across the globe It provides a unique and comprehensive evaluation of the state of welfare states developed and developing It maps the diversity of welfare regimes across the world and brings to fore the particularities and nuances that characterise them The book also focuses on the on going reforms and makes a powerful case for the increased relevance of the welfare state in a globalizing era **The Paradigm of International Social Development** Murli Desai, 2013-10-30 This book takes a historical approach to analyse ideologies policy approaches and development systems that have constructed the paradigm of international social development It aims to review the social construction of development by tracing the historical dynamics of the modern ideologies and political economy of industrialization colonization the Cold War and globalisation to examine the process of reconstruction of development as social development based on alternate ideologies and alternate policy approaches and review the roles played by the development systems and to trace the history of social policy approaches from welfare to rights based universal comprehensive and preventative social policies for social development and identify the roles played by non government organizations and the social work profession *Inclusive States* Anis A. Dani, Arjan de Haan, 2008-04-29 The heterogeneity of social structures and cultural identities in many developing countries together with traditional hierarchies rivalries and deep seated biases has perpetuated inequities Inclusive States Social Policy and Structural Inequalities examines the role of the state and society in addressing structural inequalities and identifies a set of policy recommendations to redress them This book defines structural inequality as a condition arising from unequal status attributed to a category of people in relation to others a relationship perpetuated and reinforced by unequal relations in roles

functions decision rights and opportunities Inclusive states are those that direct policies to address the needs of all that respect the rights of citizens to exercise voice and influence on which services are provided and how they are delivered and that have an interest in strengthening the social contract with their citizens A central focus of policy remains a concern for equity both to level the playing field to encourage social mobility and to ensure equity in the distributional effects of policy reforms and development interventions This book highlights two key challenges for social policy First policy design needs to take into account the weaknesses of basic state functions in many developing countries since these have important ramifications for social policy outcomes Second in most developing countries social structures marked by historically rooted structural inequalities pose significant challenges to the provision of services and require a long term commitment to address underlying questions and problems This book describes some of the challenges found in different contexts and some of the ways in which these challenges can be and are being addressed This book is part of a new series New Frontiers in Social Policy which examines issues and approaches to extend the boundaries of social policy beyond conventional social services toward policies and institutions that improve equality of opportunity and social justice in developing countries Other forthcoming titles in the series include Assets Livelihoods and Social Policy and Institutional Pathways to Equity Addressing Inequality Traps

Gender and Social Security Reform Neil Gilbert, 2017-07-05 Aging populations are creating tremendous pressures on social security systems throughout the world lifting the need for reform to the top of policy agendas Proposed reforms often have different implications for men and women At the same time traditional family and gender roles are changing with the decline in fertility rates and the rapid rise in women's participation in the paid labor force While trying to adapt social security systems to the fiscal demands of aging societies policymakers face the compelling challenge of how to design pension reforms that achieve fair outcomes for women Gender and Social Security Reform examines how different countries are attempting to meet this challenge Drawing on comparative studies of European and Latin American countries along with a series of case studies of individual countries the book provides insights into the gender dimensions of alternative designs for reform All of the countries studied have recently reformed or are about to reform their pension systems with a clear trend towards tightening the link between contributions and benefits in order to secure the long term sustainability of pensions The book also alerts policymakers to other issues Should pension systems be gender neutral or compensate for inequalities in paid and unpaid labor Does compensation preserve gender discrimination Are unisex life tables a reliable or fair redistributive tool for women Or should annuities be linked directly to life expectancy differentiated by sex and potentially other factors Does a minimum pension guarantee risk compromising the principle of individual responsibility and work How can recognition for caring work be balanced with work incentives What can be done to help social security systems preserve freedom of choice in terms of work family balance for women men or the modern family unit as a whole In analyzing the gender implications of recent social security policies and practices Development, Democracy, and Welfare

States Stephan Haggard, Robert R. Kaufman, 2020-06-16 This is the first book to compare the distinctive welfare states of Latin America East Asia and Eastern Europe Stephan Haggard and Robert Kaufman trace the historical origins of social policy in these regions to crucial political changes in the mid twentieth century and show how the legacies of these early choices are influencing welfare reform following democratization and globalization After World War II communist regimes in Eastern Europe adopted wide ranging socialist entitlements while conservative dictatorships in East Asia sharply limited social security but invested in education In Latin America where welfare systems were instituted earlier unequal social security systems favored formal sector workers and the middle class Haggard and Kaufman compare the different welfare paths of the countries in these regions following democratization and the move toward more open economies Although these transformations generated pressure to reform existing welfare systems economic performance and welfare legacies exerted a more profound influence The authors show how exclusionary welfare systems and economic crisis in Latin America created incentives to adopt liberal social policy reforms while social entitlements from the communist era limited the scope of liberal reforms in the new democracies of Eastern Europe In East Asia high growth and permissive fiscal conditions provided opportunities to broaden social entitlements in the new democracies This book highlights the importance of placing the contemporary effects of democratization and globalization into a broader historical context **Asian Informal Workers**

