**Meditation and Mantras** Vishnu Devananda,2014-01-15 A mantra is a mystical energy encased in a sound structure It steadies the mind and leads to the stillness of meditation The modern lifestyle with its excesses and worldly desires the constant need to be connected and the rapid development in technology has made stress and lifestyle related diseases the norm The need for meditation thus is more acute Meditation calms the mind brings focus and enhances the senses resulting in a better quality of life and work And with the right mantras meditation becomes a highly effective tool in unleashing the immense potential within oneself This book from the Sivananda Ashram explains what meditation and mantras are and how they can be effectively used to recharge oneself with divine energy so that the tension of body and mind are gradually

reduced

**The Culture of Feedback** Daniel Belgrad, 2019-08-30 When we want advice from others we often casually speak of getting some feedback But how many of us give a thought to what this phrase means The idea of feedback actually dates to World War II when the term was developed to describe the dynamics of self regulating systems which correct their actions by feeding their effects back into themselves By the early 1970s feedback had become the governing trope for a counterculture that was reoriented and reinvigorated by ecological thinking The Culture of Feedback digs deep into a dazzling variety of left of center experiences and attitudes from this misunderstood period bringing us a new look at the wild side of the 1970s Belgrad shows us how ideas from systems theory were taken up by the counterculture and the environmental movement eventually influencing a wide range of beliefs and behaviors particularly related to the question of what is and is not intelligence He tells the story of a generation of Americans who were struck by a newfound interest in and respect for plants animals indigenous populations and the very sounds around them threading his tapestry with cogent insights on environmentalism feminism systems theory and psychedelics The Culture of Feedback repaints the familiar image of the 70s as a time of Me Generation malaise to reveal an era of revolutionary and hopeful social currents driven by desires to radically improve and feed back into the systems that had come before
