**New Testament Development of Old Testament Themes** F. F. Bruce, 2004-04-20 This is that which was spoken by the prophet As the Apostle Peter spoke these words on the day of Pentecost he began not only the first public proclamation of the gospel but also a controversy which has occupied Christians to the present While many scholars study the Old Testament in light of its fulfillment in the New Testament others deny the possibility of any continuity between the two F F Bruce holds the former view although he is careful to avoid going too far in finding countless New Testament events foretold in the Old Rather it is his purpose here to examine a few of the major themes motifs and images which are used as vehicles of revelation in the Old Testament and consider how the New Testament writers continue to use them to present the perfected revelation of Christ He has selected in particular those which relate to the rule of God the salvation of God the people of God and the servant of God

**The Bible, Mormon Scripture, and the Rhetoric of Allusivity** J. Frederick, 2016-05-05 One of the most pertinent questions facing students of Mormon Studies is gaining further understanding of the function the Bible played in the composition of Joseph Smith s primary compositions the Book of Mormon and the Doctrine and Covenants With a few notable exceptions such as Philip Barlow s *Mormons and the Bible* and Grant Hardy s *Understanding the Book of Mormon* full length monographs devoted to this topic have been lacking This manuscript attempts to remedy this through a close analysis of how Mormon scripture specifically the Book of Mormon and the Doctrine and Covenants integrates the writings of New Testament into its own text This manuscript takes up the argument that through the rhetoric of allusivity the allusion to one text by another Joseph Smith was able to bestow upon his works an authority they would have lacked without the incorporation of biblical language In order to provide a thorough analysis focused on how Smith incorporated the biblical text into his own texts this work will limit itself only to those passages in Mormon scripture that allude to the Prologue of John s gospel John 1 1 18 The choice of the Prologue of John is due to its frequent appearance throughout Smith s corpus as well as its recognizable language This study further argues that the manner in which Smith incorporates the Johannine Prologue is by no means uniform but actually quite creative taking at least four different forms Echo Allusion Expansion and Inversion The methodology used in this work is based primarily upon recent developments in intertextual studies of the Bible an analytical method that has proved to be quite effective in studying later author s use of earlier texts

**Exploring the Old Testament in the New** Peter R. Rodgers, 2012-11-29 There are many books on the use of the Old Testament in the New This one takes a practical approach to the subject inviting the reader to explore the relationship between the two testaments in the Bible through a series of different lenses The text form of the Old and New Testaments The presence or absence of introductory formulae The selection of texts by New Testament writers The application of Old Testament texts to the Gospel facts The combination of several Old Testament texts The history of interpretation of these texts in ancient Judaism The story or narrative that is indicated by the use of these texts The function of the Old Testament citations in the New Testament writings Each section includes practical exercises that will help the reader become a participant in the discussion Through these eight lenses the reader is invited to explore this fascinating

subject and through it to discover what C H Dodd called the substructure of New Testament theology     *Old Testament Introduction* Mark Mangano,2005     "Isaiah Saw His Glory" Daniel J. Brendsel,2014-10-29 The influence of Isaiah on John's narrative and theology has long been recognized but it has yet to receive monograph length attention This study is a beginning attempt to fill that void through an examination of the use of Isaiah in the crucial hinge of John's gospel John 12 1 43 Beginning with a reading of Isaiah 40 55 illustrating a way in which early Christians may have read this important section of Scripture the bulk of the study examines the pericopes in John 12 1 43 seeking to identify and interpret John's use of Isaiah 52 53 It is concluded that a reading of this well known Isaianic text rooted within its broader context in Isaiah together with the mediating influence of other texts notably Isa 6 9 10 and Zech 9 9 10 has fueled much Johannine theology Christology and ecclesiology Moreover mirroring the progression of Isa 52 7 53 1 in John 12 is the author's way of underlining Jesus identity as the Servant of God and announcing that the second exodus prophesied by Isaiah is secured by the rejection and death of Jesus