Santosh K. Mehrotra, Mario Biggeri, 2007-01-24 This is a thoroughly researched volume edited by key specialists in the field along with an impressive team of contributors that surveys the nature and extent of informal home work in Asia examining and arguing for protection of the workers who are exploited *Delimiting Modernities* Sven Trakulhun, Ralph

Weber, 2015-02-12 This collection seeks to contribute to the many long standing discussions on modernity but also and more specifically to the more recent debates over trends to pluralize modernity These debates are current in many different academic disciplines such as sociology anthropology literature and postcolonial studies Hitherto most engagements with modernity in the plural have remained conspicuously confined to one or other intra disciplinary notion of modernities such as that of Shmuel Eisenstadt s multiple modernities which has triggered a host of conference papers and publications largely within sociology all the while it seems that the literatures for instance of multiple modernities and alternative modernities are each distinguished by the fact that one ignores the other It is the principal aim of this edited volume to subject these disciplinary discussions to a more encompassing view assembling contributions from different scholars who not only work in different disciplines and regional settings but who also engage with their research topics in a variety of approaches and at different levels of analysis The volume thus transcends the sometimes narrow boundaries of the debates over modernities within the established academic disciplines and seeks to turn the unavoidable friction brought about by this interdisciplinary setting into most original and insightful scholarship Poverty and Global Recession in Southeast Asia Aris Ananta, Richard

R. Barichello, 2012 This book started with an objective to understand the impact of high inflation on poverty and food security

in Southeast Asia However the global economy moved quickly into recession in 2008 Anticipating that the impact of global recession would be more severe than that of high inflation in Southeast Asia we re focused the title of the book to Poverty Food and Global Recession in Southeast Asia By early 2010 people were already optimistic that the global recession was over or would be over soon However the evidence was mounting that the poor had suffered and were still suffering from the current global crisis even if the richer individuals may have recovered Therefore an important question arises Is the crisis really over for the poor This then became the sub title of this book This book aims to contribute a better understanding on poverty and food security in Southeast Asia during the recent global recession considering both recent developments and the previous major crisis of 1997 98

South Koreans in the Debt Crisis Jesook Song,2009-08-18 Examines the rise of neoliberal social welfare policy in South Korea during the period of the Asian Debt Crisis the ultimate consequences of which include the reinforcing of traditional gender roles Shaping a Humane World Oliver Kozlarek,Univ. Prof. Dr.

Dr.h.c.mult.,Ernst Wolff,2014-03-15 The generation of meaning is the primary precondition for acting and thinking The essays in this volume contribute to a discourse on this matter with a decentred globalized world in mind The notions civilization humanism and modernity far from being exclusively Western ideas may facilitate joint efforts of reflecting on the universality of current human conditions particularly since such reflexion is possible from particular cultural perspectives Modernity presents us with a second Axial Time in which the quest for a plural but shared humane world is the challenge

The Social Question in the Global World Ewa Bogalska-Martin,Emmanuel Matteudi,2018-04-18 In an era of rapid globalisation how can the changes that characterise how the social question is addressed in rich and emerging countries be analysed How can one interpret the crisis in the Welfare State and the emergence of new social policies that push for the financial contribution of beneficiaries and the development of new forms of solidarity What can be said about the world s poorest countries and their recurrent difficulty in benefiting from international aid to fight against poverty and ensure the protection of all people This volume brings together 24 researchers from around the world to analyse a series of case studies of developed emerging and developing countries They study the evolution or decline observed in these countries and propose some answers to the issue of the way in which the economic model influences how the social question is taken into account around the world A closer look reveals that the manner in which this question is addressed largely determines how the evolution of the world is perceived While the contributors here highlight how capitalism makes it possible to reflect on the issue of social protection they also show the limits of policies unable to guarantee this protection as soon as the economic situation can no longer allow countries to bear its costs
