Gerardo R. Ungson, Yim-Yu Wong

New Strategic Management Organizations Competition And Competence:

The New Strategic Management Ron Sanchez, Aimé Heene, 2003-07-18 The first full examination of the competence perspective Addresses contemporary organizational and competitive issues Offers well defined carefully interrelated and fundamental strategic management concepts

Competence-Based Strategic Management Aimé Heene, Ron Sanchez, 1997-02-12 The emergence of the competence concept in management has meant new concepts for developing better approaches to strategic management in organisations The authors outline this latest method of assessing assets and capabilities in companies

Mid-Range Management Theory Ron Sanchez, Aimé Heene, Seçkin Polat, Umut Asan, 2017-12-13 This volume presents an epistemological argument for the essential function of mid range theory in advancing management concepts that can be usefully applied by managers Authors analyse two examples modularity and dynamic capabilities

Strategic Management in Public Organizations Paul Joyce, Anne Drumaux, 2014-06-13 Strategic Management in Public Organizations European Practices and Perspectives offers the first wide ranging survey and assessment of strategic management practices at various levels of government and public service in European countries It shows that strategic management is much more than a management tool imported from the private sector it has become a key element of public management reforms and European governments at all levels are developing strategic state characteristics Written by leading European experts on strategic management in the public sector and in government this book presents evaluations and analysis based on empirical investigations The book covers strategic management at different levels of government explore the roles of different players and incorporate theory and practice with opening and concluding chapters by the editors that provide an overview of strategic management in the public services and a cross societal discussion of practices reforms and lessons It reflects not only developments in strategic management practices in the European public sector but also the increasing importance of strategic capabilities for the modernization of public governance This book is ideal for students in postgraduate management courses MPA MSc or MBA in Europe and elsewhere

Strategic Management and Core Competencies Anders Drejer, 2002-06-30 Managers and management scholars alike need operational models and concepts for dealing with core competencies within strategic management This book provides tools for the practitioner as well as fundamental theoretical concepts to enable scholars to further build upon Drejer s work His main argument is that understanding core competencies is key to explaining why some firms enjoy a competitive advantage over others Drejer proposes models and means with which managers can proactively identify design and develop their firm s core competencies in strategic alignment More than merely a how to book this work places an equal emphasis on the concepts behind competence based strategy The author offers the reader multiple perspectives on the background of competence based strategy the relationship between strategic management and the development of core competencies and the application of competence based strategy to praxis He provides the tools necessary to identify analyze and develop the competencies of a

firm and in so doing performs a valuable service for practitioners and researchers

Global Strategic Management
Gerardo R. Ungson, Yim-Yu Wong, 2014-12-18 International business is undergoing continuous transformation as multinational firms and comparative management evolve in the changing global economy To succeed in this challenging environment firms need a well developed capability for sound strategic decisions This comprehensive work provides an applied and integrated strategic framework for developing capabilities that lead to global success It is designed to help readers achieve three essential objectives First it provides intellectual and practical guidelines for readers to execute goals and strategies that lead to meaningful and productive results The book is packed with frameworks cases anchoring exercises techniques and tools to help readers emerge with a completed business plan after the last chapter Second it focuses on strategy and how firms build competitive presence and advantages in a global context A primary learning objective is to enable readers to understand and evaluate the major issues in strategy formulation and implementation in a global context Third it provides an accessible framework that will help guide readers in making strategic decisions that are sound and effective It offers a unifying process that delineates the necessary steps in analyzing the readiness of a firm to do business abroad In addition to core issues each chapter presents frameworks analytical tools action oriented items and a real world case all designed to provide insights on the challenges imposed by globalization and technology on managers operating in a global context

A Focused Issue on Identifying, Building and Linking Competences Ron Sanchez, Aimé Heene, 2010-05-26 Features a collection of papers that explores the challenges in identifying building and linking competences within and between organizations This title includes a paper that describes a facilitated process through which managers may identify an organization's competences It also explains basic issues in building organizational competence

Key Concepts in Strategic Management Jonathan Sutherland, 2017-03-14 Key Concepts in Strategic Management is one of a range of comprehensive glossaries with entries arranged alphabetically for easy reference All major concepts terms theories and theorists are incorporated and cross referenced Additional reading and Internet research opportunities are identified More complex terminology is made clearer with numerous diagrams and illustrations With over 500 key terms defined the book represents a comprehensive must have reference for anyone studying a business related course or those simply wishing to understand what strategic management is all about It will be especially useful as a revision aid

