The New Testament in Current Study Reginald H. Fuller (Theologe, Grossbritannien),1962 *A Theology of the New Testament* George Eldon Ladd,1993-09-02 Ladd s magisterial work on New Testament theology has well served thousands of seminary students since its publication in 1974 Enhanced and updated here by Donald A Hagner this comprehensive standard evangelical text now features augmented bibliographies and two completely new chapters on subjects that Ladd himself wanted to treat in a revised edition the theology of each of the Synoptic Evangelists and the issue of unity and diversity in the New Testament written respectively by R T France and David Wenham

The New Testament in Current Study Reginald H. Fuller,Reginald Horace Fuller,1977-02 New Testament Interpretation I. Howard Marshall,2006-10-01 These eighteen pieces have been commissioned to provide a succinct yet comprehensive guide to the best of recent evangelical thinking about how the New Testament is to be interpreted so that it may speak most clearly to today s world The need for such a handbook can be felt more keenly as on the one side a secularized world dismisses the biblical faith as outmoded unworkable and unsatisfying and on the other numerous Christian communities committed to taking that faith with ultimate seriousness are driven by controversies about how to read and understand the Bible Following the editor s introduction in which I Howard Marshall examines a familiar New Testament passage in order to exemplify the problems and rewards that await the careful interpreter the essays are arranged under four headings beginning with overviews of the history of New Testament study and the role of the interpreter s presuppositions in this enterprise then going on to discuss the various critical tools the methods of exegesis and the application of the New Testament to the faith and life of the contemporary reader An annotated bibliography concludes the presentation Because the issues involved here have too often been ignored in many quarters more than one approach to or opinion about a given matter may surface in these essays yet undergirding this diversity is the author s shared conviction as conservative evangelicals with a high regard for the authority of Holy Scripture that we are called upon to study the Bible

with the full use of our minds As the editor writes The passages which we interpret must be the means through which God speaks to men and women today Our belief in the inspiration of the Bible is thus a testimony that New Testament exegesis is not just a problem it is a real possibility God can and does speak to men through even the most ignorant of expositors of his Word At the same time he calls us on to devote ourselves to his Word and use every resource to make its message the more clear

A Theory of Character in New Testament Narrative Cornelis Bennema,2014-04-01 In this study in three dimensional character reconstruction Cornelis Bennema presents a new theory of character in the New Testament literature Although character has been the subject of focused literary critical study of the New Testament since the 1970s Bennema observes that there is still no consensus regarding how character should be understood in contemporary literary theory or in biblical studies Many New Testament scholars seem to presume that characters in Greco Roman literature are two dimensional Aristotelian figures unlike the well rounded psychologized individuals who appear in modern fiction They continue nevertheless to apply contemporary literary theory to characters in ancient writings Bennema here offers a full comprehensive and non reductionist theory for the analysis classification and evaluation of characters in the New Testament

New Paradigms for Bible Study Robert M. Fowler,Edith Blumhofer,Fernando F. Segovia,2004-06-03 Provides an overview of various models of reading the Bible in the Third

Millenium **Sound Mapping the New Testament** Margaret Ellen Lee,Bernard Brandon Scott,2024-03-28 In the ancient

world writings were read aloud heard and remembered In contrast modern exegesis assumes a silent text For Margaret Lee and Brandon Scott the disjuncture between ancient and modern approaches to literature obscures the beauty and meaning in writings such as the New Testament As the structure of an ancient Greek composition derives first from its sounds and not from the meaning of its words sound analysis analysis of the signifier and its audible dimension are crucial to interpretation Sound Mapping the New Testament explores writing technology in the Greco Roman world and uses ancient Greek literary criticism for descriptions of grammar as a science of sound and literary composition as a woven fabric of speech Based on these perspectives and a close analysis of writings from the four Gospels Paul and Q Lee and Scott advance a theory of sound analysis that enables modern readers to hear the New Testament afresh This second edition includes a new introduction which reviews a decade of sound mapping scholarship

Robertson re-describes the form of the apostle Paul's letters in a manner that facilitates transparent empirical comparison with texts not typically treated by biblical scholars. Paul's letters are best described by a set of literary characteristics shared by certain Greco-Roman texts, particularly those of Epictetus and Philodemus. Paul Robertson theorizes a new taxonomy of Greco-Roman literature that groups Paul's letters together with certain Greco-Roman ethical philosophical texts written at a roughly contemporary time in the ancient Mediterranean. This particular grouping, termed a socio-literary sphere, is defined by the shared form, content, and social purpose of its constituent texts, as well as certain general similarities between their texts/authors.
