

New RCA Victor gives you Color TV that's custom-engineered the Space Age way—with dependable RCA solid copper circuits.

It's something—something new. RCA Victor Color TV. And nothing that you can't get with one RCA solid copper circuit.

One to mention is the RCA Solid Copper circuit system of 1961. They applied solid copper circuitry to RCA's 1961 product line. They were the first color TV to work in color. And they were the first to work in color.

There's more to RCA's 1961 color TV than just the fact that it works in color. It's the fact that it works in color. And it's the fact that it works in color.

Dependable. That's the RCA Victor Color TV. And it's the fact that it works in color.
