New Testament And The Apostolic Fathers:

Trajectories through the New Testament and the Apostolic Fathers Andrew Gregory, Christopher Tuckett, 2005-12-01 The two volume work *The New Testament and the Apostolic Fathers* offers a comparative study of two collections of early Christian texts the New Testament and the texts from immediately after the New Testament period which are conventionally referred to as the Apostolic Fathers The second volume *Trajectories through the New Testament and the Apostolic Fathers* discusses broad theological literary and historical issues that arise in the comparative study of these texts and which are of importance to the study of early Christianity It deals with the most important current debates concerning both the Apostolic Fathers and the New Testament such as baptism Pauline theology the function of apocalyptic elements Church order and Jewish and Christian identity

The Apostolic Fathers and the New Testament Clayton N. Jefford, 2006-08-01 Selected for inclusion in *Preaching magazine's Annual Review of Outstanding Books for Preachers 2006* The apostolic fathers were authors of nonbiblical church writings of the first and early second centuries These works are important because their authors Clement I Hermas Ignatius of Antioch Polycarp and the author of the Epistle of Barnabas were contemporaries of the biblical writers Expressing pastoral concern their writings are similar in style to the New Testament Some of their writings in fact were venerated as Scripture before the official canon was decided

The Apostolic Fathers and the New Testament provides a comparison of the apostolic fathers and the New Testament that is at once comprehensive and accessible What genres letters miracle stories etc appear in what ways What apostolic fathers seem to reflect which passages in the New Testament What themes appear in both bodies of literature How did the apostolic fathers adopt and adapt images from the New Testament How do the New Testament and the Apostolic Fathers contribute to our understanding of how early Christians understood themselves in relation to the mother faith of Judaism Any attempt to compare the Apostolic Fathers and the New Testament faces the difficulty that each set of writings represents diverse authors and historical contexts within the early church As a result scholars who work in the field have typically restricted their research to individual authors and writings Thus it has been difficult to come to any general observations about the larger corpus After carefully examining images themes and concepts found in the New Testament and the apostolic fathers Jefford posits some general observations and insights about the beliefs of the early church

The Reception of the New Testament in the Apostolic Fathers Andrew Gregory, Christopher Tuckett, 2005-12-02 The two volume work *The New Testament and the Apostolic Fathers* offers a comparative study of two collections of early Christian texts the New Testament and the texts from immediately after the New Testament period which are conventionally referred to as the Apostolic Fathers The first volume *The Reception of the New Testament in the Apostolic Fathers* presents a comprehensive and rigorous discussion of the extent to which the writings later included in the New Testament were known to and used by each of the Apostolic Fathers Contemporary research on the textual traditions of both collections is used to address the questions of textual transmission and reception

and is the Secretary Treasurer of the North American Patristics Society He has written and edited six volumes and is best known for his research in the fields of the Didache and the Apostolic Fathers [The New Testament in the Apostolic Fathers](#) Oxford Society Of Historical Theology,2014-03 This Is A New Release Of The Original 1905 Edition **The New Testament in the Apostolic Fathers** Kirsopp Lake,2021-09-23 This work had its origin in a resolution passed by the Society of Historical Theology in Oxford appointing a small Committee to prepare a volume exhibiting those passages of early Christian writers which indicate or have been thought to indicate acquaintance with any of the books of the New Testament Beyond the appointment of the Committee the Society has no responsibility whatever for the work and the judgements which are expressed belong to the Committee alone The present volume deals with the writings of the Apostolic Fathers in which information is scanty and traces of dependence on the Scriptures of the New Testament are most open to doubt The editors are quite aware that their judgements may not command universal assent but they may claim at least that these judgements have been carefully formed sometimes after considerable hesitation by men who are not without practice in this kind of investigation It is hoped that the book will not only provide the student with useful material but afford him some helpful direction in reaching his own conclusions From the Preface **The New Testament in the Apostolic Fathers** Oxford Society of Historical Theology,1905 **Trajectories Through the New Testament and the Apostolic Fathers** Andrew F. Gregory,Christopher Mark Tuckett,2023 This is the second of a two volume work offering a comparative study of two collections of early Christian texts the New Testament and the Apostolic Fathers This text discusses broad theological literary and historical issues that arise and which are of importance to the study of early Christianity **NEW TESTAMENT IN THE APOSTOLIC FATHERS** COMMITTEE OF THE OXFORD SOCIETY OF HISTORICAL. B. Lightfoot,2020-03-19 The Apostolic Fathers are a small number of Early Christian authors who lived and

wrote in the second half of the 1st century and the first half of the 2nd century They are acknowledged as leaders in the early church although their writings were not included in the New Testament They include Clement of Rome Ignatius of Antioch Polycarp of Smyrna the author of the Didache and the author of the Shepherd of Hermas The Apostolic Fathers the earliest extant Christian writings outside the New Testament are a primary resource for the study of early Christianity These works are important because their authors were contemporaries of the biblical writers J B Lightfoot is known as the greatest British New Testament scholar of the nineteenth century

The Writings of the Apostolic Fathers Paul Foster, 2007-01-01 The Writings of the Apostolic Fathers refer to a group of miscellaneous Christian writings produced in the first and second centuries The authors of these writings were considered by seventeenth century scholars to be the next generation of Apostles and as a result were named The Apostolic Fathers Perceived by many scholars to be the most important collection of post New Testament writings a number of these texts were in fact considered for the Canon of the New Testament but later rejected Their obvious significance stems from the fact that they are the first Christian writings produced outside the New Testament Canon and as such contain an essential insight into the development of the early Christian Church and Christian thinking Much Christian Doctrine came not from the New Testament but from the writings produced by the early church and in particular the writings of the Apostolic Fathers Therefore these texts are crucial to an understanding of the shaping of Christian thought and Christian doctrine This volume will provide readers with an overview of each of the eleven texts together with a general introduction Communicating the best recent scholarship to a broad audience each chapter offers a treatment of the most controversial aspects of each text and discusses the theology of each of the writings in order to orient readers to the development of Christian thinking in the second century Each article ends with a carefully chosen select bibliography to enable further reading
