New Math Diversn P:

Spirituality, Diversion, and Decadence Peter Higbie Van Ness,1992-01-01 This book presents a philosophical rethinking of the meaning and nature of spiritual discipline It offers a new way of describing and justifying practices like praying meditating fasting and yoga and it provides an innovative case for their contemporary importance Spiritual discipline is especially effective at combatting Pascalian diversion the pursuit of activities that occupy the mind just enough to avoid thinking about important things and Nietzschean decadence the proclivity for extirpating instinctive drives instead of satisfying or sublimating them In addition to overcoming diversion and decadence in contemporary consumerist culture VanNess recommends spiritual discipline as a means of political resistance to powerful institutions which seek to exercise social control in democratic societies by promulgating addictive patterns of consumption Finally he argues that regimens of spiritual discipline can serve healthful and liberating purposes and generally promote fullness of life only insofar as they are shaped by an ethos of intellectual criticism and aesthetic experimentation *Of Divers Arts* Naum Gabo,2023-10-17 Constructivist and sculptor Naum Gabo s personal account of his development as an artist A leading exponent of the modern art movement known as Constructivism Russian born Naum Gabo was one of the most important sculptors of the twentieth century an artist designer and theorist whose work changed the course of modern art *Of Divers Arts* is Gabo s beautifully written personal account of his development and growing into consciousness as an artist and his constant search for new techniques of communication Throughout he reflects on the relationship between art and science and reveals the many important influences on his work especially the natural world Russian religious and folk art and the work of the artist Mikhail Vrubel The result is a remarkable autobiographical account of a major modern artist *How Deep Sea Divers Use Math* Sheri L.
