## **New Middle Classes Social Psychological And Political Issues:**

The New Middle Classes Arthur J. Vidich, 2016-07-27 This volume is designed first to provide a theoretical orientation and historical perspective on the rise of the middle classes in modern civilization and second to portray the social and political roles these classes have played and continue to play in the United States over the past century with particular reference to the American class structure and political economy Our method is necessarily both historical and sociological and offers an orientation for understanding contemporary American society The essays included here were written between 1926 and 1982 they reveal both the genealogical development of sociological thought about the middle classes and the substantive content of these classes life styles status claims and political orientations The present work stresses empirical studies and puts forth neither a theoretical interpretation nor a conceptual taxonomy rather it delineates the emergence and the social and political significance of the new middle classes in relation to the classes above and below that preceded them **Presidential**

**Healthcare Reform Rhetoric** Noam Schimmel, 2016-09-22 This book analyzes the rhetorical strategies employed by the four Democratic presidents Truman Johnson Clinton and Obama who tried to expand access to and affordability of healthcare in the United States It considers how they made such arguments the ethics they advanced and the vision of America they espoused The author combines rhetoric analysis policy analysis and policy history to illuminate the dynamic nature of the way American presidents have imagined the moral and social bonds of the American people and their exhortations for governance and policy to reflect and honor these bonds and obligations Schimmel illustrates how Democratic presidents invoke positive liberty and communitarian values in direct challenge to opposing conservative ideologies of limited government and prioritization of negative liberty and their increasing prominence in the post Reagan era He also draws attention to the ethical and policy compromises entailed by the usage of specific rhetorical strategies and their resulting discursive effects **The Oxford Handbook of Social Psychology and Social Justice** Phillip L. Hammack, 2018 The

Oxford Handbook of Social Psychology and Social Justice spans cultures and disciplines to highlight critical paradigms and practices for the study of social injustice in diverse contexts This book addresses injustice along such lines as race ethnicity gender sexual identity and social class It also addresses pressing issues of globalization conflict intervention and social policy

**The Subject Index to Periodicals** ,1928 *Thesaurus of ERIC Descriptors* ,1977 **Political Participation and Democracy in Britain** Geraint Parry, George Moyser, Neil Day, 1992-01-16 The results of a survey on the level and patterns of political involvement in Britain *What the West is Getting Wrong about the Middle East* Ömer Taspinar, 2020-09-17 The West's actions in the Middle East are based on a fundamental misunderstanding political Islam is repeatedly assumed to be the main cause of conflict and unrest in the region The idea that we can decipher Jihadist radicalization or problems in the Middle East simply by reading the Qur'an has now become symptomatic of our age This dangerous oversimplification and the West's obsession with Islam dominates media and policy analysis ultimately skewing intervention and preventing long

term solutions and stability in the region mer Taspinar who has 20 years research and policymaking experience explains here what is really going on in the Middle East The book is based on three of the most pressing cases currently under the spotlight the role of Erdogan and the unrest in Turkey the sectarian clashes in Iraq Syria Yemen and Lebanon and the existence of the so called Islamic State Islam is often seen as the root cause of the challenge associated with these cases But by unpacking the real issues such as entrenched authoritarianism vast energy resources excessive defense spending and the youth bulge the book demystifies what is happening and cites governance and nationalism as the main drivers of conflict The book shows the importance of treating the causes which are economic social and institutional rather than the symptom the continued and growing success of Islamist parties and jihadist movements in assessing the Middle East In revealing exactly how Islamism is activated and by analyzing the structural challenges of the region this unique insider s account provides a map to understanding Middle Eastern wars and conflicts and the prospects for the future Handbook of Marriage and the Family Suzanne K. Steinmetz, Marvin B. Sussman, 2013-11-11 The lucid straightforward Preface of this Handbook by the two editors and the comprehensive perspectives offered in the Introduction by one of them leave little for a Foreword to add It is therefore limited to two relevant but not intrinsically related points vis a vis research on marriage and the family in the interval since the first Handbook Christensen 1964 appeared namely the impact on this research of the politicization of the New Right and of the Feminist Enlightenment beginning in the mid sixties about the time of the first Handbook In the late 1930s Willard Waller noted Fifty years or more ago about 1890 most people had the greatest respect for the institution called the family and wished to learn nothing whatever about it Everything that concerned the life of men and women and their children was shrouded from the light Today much of that has been changed Gone is the concealment of the way in which life begins gone the irrational sanctity of the home The aura of sentiment which once protected the family from discussion clings to it no more We want to learn as much about it as we can and to understand it as thoroughly as possible for there is a rising recognition in America that vast numbers of its families are sick from internal frustrations and from external buffeting We are engaged in the process of reconstructing our family institutions through criticism and discussion 1938 pp 3 4