Dynamic Capabilities
Philip Cordes-Berszinn, 2013-11-29 The concept of dynamic capabilities especially in terms of organizational knowledge processes has become the predominant paradigm for the explanation of competitive advantages However major unsolved or at least insufficiently solved problems are first their measurement and second their management by concrete managerial options such as design options of organizational structures Dynamic Capabilities provides an integrated descriptive model of both dynamic capabilities and organizational structures that allows characterizing classifying and a comparison It develops a logic system of a multitude of combinatorial possibilities between their variables and it develops a complex and integrated

system of associated empirically based and qualitatively deduced hypotheses Therewith it serves as a terminological and analytical foundation for the identification of knowledge based dynamic capabilities in organizations and for a targeted design of organizational structures that enable and foster dynamic capability processes such as knowledge transfer and knowledge absorption **A Focused Issue on Building New Competences in Dynamic Environments** Aimé Heene, Ron Sanchez, 2014-10-29 Changing business environments challenge established management ideas and practices This volume draws on competence based theory to identify and elaborate some important ways in which organizational competences are evolving or should evolve to respond to some fundamental forms of change in business environments **Research Methods for Strategic Management** Giovanni B. Dagnino, Maria Cristina Cinici, 2015-10-16 The field of strategic management has developed significantly since its birth from business policy and business planning in the 1960s Pioneering studies were essentially normative prescriptive and often based on in depth case studies The evolution of strategic management into a respected field of academic study resulted from the adoption of research methods previously employed in economics Today research in strategic management is likely to employ a mixture of methods borrowed from related and unrelated disciplines such as political sciences psychology neuroscience and behavioral economics which can be confusing to researchers new to the field This book provides the reader with a broad introduction to the array of qualitative and quantitative research methods required to investigate strategic management Throughout the book strong emphasis is placed on practical applications that transcend the mere analysis of the theoretical roots of single research methods The underlying result is a book that encourages and aids readers to learn by doing in applying the implications of each chapter to their own research This text is vital reading for postgraduate students and researchers focused on business strategy **Empowering People Collaboration between Finnish and Namibian University Libraries** , *Dynamics of Competence-based Competition* Ron Sanchez, Aimé Heene, Howard Thomas, 1996 In order to integrate the various contributions to the book the text has been carefully edited to ensure a consistent carefully defined and straightforward vocabulary It will therefore appeal both to researchers and students for whom theoretical rigor is important and to practising executives managers and consultants who will welcome its clear applicability to their own experience **The Evolution of Strategic Management: Challenges in Theory and Business Practice** Tomasz Kafel, Bernard Ziębicki, 2021-01-01 Purpose Strategic management has been developing in business theory and practice for over 50 years Presently it constitutes the main area of research interest in management science The contemporary conditions of business operations create new challenges for strategic management such as the use of dynamic capabilities in strategy building relational strategies networking of organizations technology development and automation of processes and global strategies These challenges are often referred to as neostrategic management The purpose of this publication is to present the findings of research concerning new strategic management concepts and challenges Methodology The main research method of this article was a narrative literature review On the basis

of the research the development of the concepts as well as contemporary trends and challenges of strategic management were characterized There is also a synthesis of the problems and research results presented in the articles in this special issue of JEMI Findings Various schools and approaches to strategy formulation have been created They indicate different factors that allow for success in strategic management such as setting long term goals selection of programs and their execution plans planning school connection of the enterprise with the environment evolutionary school focusing attention on competitive advantage and achieved performance position based school focus on one's own resources and competences resource school use of opportunities and creating innovation simple rules school selection of the best option and orientation in business management real options school or eclectic perspectives integrating the listed approaches The strategic management concept has two dimensions The first dimension is related to the emergence of subsequent new strategic management concepts which often hark back to the previous schools and approaches The second dimension of development applies to operationalization and adjustment of the previous concepts to the changing conditions Implications for theory and practice The paper characterizes the research results presented in the articles included in this JEMI issue They deal with various problems and challenges in the field of strategic management such as the relationship between market dynamics market orientation and performance of enterprises the innovativeness of companies as a contemporary strategic orientation of companies the strategy implementation and the management of the organization change problems of strategic management of the development of the city Originality and value The problems presented in the study relate to challenges and new concepts in strategic management They enrich the existing knowledge on the development of strategic management and also create inspiration for further research in this area
