New Mathematics And An Old Culture:

The New Mathematics and an Old Culture Michael Cole, John H. Gay, 1965 Mathematics Across Cultures Helaine Selin, 2012-12-06 Mathematics Across Cultures A History of Non Western Mathematics consists of essays dealing with the mathematical knowledge and beliefs of cultures outside the United States and Europe In addition to articles surveying Islamic Chinese Native American Aboriginal Australian Inca Egyptian and African mathematics among others the book includes essays on Rationality Logic and Mathematics and the transfer of knowledge from East to West The essays address the connections between science and culture and relate the mathematical practices to the cultures which produced them Each essay is well illustrated and contains an extensive bibliography Because the geographic range is global the book fills a gap in both the history of science and in cultural studies It should find a place on the bookshelves of advanced undergraduate students graduate students and scholars as well as in libraries serving those groups **The New Mathematics and an Old Culture** John Gay, Michael Cole, Peace Corps (U.S.). Information Collection and Exchange, 1967 **Context and Cognition** Paul Light, George Butterworth, 2016-07-07 Originally published in 1993 the study of cognitive development in children had moved from a focus on the intellectual processes of the individual studied in relative isolation as in the classic work of Piaget to a concern in the 1970s and 1980s with social cognition characterized by Vygotsky's views In the years following the trend toward an understanding of the situated nature of cognition had evolved even further and the extent to which thinking and knowing are inextricably linked to contextual constraints was at last being defined Experts of international repute the authors of this important book examine the recent literature on situated cognition in children They explain contextual sensitivity in relation to ecological theories of cognition and contrast intuitive reasoning in mathematical and other scientific domains with the failure of such reasoning in formal school contexts Centrally concerned with the question of generalizability and transfer of knowledge from one situation to another the contributors point to practical implications for understanding how intellectual competence can be made to generalize between informal and formal situations Sociocultural Research on Mathematics Education Bill Atweh, Helen Forgasz, Ben Nebres, 2013-03-07 This volume the first to bring together research on sociocultural aspects of mathematics education presents contemporary and international perspectives on social justice and equity issues that impact mathematics education In particular it highlights the importance of three interacting and powerful factors gender social and cultural dimensions Sociocultural Research on Mathematics Education An International Perspective is distinguished in several ways It is research based Chapters report on significant research projects present a comprehensive and critical summary of the research findings and offer a critical discussion of research methods and theoretical perspectives undertaken in the area It is future oriented presenting recommendations for practice and policy and identifying areas for further research It deals with all aspects of formal and informal mathematics education and applications and all levels of formal schooling As the context of mathematics education rapidly changes with an increased demand for

mathematically literate citizenship an increased awareness of issues of equity inclusivity and accountability and increased efforts for globalization of curriculum development and research questions are being raised more than ever before about the problems of teaching and learning mathematics from a non cognitive science perspective This book contributes significantly to addressing such issues and answering such questions It is especially relevant for researchers graduate students and policymakers in the field of mathematics education
