Louise-Amélie Cougnon,Cédrick Fairon,2014-07-15 The media often point an accusatory finger at new technologies they suggest that there is always a loss of information or quality or even that computer mediated communication is destroying language Most linguists on the contrary are firmly convinced that it is better to consider language as an evolving and changing entity From this point of view language is a social tool that has to be studied in depth through the prism of objectivity as a process in motion which is influenced by new social and technological stakes rather than as a fading organism In this volume we study and describe the societal phenomenon of SMS writing in its full complexity The aim of this volume is threefold to present recent linguistic research in the field of SMS communication to inform the reader about existing large SMS corpora and processing tools and finally to display the many linguistic aspects that can be studied via a corpus of text messages These articles were previously published in Lingvisticae Investigationes Vol 35 2 2012 **Discourse of Text Messaging** Caroline Tagg,2012-05-17 Understanding the discourse of text messaging has profound implications for society SMS text messaging has impacted considerably on how we communicate with others Negative sometimes alarmist media coverage continues to fuel debate surrounding its damaging effects on language and literacy yet these portrayals tend to be based on extreme or fictionalised accounts of text messaging What kind of language do people really use when they text Drawing on a range of academic sources from various fields this book describes the language used in a corpus of over 11 000 text messages as yet the largest collection in the UK In particular the book shows how the discourse of text messaging is shaped by users often creative responses to the functions and constraints of the medium This is an essential book for upper level undergraduates and postgraduates studying discourse analysis as well as educators wanting to understand this important new form of discourse **The Newspapers Handbook** Richard Keeble,Ian Reeves,2005-11-16 Fully revised and updated The Newspapers Handbook remains the essential guide to working as a newspaper journalist It examines the ever changing everyday skills of newspaper reporting and explores the theoretical ethical and political dimensions of a journalist s job Using a range of new examples from tabloid compact and broadsheet newspapers non mainstream and local publications Richard Keeble examines key journalistic skills such as the art of interviewing news reporting reviewing feature writing using the Internet and freelancing New chapters from John *Postdigital Disconnects* Marion Mathier,2023-03-22 This book employs a critical discourse ethnographic approach to map the production of social meaning in digital media in education drawing on insights from Switzerland to unpack the disconnects that arise in thinking postdigitally and ways forward for rethinking socio cultural approaches Grounded in Foucault influenced linguistically oriented discourse studies the book calls attention to the ways in which educational discourse has increasingly promoted digital media as a means of justifying curriculum change Using data from policy documents participant observation and interviews Mathier charts how this rhetoric manifests itself in the combination of top down policies on the ground implementation and the lived experiences of students outside the classroom and in turn surfaces broader disconnects The volume explores how digital education is

increasingly shaped by platform capitalism how young people s experiences are disregarded in formal knowledge production and how the prevalence of digital teaching and learning contributes to issues of access and inequality Through a critical discursive approach Mathier demonstrates the need for literacy practices in postdigital education to interrogate the ways in which digital media and education are entangled in larger socio political practices This book will appeal to students and scholars in critical discourse studies critical literacy studies digital communication education research and linguistic ethnography **Mediatization and Sociolinguistic Change** Jannis Androutsopoulos,2014-09-04 This is the first volume to focus on the role of media in processes of linguistic change one of the most contested issues in contemporary sociolinguistics Its 17 chapters and five section commentaries present cutting edge research from variationist and interactional sociolinguistics media linguistics language ideology research and minority language studies The volume advances our understanding of linguistic change in a mediatized world in three ways First it introduces the notions of sociolinguistic change and mediatization to create a broader theoretical framing than the one offered by the media and language change Second it takes the discussion beyond the notions of influence and effect and the binary distinction of media vs community language Third it examines the relation of sociolinguistic change and mediatization and from five complementary viewpoints media influence on linguistic structure media engagement in interaction change in mass and new media language language ideological change and the role of media for minority languages Bringing these strands of sociolinguistic scholarship together this volume examines their shared references and common lines of thinking *Indexing Authenticity* Véronique Lacoste,Jakob Leimgruber,Thiemo Breyer,2014-10-14 The concept of authenticity has received some attention in recent academic discourse yet it has often been left under defined from a sociolinguistic perspective This volume presents the contributions of a wide range of scholars who exchanged their views on the topic at a conference in Freiburg Germany in November 2011 The authors address three leading questions What are the local meanings of authenticity embedded in large cultural and social structures What is the meaning of linguistic authenticity in delocalised and or deterritorialised settings How is authenticity indexed in other contexts of language expression e g in writing or in political discourse These questions are tackled by recognised experts in the fields of sociolinguistics linguistic anthropology and contact linguistics While by no means exhaustive the volume offers a large array of case studies that contribute significantly to our understanding of the meaning of authenticity in language production and perception **The Handbook of Discourse Analysis** Deborah Schiffrin,Deborah Tannen,Heidi E. Hamilton,2008-04-15 The Handbook of Discourse Analysis makes significant contributions to current research and serves as a comprehensive and authoritative guide to the central issues in contemporary discourse analysis Features comprehensive coverage of contemporary discourse analysis Offers an overview of how different disciplines approach the analysis of discourse Provides analysis of a wide range of data including political speeches everyday conversation and literary texts Includes a varied range of theoretical models such as relevance theory and systemic

functional linguistics and methodology including interpretive statistical and formal methodsFeatures comprehensive coverage of contemporary discourse analysis
